December 31, 1979

Dear Customer,

Enclosed you will find the prices realized from our recent Montreal Collection public and mail bid auction sale.

As you will observe upon reviewing the prices obtained in this sale, many new records were set in both coins and currency, and the continuing strength of the coin market today was evidenced throughout the sale. Interest both here and abroad in world coins and bank notes has been on the increase and shows signs of far greater expansion in the future.

WE HAVE A SPECIAL FOREIGN SALE COMING UP

In addition to our planned United States Coin and Currency Sale, to take place in late April, NASCA is preparing a major foreign coin and bank note sale for the late Spring of 1980. Many rare and valuable pieces have already been received on consignment for that event, including one of the finest selections of Mexican gold rarities (in outstanding condition) to have been offered publicly in many years.

THERE IS STILL TIME TO CONSIGN

Though the sale has passed beyond the initial planning phase and is already being catalogued, NASCA can still accomodate you if you wish to consign some of your own rare and desirable foreign coins or notes to this major foreign auction sale. But TIME IS RUNNING OUT! If you wish to discuss consignments with us, please call us collect and tell one of our secretaries that you are calling concerning a consignment.

Kindest regards,

—/—

Herbert Melnick
Executive Director

EXCITING COLLECTION OF NOTGELD
1200 DIFFERENT CITIES
90% SORTED BY PLACE OF ISSUE

89A **1914-1923.** Collection of German Notgeld. **Nearly 6,000 Pieces. ($1,700-Up)**

An excellent collection, largely assembled during the 1920's and 1930's in Germany, composed primarily of the low denominations (from 1 Pfennig to 1 Mark) which were issued from the beginning of World War I to about 1921 when the inflation made such small denominations useless. The collection contains about 5,000 different notes *(including some varieties) and includes many of the very scarce or* rare issues of 1914, *nearly all of which were redeemed and canceled or destroyed. There are issues of about 1,200 different cities in Germany, no one city represented by any overwhelming number of pieces.* The "Gross Geldscheine" issues of 1918 are well represented. *The remaining roughly 1,000 pieces represent some duplication as well as a large number of pieces which have not been checked against the main collection yet (the consignor added to the collection for several years after acquiring it, and had not completely integretated all his acquisitions.) Although many of the highly artistic and interesting series notes are included, the bulk of the pieces represent the notes prepared for actual circulation. The majority are* AU-Unc., *though there are* numerous circulated notes *(some issues are virtually unknown in Unc. as all entered circulation.) A fascinating basic collection, not the usually encountered "hoards" which are so heavily laden with the very common high denomination issues of the 1921-1923 inflation era. Could be subdivided into numerous smaller collections, e.g., one note from each of 1,200 cities; another representing about 1,000-1,100 cities; another covering around 900 cities, and several of 500-600 cities.*

Head of Apollo right/chariot racing right, caduceus below the horses. Edge nicks in several places, file marks on rev. and at 12:00 on edge; once jewelry mounted. Weight 8.53 grams, about right, but surface porosity suggests it may be a cast.

422 **357-353 B.C. Syracuse, under Dion. Electrum 25 Litrae.** 11mm, 1.83 grams. Type of BMC 266. **F-VF. (Photo) ($250-Up)**

Head of Apollo left/Lyre. Cf. Ars Class. X, Lot 320, similar at 1.82 grams. An attractive little piece, issued during the reign of the man Plato hoped would be the "truly enlightened ruler" after philosophical discussions, but who disappointed him.

Head right/Athena seated left holding Nike. "DI" under right arm, "S" below seat, spear-tipped trident in exergue. A barbarian imitation, probably from the Danube region. Obverse double-struck. Similar to, but from different dies than, Lot 500 in the Ars Classica XI Sale (which weighed 8.20 grams). Obverse workmanship of somewhat better style than that piece, reverse about equivalent. An attractive and rare specimen. Also Drachma *of Alexander the Great, VF+, rev. partly off flan, once gilt.* 2 Pcs.

427 **130-125 B.C.** Demetrius II Nicator of Syria, 2nd Reign. **Gold Stater.** 7.01 grams. **VF. (Photo)** **($200-Up)**
Diademed and bearded head right in circle of large dots/Zeus seated left holding Nike. We are not certain what to make of this piece: no gold staters are known from Demetrius' second reign, and though the reverse seems normal enough, the obverse is of extremely unusual style though the portrait is similar to the bearded ones on the silver issues. Probably a fantasy issue, designed by someone to complete a Syrian Kings set.

Facing bust, holding Victory in right hand/ emperor seated right holding staff and globus cruciger. Reverse double-struck, style slightly barbarous.

437 **565-578.** Justin II. **Gold Solidus,** 4.47 grams. **EF.** **($150-Up)**
Large facing bust/ emperor seated right holding staff and globus cruciger. Reverse style similar to the last piece; obverse much more barbaric in style.

438 **Circa 610. Barbaric Copy of Gold Tremissis.** 1.18 grams. **VF+.** **($65-Up)**
Bearded bust left/ cross potent. Seems to be in imitation of a piece of Focas, though the legends on both sides are gibberish. Upper half flat as struck (dies not properly aligned); lower half quite strong.

Issued during the English occupation (1878-79). *English royal crown in wreath inscr., including date "129" (arabic). Really better than VF, but obverse off-center. These were struck on small flans. This piece is interesting in that the* date portion is unambiguously present *(the "6" apparently, is engraved into the die 5mm to the right of the "9".) An article by Pridmore, in Spink NC, discusses this mysterious Commonwealth coin. Krause $150 VF; we have seen prices over £100 in England.*

SUPERB CENTENNIAL FLORIN

466 **1934-35. Commemorative Florin.** Y.8. Scarce. Choice, Prooflike **Unc. (Photo) ($300-Up)**

George V, bust/nude figure on horse, bearing torch (by Kruger Gray). For the centennial of Victoria and Melbourne. This superb coin was consigned as a Proof *by a leading overseas specialist in commonwealth coins. We find no listing for proofs of this coin and so although this piece is fully prooflike and beautifully struck.*

467 **1936. ½ Penny.** Y.5. A very rare **Proof.** (Photo) **($300-Up)**

No mintage figure available. Such proofs were "very limited in number and usually distributed 'per favour'" (Remick). Remick priced it at $70 in 1970, when prices were generally 20% or less of those now prevailing. Could this have been distributed in some connection with Edward VIII's reign?

The coin is deeply, beautifully toned in many colors, a tiny light spot in left reverse field takes it out of the "gem" class.

468 **1938. 6 Pence.** Y.17. **Proof. ($125-Up)**

Mintage only 250. Remick $60 (in 1970), Krause $160. Barest clouding, light obverse hairlines.

Tasmanian Sailing Medal

475 **1938. Royal Hobart Centenary Regatta Medal.** Silver, 36mm., by Stokes of Melbourne. **AU. ($60-Up)**

"Tasmania Commemorates Franklin and Tasman," their busts back to back superimposed on a ship/ "Royal Hobart Centenary Regatta 1938" around outline map of Tasmania in ocean, sail on mast rising from center. Dark toning on fields, a pleasing appearance. Apparently a pressure-cast by Stokes, as were many issues of this period. Traces of mount removal on edge at 12:00 - the piece presumably once hung from a ribbon. This is the first Tasmanian medal we have seen!

Francis Anthony, bishop 1709-27. His arms/patron saint. German auction records suggest a price twice our estimate, e.g., Muller-Solingen, 9/76, DM675 + 15% for XF). Furthermore, the larger gold coins of this bishop are quite rare and expensive.

501A **1782. Ducat** (gold), struck in silver. Fr. 781, Cr. 112. **XF.($65-Up)**

Hieronymous, 1772-1803. Bust/temple. Commemorates 1200th year of the Bishopric. Krause $1500 as a gold coin. Kurpolalyisches Munzhandlung auction, 6/76, DM 210 (+15%) VF.

TYROL

504 **1626. Double Taler.** Dav. 3336. Very scarce. **VF. (Photo)** **($750-Up)**

Leopold Archduke 1625-32. Half-length armored bust r./eagle. A lightly damaged VF brought DM1500 (+15%) in an auction in Lindau, back in 1976. Apparently, this type is scarcer than the (1626) wedding double Taler. Mount removed from rim at 12:00.

505 **1654. ¼ Taler.** Like Dav. 3367. **Rare. XF. (Photo)** **($275-Up)**

Ferdinand Carl, 1632-62, Archduke. Bust/eagle. Nicely toned. Faint scratching before face and on jaw, fainter scratching behind hair. Nice flan, despite small crack, and evenly struck. A "VF-XF, light flaws" piece brought DM575 (+15%) in the 5/76 Graf Klenau auction (same coin??).

BRITISH CARIBBEAN TERRITORIES

VERY RARE "OFF-YEAR" PROOFS

Again we are privileged to offer a group of very rare off-year, "VIP" proofs of the modern British Colonies, which-outside of our auctions - are almost never seen. These pieces are all a bit hairlined, and are a little irregular in toning, although brilliant. Krause's prices are illogical, so we quote Remick's (which date from 1970 but at least were accurate then!). **Several pieces are unlisted.**

723 **1958. ½-Cent.** Y. 1. **Proof.** Only 20 struck. Krause $250, Remick (1970)$250. **($200-Up)**
An example in the 1973 Seaby-New Netherlands sale, "slight surface scratches, better than EF" brought $140 (only half estimate).

724 **1958. 1-Cent.** Y. 2. **Proof.** Only 20 struck. Krause $275. **($150-Up)**

725 **1960. 1-Cent.** Y. 2. **Proof.** Remick (1970)$35. **($90-Up)**

726 **1960. 2 Cents.** Y. 3. **Proof.** Krause (unpriced). Remick (1970)$40. **($100Up)**
Fingerprint trace behind bust.

727 **1962. 2-Cent.** Y. 2. **Unlisted Proof.** **($110-Up)**

728 **1962. 2-Cents.** Y. 3. **Unlisted Proof.** **($110-Up)**
Rather minor traces of fingering.

729 **1964. 5 Cents.** Y. 4. **Unlisted Proof.** **($100-Up)**
Obverse fields rather scuffy, for a proof. Some light, even toning on reverse.

BRITISH GUIANA

730 **1809. ¼ Guilder.** Cr. 6. **XF,** tarnish spots. **1816. ¼, ½ Guilder.** Cr. 11, 12. **VF+, VF. 3 Pcs.** **($60-Up)**
Krause value (in VF) totals $75.

731 **1809. 3 Guilders.** Cr. 10, Pr. 4. **VG.** **($90-Up)**
George III, bust/crowned "3" in wreath. Date weak; mount removed from top. Only 21,500 struck, many officially melted.

732 **1816. ½ Guilder. Cr.** 12. **Unc.** and fairly nice. **($225-Up)**
Quite scarce in Unc. *Byrne sale, nice AU, $155 (in mid-1975). We could not come up with an Unc. in all our Wayte Raymond sales, and have not noted one elsewhere.*

733 **1816. Guilder. Cr.** 13. **Unc.** **($200-Up)**
WR3, $230; FORMAT 6, #1193, £154 AU.

734 **1816. 2 Guilders.** Cr. 14. **Unc. (Photo)** **($500-Up)**
Lightly toned, the reverse less so,. Sharp stirke. slight obverse tarnish removes coin from Choice Unc. class. WR4 $475; WR3 $750 (Choice Unc.). More recently, Peter Ireland fixed price list (FORMAT 6 #1191), "GEF, £275". It is interesting to note that Ray Byrne did not have an Unc. 1816 2 Guilders.

735 **1816. 2 Guilders. Cr.** 14, Pr. 8. **XF. (Photo)** **($350-Up)**
The 2 Guilders are nearly as scarce as the 3 Guilders. An Unc. brought $750 in WR3; Peter Ireland offered a "GEF" for £275, earlier this year.

736 **1816. 2 Guilders. Cr.** 14, Pr. 8. **VF.** **($150-Up)**
Cf Peter Ireland, Format 6, #1190, Fine, £60.

737 **1816. 3 Guilders.** Cr. 15, Pr. 5. **AU! (Photo)** **($750-Up)**
George III bust/crowned "3" in wreath. The Byrne specimen, Unc., brought $1100 four and a half years ago. A VF+ brought $425 in our Wayte Raymond 3 sale. Although there are a spot of tarnish and tiny rim bump to left of date, this sharp, lustrous coin is exceptional and should approach or surpass the Byrne record.

Only 10, 197 were struck, in a poor alloy; much of the issue was officially melted in 1839.

738 **1832. 2 Guilders.** Cr. 20, Pr. 9. Mintage only 14,108. **VG.** **($60-Up)**
Wm IV, bust/crowned "2" in wreath. Few scratches; mount mark, visible on edge only.

741 **1891, 1901. 4 Pence.** Victoria. Y. 1. Brilliant **Unc. 2 Pcs.** **($90-Up)**
Both well struck. The first was consigned, by a noted commonwealth specialist, as a proof! (It does have prooflike fields). The second has probably been dipped. Two coins in very "tough" condition.

BRITISH HONDURAS

742 **(ca. 1816-18). "Dollar".** Crowned script "CR" (in oval indent) on face of 1816-Ma/JJ 8-Reales. Cr. 1, Pr. 2, Byrne 1373-74. **Fine. (Photo)** **($150-Up)**
Various crowns were counterstamped with these cutlery marks to enhance their desirability in trade with local indians (who were familiar with the marks from the cutlass blades that were commonly used in exchange). This particular example (identical to Byrne's coin) has a very weakly engraved counterstamping die, and may not be the die Pridmore cataloged. The coin is polished and has a few edge nicks. Byrne = $80(holed), four years ago.

743 **1871. Token ¼-Rial.** Pr. 75, Remick p. 79. **Rare. F-VF. (Photo)** **($150-Up)**
Token issued by "J.J.", in imitation of U.S. Indian 1c. Brass. ¼-Rial = 1½ Pence. Some discolor.

744 **1871. Token,** as last only **copper. Fine+,** poor color. **($150-Up)**
Pridmore lists only in brass.

Edward VII, bust/value. Toned brown, some mint brilliance on obverse. Barest cabinet friction before ear. Krause $225 Unc., about half of prices in England. Probably quite rare in this grade. *Remick comments that a "couple dozen" are known in all grades; he priced it at $175 ten years ago.*

750 **1909. Cent.** Y. 6. Rare date. **VF,** very light field scratches. **($60-Up)**

751 **1911. Cent.** Y. 10. **Scarce type. VF-XF. (Photo)** **($175-Up)**

Remick, p. 79, under "Collecting Tips", observes that "several dozen" of the 1909 date are known. He continues to state that the 1911-13 coins are scarcer.

752 **1911. Cent.** Y. 10. **VF-XF,** very nicely retoned. **($150-Up)**

RAREST COIN OF COUNTRY
UNCIRCULATED!

753 **1913. Cent.** Y. 10. **Rare date. Choice Brown Unc. (Photo) ($750-Up)**

Lovely strike and surfaces, only tiniest bag marks (unusual for this country). Slight obverse luster, reverse perfectly even brown. Can be identified by a faint tarnish spot under right upright of "N" of "HONDURAS". Very attractive. Krause lists at $100 Fine, $475 Unc. Only one other coin lists over $30 (1912-H Cent, $75) in Fine. Krause values are too low, as usual. We sold a proof 1894 50 Cents for $1300 in Wayte Raymond 3; this beautiful coin may sell for as much, and is probably much rarer (Remick's comments indicate a dozen or so known, in all grades).

754 **1918.** Cent. Y. 11. **Choice Unc.** Obv. red & brown, rev. fully brilliant. **($75-Up)**

RARE PROOFS

The following proofs, evidently VIP issues, are all very rare or extremely rare. **Some are not even listed in Remick or Krause.** Krause's prices, as usual, are too low. In view of the high values of many of these in Unc., these rare proofs are possibly undervalued.

CANADA/GERMANY GOLD RARITY

815 **1969. Gold** Striking of the **25 Cents.** Regular dies **struck on a 1906 Prussia Gold 20 Mark.** Likely **Unique. Unc. (Photo)** (——)

The undertype very clear, even though the Canadian design is fully struck up. This is an after-hours product of the Ottawa mint. It can be compared with Type II 1804 U.S. dollars or 1913 Liberty 5c. or the 1965 British Penny, struck "of a late evening" in gold, and sold for $5000 in our Wayte Raymond III sale. A price in the low thousands seems certain; a realization in the tens of thousands is equally possible.

The Canadian gold series consists of 3 dates each, $5 and $10, ten dates of English-type sovereigns, the 1967 $20, and the recent $100. It is a compact series distinguished by several rarities, and a near-impossible series in ultimate condition. Devotees of the series now have the opportunity to acquire the rarest gold piece struck in Canada's mint.

A RARE PROOF

827 **1950. Choice Brilliant Proof. (Photo)** **($500-Up)**
Actually a "specimen", not of U.S. or Royal Mint "proof" quality. It is, however, the quality of strike commonly termed "brilliant proof" by reputable numismatists, quite distinct from "prooflikes". Charlton prices the 1950 specimen set at $1500. A price well above estimate is possible.

PRINCE EDWARD ISLAND

THE RARE HOLEY DOLLAR

855 **(1813. 5 Shillings).** Center-holed and countermarked 1808-Mo/TH 8 Reales. Cr. 42, Charlton 24, Byrne 1230. **VF. (Photo)** **($1,500-Up)**

Issued in 1813 and quickly withdrawn. Unofficial pieces, however, circulated until 1824. Charlton states that all survivors may be the 1813-24 "merchant issues", and thus all contemporary pieces are collected as genuine.

Other holey dollars are known from British Guiana, Australia, and a host of West Indies locations; thus, the Prince Edward piece is geographically atypical.

We think it is under-appreciated by Canadian collectors, especially as it is the first coin (as distinct from tokens) of native type in the Canadian series.

The coin has nice light even blue-gray toning, some planchet rippling near edges, and an edge nick (6:30 obverse).

CEYLON

873 **1803. 48 Stivers.** "Elephant right" type. Cr. 32a **(priced "RR"),** Pr. 4 ("very rare"). **F-VF.** **($250-Up)**

Elephant on ground, date in exergue value in beaded circle, "CEYLON.GOVERNMENT" around. The elephant right coins predate the 1803 24 Stivers, and the 1803-08 "elephant left" 48 stivers of higher fineness and smaller size. Thus, this is the first silver coin of British Ceylon. *We have not noted any on the U.S. market in recent memory, save our first Wayte Raymond sale. It has turned up on an English list for a few hundred pounds our estimate should be low (Krause is ridiculously low).*

874 **1847. ½ Farthing. Unlisted error. Unc.** **($125-Up)**

Victoria. Young head/crown, value, date, flower. "Homeland" type, struck for Ceylon. "A" in VICTORIA is an inverted "V". Not in Peck. 25% mint lustre, the balance toned light brown.

875 **1870. 5 Cents.** "Copper crown". Y. 7. **Unc.** **($85-Up)**
Victoria. Bust tree. At least ⅓ original brilliance. Slight cabinet friction on highest hair curl. In Wayte Raymond 4, a piece with full luster, although not particularly choice, brought $170.

876 **1890. ½ Cent.** Y. 5. **Proof struck in silver. (Photo)** **($300-Up)**
Ex-Wayte Raymond 4 ($360!), and unlisted. Rather pretty toning.

Ex-Wayte Raymond 4, $410! Unlisted in Krause, Pridmore and Remick.

878 **1890. 5 Cents.** Y. 7. **Unc.** **($85-Up)**
Lustrous, light brown, devices and letters outlined in mint brilliance. Small lamination, lower right obverse field.

879 **1890.** 5 Cents. Y. 7. **AU,** rather pretty. **($40-Up)**

880 **1891. Bronze proof set (¼, ½, 1, 5 Cents).** Y. 4-7. Bright red, little toning. **(Photo)** **($1,250-Up)**
*An 1890 set brought $750 in Wayte Raymond 3. That set catalogs $260 in Krause; the 1891 set catalogs $450, as the ¼-*Cent and 5-Cents are Proof-only dates. *Remick's ratio is $145 (1890) to $285 (1891).*

881 **1892. Cent.** Y. 6. **Proof struck in silver.** Rather nice. **(Photo)** **($300-Up)**

882 **1892. 50 Cents.** Y. 10. Proof-like **AU.** **($40-Up)**
Consigned by a commonwealth specialist as a proof; has a wire rim, is very brilliant, etc.

883 **1893. 50 Cents.** Y. 10, Pr. 103a. **Proof.** **($275-Up)**
Victoria. Bust/tree dividing "5-0". Average quality, but enhanced by its color: brilliant silvery-grey surfaces with very delicate green, gold and purple toning. A 1902 Matte Proof 50 Cents, probably not equal to this, brought $270 in our London sale.

COLOMBIA

PLATINUM DOUBLOON

916 **1801-Pn/JF. 8 Escudos.** Fr. 52, Cr. 58. **Struck in PLATINUM,** likely **unique. XF. (Photo)** **($1,000-Up)**

Consigned as a "mint sport", comparison with the genuine 1802 piece in this sale reveals this piece was not made in the Popayan mint. It is so skillfully copied that we suspect a European (or American??) origin. It is a contemporary, made-for-circulation counterfeit. The gilding has been removed (traces remain), evidently by a chemical process. The weight (26.83 grams vs. 27.00 standard), exactness of imitation, and striking weakness on shield (where flan adjustments are evident) all indicate this.

The piece has been in jewelry, being plugged (in gold!), and showing gold mount marks at top and bottom. The hole, although at 12:00, was so large as to suggest defacement, not jewelry use. Quite likely, the damaged forgery was purchased by a jeweler, who repaired it, removed the gilding; and mounted it for jewelry use. Platinum forgeries of U.S. and Spanish American coins are exceedingly rare. A number of dates and types are known, but it would be surprising if a second example of any platinum forgery would surface. This coin is the most skillful platinum forgery we have noted; the others apparently were made in the Americas, which in the early 1800's was the likeliest source of platinum for forgers.

917 **1802-Pn/JF. 8 Escudos.** Cr. 58, Fr. 52. **XF. (Photo) ($1,250-Up)**

Carlos IIII, 1788-1808. Military bust/crowned & gartered arms. An example of this type, 1805-Pn/FT, no rarer and no better, brought $1600 (exactly twice estimate) in our London sale (7/17/79).

EXTREMELY RARE NECESSITY 8 REALES
ONLY CROWN OF SANTA MARTA

918 **1810's. 8 Reales.** Cast piece with validating countermarks. Extremely rare. **(Photo) ($2,500-Up)**

One of a series of Royalist emergency coins from this area. The matrix coin was an 1810-Mo/HJ 8 Reales. The edge is diagonally reeded (by hand-filing). 39mm, 21.76gms. Counterstamped in obverse fields "S.rh" in bladed oval (to left) and "VB" or "VPB" monogram in denticled oval to right. The coin has little wear, but the bust is well scratched. The stamps are "Gem Unc."

Ex-Babbitt-Gibbs (#1028)-Yriarte-Spink. Ref: Burzio (p. 335, pl. XVII #8), Herr. 749, Gibbs, Yriarte (#1594-plate coin). An example of this rarity appeared in a recent U.S. auction, unattributed, and was evidentally overlooked as it realized little (of course, we can not vouch for its authenticity). A third specimen was catalogued by Vidal Quadras (1892). This last association, of course, constitutes a formidable imprimatur. It is possible that the association with Gibbs had tarnished the type, explaining its absence in Craig. With the rediscovery of the V. Q. reference, it seems probable that this fabulously rare Spanish-minted dollar will now take its place among the premier pillar & portrait coins of the period.

As research into revolutionary-era coins of this area continues, the Santa Marta series, as known to today's numismatists, expands. It now comprises: 1) 1813 copper ¼-real (Cr. 71); 2-3) 1820 copper ¼-Real, silver 2-Reales (Cr. 72-73); 4-6) Copper 1 (?), 2 and "4" Reales, struck over Cartagena ½ and 2-Reales, with crude imitation-cob dies dated "800" (cf Folsalba, also Gibbs 1966 and NASCA 12/78 sales, attributed to Angostura; also 8/31/79 Christensen sale, "Nueva Granada", est. $500-750). Lastly, a piece, over Cartagena 2-Reales, with 2-Reales obverse/4-Reales reverse, (NYC private collection); 7-8) as #4, struck over insurgent Colombian silver 1 and 2-Reales (Folsalba; also Freeman Craig mail auction, summer '78, est $1,000-Up). 9) 4-Reales, "888-LM" (Gibbs 1040-genuine?). Additionally, Krause - Mishler reattribute a pair of coppers (1812-13) to Santa Marta.

To these can be added the presently-offered 8-Reales, the "King" of the series. Fixing a date of probable issue is problematic but the fact that it is the only piece not die struck, and the absence of pieces between 1813-1820 suggests it may have been a 1st coinage effort by the Royalists, ca 1822.

This coin brought $400 in the 1966 Gibbs sale. *Given the high prices realized by nos. 4 and 7 in recent sales, the increased demand for Colombian coins since 1977, and for Spanish dominions since the 1970's,* a ten-fold price increase from 1966 seems reasonable.

SUPERB 8 REALES

921 **1835. 8 Reales.** Cr. 126 ($100, VF). **Unc.! (Photo) ($600-Up)**

Bow and arrows, crossed, over fasces, within twin cornucopiae, REPUBLICA DE COLOMBIA/inscr. in wreath LIBERTAD on banner at top. Rather good strike. Superb toning (peripheries iridescent). Really choice, except for a small scrape in reverse field (after OCHO), a miniscule edge nick at 12:00 obverse, and some slight dullness in part of obverse center (possibly where something adhering to the surface was removed) The market for Colombian coins has been very strong in the last two years. An example of this type, but the commoner 1836 date, F-VF with small edge clip, brought $210 in our 8/78 sale. On condition alone this could be worth 4-6 times as much.

922 **1848. 10 Reales.** Cr. 159 ($50 VF). **Unc.! (Photo) ($200-Up)**

Arms on banners, condor perched atop, REPBULICA DE LA NUEVA GRANADA/value in wreath. Centers somewhat dull; light golden toning over mint lustre around edges. Very flat die engraving, but every little detail has been struck up. May sell well above estimate.

923 **1873-Ba. Peso. Gold.** Y. 32.2., Fr. 109 ($100). **XF-AU. ($75-Up)**

Liberty head/eagle. Krause $80 XF, which is very low, considering this coin's mintage is only 3,374.

CRETE

VERY NICE 5 DRACHMAI

935 **1901. 5 Drachmai.** Y. 9. **Choice XF,** or (probably) better. **Rare condition. (Photo)** **($400-Up)**

Prince George, 1898-1906. Head/crowned Greek arms, supported by wild-men, the whole ornately mantled. Paris Mint. Sharp; surfaces retain their original mint color and are lightly lustrous. Almost (or completely?) unknown in mint state, a pair of Choice AU's (CKF, 3/79; Spink auction #5) created some excitment when auctioned earlier this year. Indeed, it has been a banner year for 20th century crown collectors, to get three cracks at a high-grade Crete crown in one year! The Choice AU pieces cited were estimated at $1,000 and £500.

Three minuscule edge nicks (obv. 9:00, rev. 3:30 and 10:30), mentioned mainly to identify the piece permanently. A proof 9 Pence, 1901, also $600 in Krause, brought $475 in Wayte Raymond 1 sale, two years ago.

949 **1878. 10 Cents.** silver. Y. 3. Christian IX. **Choice Unc.** **($75-Up)**

Lovely pink and gold toning.

950 **1907. 20 Cents** (1 Franc), silver. Y. 14. Frederik VIII. **Unc.** **($115-Up)**

Traces of golden toning.

951 **ca. 1890.** Three different tokens. Higgi 407, 411, 425. **VG-VF+.** **($75-Up)**

C. A. Daniel 1c, VF+; Delvalle 1c VG; French 5c VF. Added: Scandinavian steamboat token.

DANZIG

952 **1923. Proof set. Pfennig through 5 gulden,** Y. 3-10. A matched, fairly brilliant, fairly nice set. **8 Pcs.** **(——)**

Very attractive 20th-Century designs. Polish specialist Karl Stephens recently offered a set for $975, well over the ultra-conservative $700 Krause value. As single pieces from the set are frequently offered, intact sets must be scarce.

DENMARK

CHOICE, EARLY CROWN

953 **1619. Krone.** Dav. 3517, Bachtell 1290. **Superb XF or better,** lovely tone. **(Photo)** **($600-Up)**

Christian IV, 1588-1648. Standing king/crown. Much better than Davenport's plate. *Bachtell did not have an illustration! Bachtell's prices ($150 Fine, $250 VF-usual prices are for VF and XF) seem low to us, even for the 1975 market (time of issue of his price supplement). This is the nicest Danish crown we've had since 6/77. Quality Danish silver was very strong in our last sale.*

954 **1673. 4 Marks (Krone).** Dav. 3633, Hobson 144. **VF,** small weakly struck areas. **($125-Up)**

Crowned "C5" monogram for Christian V/Crowned lion shield.

955 **1685. 4 Marks.** Dav. 3638, Bachtell suppl. 1132A, Hede 79. **Abt. XF. (Photo)** **($200-Up)**

Christian V, 1670-99. Crowned double-C5 monogram in plain field/shield, on a cross and crowned, within which value, date, initials. Scratch in left obverse field; edge flaw.

956 **1826. Rigsdaler.** Dav. 73, Hobson 324. **VF,** a few surface nicks. **($135-Up)**

Plain head of Frederick VI/Crowned shield.

957 **1840-FF. Speciedaler.** Dav. 74, Hobson 338. **VF/Fine. ($125-Up)**

Plain head of Christian VIII/Crowned, mantled and supported arms.

958 **1854-FF. 2 Rigsdaler.** Dav. 77, Cr. 143. **XF/AU.** **($250-Up)**

Plain head of Frederick VII/Value within ornate wreath. Very scarce, esp. in the top grades.

959 **1854-VS. 2 Rigsdaler.** Dav. 77, Hobson 356. **XF,** couple of minor edge bumps. **($175-Up)**

Plain head of Frederick VII/Value within ornate wreath. Scarce date.

960 **1886-CS. 10 Ore,** silver. Y. 11, Hobson 375. **VF.** **($60-Up)**

Christian IV/Value. (heart). Very scarce date.

961 **1888-CS. 10 Ore,** silver. Y. 11, Hobson 375. **F-VF.** **($65-Up)**

(Heart). Very scarce date.

962 **1935. 25 Ore.** Y. 50. Scarce date. **Proof,** tiny spots. **($100-Up)**

A Commemorative Collection

963 **1888-1960.** Commemorative 2 Kroner (7), 5 Kroner. **Unc.** 8 different. **($200-Up)**

2 Kroner: 1888, Y. 15 (very slight tarnish); 1906, Y. 25; 1912, Y. 40; 1930, Y. 42; 1937, Y. 43 (very slight tarnish); 1945, Y. 55; 1953, Y. 63; 5 Kroner: 1960, Y. 65. Krause = $283.50.

964 **1930, 1937** (2). Commem. 2 Kroner. Y. 42-43 **Unc., AU, Ch. AU. 1919.** 25 Ore (2). **Unc. 5 Pcs.** **($45-Up)**

DOMINICA

965 **N.D.**(1798). **'Moco' or 1½ bits.** Cstpd plug from a dollar. Cr. 21, Pr. 22. **Abt., XF.** blank side scratched. **($40-Up)**

DOMINICAN REPUBLIC

966 **1891-A. 5, 10 Centavos.** Y. 2, 3. Both **Nice Unc.** with full **mint color.** **($85-Up)**

SUPERB 5 FRANCOS

967 **1891. 5 Francos.** Y. 10. Scarce. **Choice Unc. (PHOTO.) ($800-Up)**

Native bust/arms. Paris mint ('A' mintmark, signed TASSET). Hardly any bag marks, somewhat prooflike, really nice blue and silver-grey toning. Probably equal to the example at $850 in our London sale. Very scarce in full XF, *a piece this nice could be a runaway.*

968 **1955. Trujillo Peso**(3), **VF. 1897 ½ Peso (4), VG-F, 1937 ½ Peso F.** Also **1968 Panama Proof set.** 9 items. **($85-Up)**

EAST AFRICA

969 **1920-H. Cent. Copper-nickel.** Y. 14, rare type. **Abt. XF.** **($75-UP)**

Crown, etc./elephant tusks, etc. Most of the mintage was remelted before release. Krause $40 VF, $60 XF, $400 Unc. Remick (1970) $35 Good, $85 XF, $125 Unc.

970 **1924-KN. Cent.** Y. 20. **Proof.** **($85-Up)**

Mainly red to brilliant. Kings Norton mint. Not up to Royal Mint proof standards, the obverse non-reflective. Remick $35 (1970).

971 **1930. Cent.** Y. 20. **Choice, Red-Brilliant Proof.** **($110-Up)**

972 **1949. Cent.** Y. 32. **Choice, Brilliant Proof.** **($110-Up)**

973 **1954. Cent.** Y. 37. **Proof,** more-or-less golden-toned, nearly perfect. **($110-Up)**

974 **1934. 5 Cents.** Y. 21. **Nice Proof,** toned red. **($150-Up)**

975 **1955. 5 Cents.** Y. 38. **Very Choice Proof,** brilliant with lovely orange and purple toning. **($125-Up)**

UNLISTED PROOF

976 **1963. 5 Cents.** Y. 39. **Proof, brilliant.** **($100-Up)**

Not in Remick or Krause. Doubtless in the 'VIP PROOF' class, this may well be rarer than the earlier proofs. It is quite nice for a VIP proof of a minor colony, most of which appear poorly preserved as if by non-numismatists.

VERY RARE KINGS NORTON PROOF

977 **1937-KN. 10 Cents.** Y. 29. **Proof. Unlisted.** **($150-Up)**

Not up to Royal Mint standards, but easily distinguished from a high quality business strike. Doubtless struck on the occasion of the new King George 6 coinage type. A 1937-H 50 Cents (also unlisted) was offered on Peter Ireland's "Format 6" list (MO1187). Green-gold tone mixed with light purple, pretty.

978 **1942. 10 Cents.** Y. 29(a). **Choice Brilliant Proof.** **($150-Up)**

979 **1954. 50 Cents.** Y. 40. An exquisite **Proof,** devices fully frosted, **about perfect.** **($175-Up)**

Elizabeth II, portrait/lion walking before mountains. Worth more than the above, because of the portrait and attractive design (only Eliz. II portrait proof). A 1952 Proof Shilling brought $190 in Wayte Raymond 3 (also $190 when reconsigned to our July sale). This piece is much nicer, although smaller.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

POSSIBLY FIRST U.S. OFFERING

980 **1943-I. Shilling.** Y. 31. **Extremely Rare Date. VF. (Photo).** **($500-Up)**

George VI, bust. lion walking r. before mountains. Krause states *"8 known". For some time in the early '70's, a controversy developed over whether or not this date existed. Krause's valuation strikes us as rather low, as this is one of the most sought-after coins of Africa or the Commonwealth.* First public sale offering?

981 **(1918).** Soldier's souvenir piece, engraved on obverse of **1893 German East Africa 2 Rupien.** Rare and unusual. **($125-Up)**

Obverse center planed off and engraved: "Sgt. R. H. ORMSHAW/ 44381.R.A.M.C./DARDANELLES. 1915/EGYPT. 1915-16/E. AFRICA. 1917-18." Neat small holes at 3:00 & 9:00. Reverse (lion before tree, on shield) nice Fine.

GALAPAGOS ISLANDS

983 **(1884-?). Sucre.** Galapagos Island counterstamped issue. Krause p. 446. Unusual HOST COIN. **VF+. (Photo).** **($125-Up)**

"RA" monogram in circular depression, on obverse of a Chilean Peso, *1878.* Usually seen on Ecuadorian coins.

"RA" is believed to be a well-known local merchant, Rogelio Alvanado. The suggestion that these are prison money does not impress us, as prison coins would be expected to be frequently damaged, and not in silver.

984 **(1884-?). 2 Decimos.** Counterstamped Galapagos Is. issue. KM #3. Coin (1895 2 Decimos) **Fine,** stamp **XF.** Krause $60 VF. **($60-Up)**

Bust of Umberto I/Crowned eagle with shield on breast. Very scarce.

1010 **1918-R. Silver Tallero.** Y. 5. **VF-XF.** **($65-Up)**
Female bust/Crowned eagle over Italian arms. Struck in the style of the Maria Theresa dollar, with which it was meant to compete.

ETHIOPIA

1011 **EE1885** (AD 1892). **Mahaleki.** (silver, 15mm.) Y. A1. **Very Rare. VF,** weaker centers. **(Photo)** **($200-Up)**
All in Ethiopian script, except for a crown in obverse center. Reportedly, the last coin struck in Harrar (Menelik had conquered Harrar five years before). An article by Dennis Gill discussed this coin (World Coins, 4/71); the author knew of only four examples, one in ANS. They are not appreciably commoner today. Krause $225 Fine.

1012 **EE1889** (= AD 1897). **Talari** (or Bir). Y. 9. **Unc.** (Krause $200). light hairlines. **($150-Up)**

1014 **19th Cent.** Sultanate of Harar. **4 different coins.** Brass. Crude **F-VF,** one **XF.** **($90-Up)**
Craig 24, 24a, 35. Also one most like Cr. 10a, XF, 6mm, 0.12gm., a degenerate issue with tic-tac-toe and retrograde 1228 (arabic, = AD 1813). These were excessively rare 10 years ago, and should be rare again, after a small hoard is absorbed.

FALKLAND ISLANDS

1015 **1924 Token.** 26mm., aluminum. **($50-Up)**
Palm tree and mountain, 7 stars above WEST INDIAN & ATLANTIC GROUP, in ex: BRITISH EMPIRE EXHIBITION 1924/inscr. in 7 lines: "West Indies British Honduras and Falkland Islands British Empire Exhibition 1924." Plain edge, issued holed.

1016 **1933. Official Centennial medal.** Remick p. 167, #T1. Very scarce; **Unc.** **($100-Up)**
George V, bust/shield with galleon and seal. Tombak, 36mm. 2002 struck, 2000 sent to the Falklands (near Cape Horn), thus quite scarce. Slight cabinet friction, obverse.

FIJI ISLANDS

1017 **1937. 6d, Shilling, Florin.** Y. 11-13. **Unc.** **($275-Up)**
George VI, first year. Slight obverse tarnish on the florin, else all are rather nice Unc. coins. Krause totals $320.

(1) 1943-S (San Francisco Mint). Florin, silver. Y. 13b. BU. (2) 1947. 3 pence. Y. 17. Unc. (3) 1952. 3 pence. Y. 20. Unc.

RARE PROOF 3 PENCE

All are Y. 23 (crowned, draped bust/native hut), and all are **very rare.** These are "VIP" Proofs", not distributed to numismatists. Consequently, all three have tiny surface marks from being allowed to come in contact with each other. We auctioned other Y. 23 proofs, a little nicer, for $180 in August '78 (ex-Wayte Raymond).

1019 **1958. 3 Pence.** Y. 23. **Proof.** **($150-Up)**

1020 **1961. 3 Pence.** Y. 23. **Proof.** **($150-Up)**

1021 **1963. 3 Pence.** Y. 23. **Proof.** **($150-Up)**

1022 **1974. Lot of 2 pcs. of the Silver $25 Centennial Commemorative Coin.** Y. 36. Proof. **($120-Up)**
Struck at the Birmingham Mint. Mintage 5,157. Both in original presentation cases.

FINLAND

1023 **1865. Markka.** Y. 3 (old Y. 6. 1). **Prooflike Unc.** **($40-Up)**
Eagle/value in wreath. Uneven tone. Full proof surfaces over fields, all details struck up, broad flat rims with partial wire edge. Normal bag marks. Very rare condition.

1024 **1870 Penni.** Y.7. **Possible Proof** **(——)**
Crowned "A" over "II"/date and value. Full proof surfaces, absent of normal bag marks. Full mint brilliance, although light fingerprint tarnish. Cousigned as a proof, we are sceptical due to the concave fields and weak beading. However, as a Helsinki product, it may be up to the mint's proof standards. In any event, a scarce date in brilliant (rare) condition.

1025 **1872. 5 Pennia.** Y. 8a. (former Y. 2). **Unc., mostly red to brilliant.** **($100-Up)**

1026 **1893. 50 Pennia.** Y. 2a. **Unc.,** brilliant. **($35-Up)**

1027 **1926. 100 Markkaa.** Gold. Fr. 8. **Unc. (Photo)** **($500-Up)**

FRANCE

1029 **1647-F. Ecu** "with long curl". Sobin 4, G-D 202. **VF. (Photo).** **($350-Up)**
Louis XIV, 1643-1714. Laureate juvenile bust crowned Bourbon shield. F = Angers Mint. Sobin R3 as date. All Ecus of Angers are rare. *(Known only in 1647-48-49-53, last unique). Sobin's 1647-F, VF XF, brought $450, over 30 months ago. The Sobin auction catalog features an interesting discussion of the coinage of this "rare mint". (Gadoury 2800 FF in "TTB").*

1030 **1659-D. ½ Ecu** "with long curl." GD112 (1000 FF "Superb"). **Brilliant Unc. (Photo).** **($150-Up)**

1031 **1693 (-A). Ecu** "au Palmes". G-D 217 Sobin 10. **XF.(Photo). ($200-Up)**

Louis XIV, 1643-1714. Bust 3 lis in circle, crowned and between palms. Struck over an "Ecu with 8 L's", thus mintmark obscured (triangle different = Paris). Lovely toning. Not a very sharp strike, actually AU and really nicely toned. These early ecus are currently going cheap in the U. S. and this should be a good buy.

1032 **1694-W. Ecu** "aux Palmes." G-D 217, Sobin 10. **VF(?). ($125-Up)**

Struck over "8L's" type. XF as to wear, but undertype very strong. Date in particular is murky. Bust dominated by "A" mintmark and 8 L's.

1033 **1722-E. ½ Ecu.** G-D288. Cr. 28 ($40). Scarce date, not in Craig. **F-VF. ($50-Up)**

Louis XV, young bust crowned shield of 3 lis'. Overstruck on 1719-A X-Sols (Navarre type, Cr. 25).

1034 **1726-B. Ecu** Cr. 42, Sobin type 21 (R2 date, $250). **VF,** light adjustments. **($55-Up)**

1035 **1779-A. 6 Sols. In name of Louis XV (d. 1774).** Not in Craig, Ciani 2193.**Good VF. ($55-Up)**

EXTREMELY RARE CONTEMPORARY COUNTERFEIT

1036 **1785-A. Louis d'or (Gold).** Fr. 220 ($475). Cr 83, G-D 361. **Rare first year. VF. ($200-Up)**

Louis XVI, 1774-93. Old bust (nude)/arms of Bourbon and Navarre in crowned double-shield. Struck in electrum, and gilt. Specific gravity (12.49) indicates more than 20% silver alloy, less than 30% gold. 6.36 grams (6.70 normal-Unc). The dies appear to be genuine, as does the edge. Possibly a mint-produced, "after-hours" counterfeit-such pieces are suspected to exist, particularly the platinum coins, although we do not recall it prior that Paris mint employees did any counterfeiting. This piece has an edge knock and a field scratch on reverse. The obverse looks a little "bubbly" as if heated (possibly during gilding). Overall, it looks very much like a genuine gold coin, and no doubt circulated for many years as such.

1037 **1789-L Ecu.** Cr. 78, Sobin type 24 ($800). G-D 356 (2500 FF, "Superbe"). **Unc.! (Photo). ($400-Up)**

Louis XVI. Uniformed bust/crowned oval arms, wreath. "8" in date over samll 8 (punch for half Ecu). L = Bayonne mint. Bright and fully lustrous silvery-grey, lovely green-gold highlights. *Fairly good strike (a few reverse letters weaker). Obverse fields just slightly prooflike, but obverse has many light adjustments (none on reverse). As struck,* an exceptionally choice mint state example. *Even with adjustments, rarer in this grade than the 19th century 5 Franc type coins, which regularly bring $300-Up in choice Unc. A coin to behold.*

1038 **1790-A. Ecu** (6 Livres). Dav. 1333, Cr. 78. **Choice XF.** moderate obv. adjustments. **($100-Up)**

Bust of Louis XVI/Crowned fleur-de-lis shield. Nicely toned.

1039 **1792. Monneron 5 Sols.** Copper. VG 293 (slightly scarcer variety) **AU. ($40-Up)**

1040 **1792. Monneron 5 Sols.** Choice Brown **AU. ($35-Up)**

1041 **1792-A Ecu** (6 Livres) Dav, 1335, Cr. 93. **VF+. ($250-Up)**

Louis XVI/Angel writing on tablet. Extremely scarce in the higher grades.

1042 **L'an 12-A. Gold 20 Francs.** Napoleon as 1st Consul. Cr. 146, Fr. 225, Gadoury 232 (3000FF, "Superb"). **Brilliant AU. (Photo) ($500-Up)**

1043 **1809-A 2 Francs.** Cr. 164. **About VF. ($100-Up)**

Laureate bust of Napoleon/Value within wreath, "EMPIRE FRANCAIS." Scarce.

Laureate bust of Napoleon Bonaparte/Value within wreath, "EMPIRE FRANCAIS."

1045 **1822-W. ½ Franc,** silver. Cr. 178. **XF,.** nicely toned, 2 small edge nicks. **($125-Up)**

Louis XVIII/Crowned shield. Very scarce date. Nicely toned.

Hercules group/value, date in wreath. Lettered edge. 256,410 pieces struck, but 200-225,000 melted by the succeeding government. Presumbly all have the usual DIEU PROTEGE LA FRANCE edge, despite Krause's listing of avariant as "reported". The Paris commune gained control of the government after the fall of the Second Empire. Essentially a large band of leftists, drawn from the ordinary ranks of workers, they were ill-prepared for the counter-revolution which ended their brief attempt at a socialist state. The Paris Commune represents the furthest penetration of a socialist movement into the government of a modern nation. The historic value of its coinage has long been appreciated. That portion of the mintage which was recoverable was melted and restruck. About 75,000 circulated, undetected due to the design similarity, and consequently are very rare in upper grades.

The reverse die, signed "Borrel 1847", is known from Eidlitz #1127, where the size is given as 50mm, and the obverse as Louis Philippe. This piece not the size of Eidlitz's, nor is it signed on reverse. The edge is marked for 1845-60. To our knowledge, this exact piece is not listed in any Napoleonic catalog of note. Obverse: "HOTEL/DEUTSCHER KAISER." Reverse: "½ R[illegible]" Bronze, octagonal (dies are round), 21mm, 2.60 grams. A Rupee token and one other (¼?) value exist. A note on the envelope intimates this was a "floating hotel on Lake Rudolph," but this strikes us as most unreliable. Slight obverse pitting; German colonial tokens are now very much in demand, especially from German and (advanced) American collectors. An American dealer recently paid $275 for a Kiro Chow token in only VF.

Apparently, all known examples are from a group discovered by a German consular official, and brought to the U.S. The better-known Hirsch 15 Heller token of this GEA series, Remick T5, has brought $150 at auction (Christensen, 8/31/79).*

AUGSBURG (CITY)

VERY RARE MULTIPLE TALER

1099 **1672. Broad 1¼ Talers.** Bachtell suppl. #1240A ($2000, VF). **Very Rare. Choice XF-AU. (Photo)** **($2,000-Up)**

Pinecone (civic symbol), cityview, cherubs hoisting shields above, date (divided by four more shields) in exergue/shoulder-length military bust of Leopold the Hogmouth, HRE 1657-1705. 50mm, 36.60gm.

Davenport does not list this coin, but the uniform weight (Bachtell coin 36.7 gm), taken with the numerous fine adjustments along the edges of this piece (and evident in B's photo) leave no doubt this handsome piece is a coin, not a medal or pseudotaler.

A price two or three times estimate would not surprise us. A damaged 1627 2 Talers (Dav. 5034) brought $1300, nearly double estimate, in our London sale; large size Augsburg coins are seldom seen.

AN UNUSUALLY COMPLETE OFFERING OF LUDWIG I COMMEMORATIVE TALERS AND DOUBLE TALERS

Bavaria's Ludwig I (Crowned 1825, abdicated 1848) had, perhaps, as profound an effect on modern numismatics as any single person. During his reign, the Bavarian Mint produced a series of commemorative Talers and Double Talers of outstanding quality, using the more popular (democratic) medium of coinage to celebrate persons and events usually honored on medals. Despite the frequent issues, the coins do not stoop to recognize minor phenomena, do not audaciously propagandize, and have no commerciality. They are very much markings of the great and uniquely charming society Bavaria stood for in the last century, when the German esprit was not yet captured by Prussia. Bavarians were more easy-going, with aesthetic sense probably epitomized by Wagner (and the Royal support he received), and an educational system that nurtured many of the chartmakers of modern science. Ludwig I was a great influence on the direction of Bavarian nationalism.

His series of commemorative coins, not surprisingly, spawned an increase in commemorative coins from many world mints, a phenomenon which today has reached plague proportions. Collectors who appreciate "the real thing" have made the Bavarian series an international favorite.

The following lots comprise 10 of the 13 commemorative Double Talers issued from the first piece, 1827, through 1847. The majority of Ludwig's commemorative Talers are also offered. Most come from a single collection whose owner was very particular about grade, acquiring lightly circulated pieces, free of scratches, edge nicks, and jewelry use, and generally having nice surfaces (these heavy pieces tending to get "scuffy"). Less fortunately, most have been cleaned or dipped, a few have been polished, and many have been lacquered (this has not harmed the pieces, but has kept them from retoning; lacquer wipes off with acetone). Thus, the coins are a bit brighter than they ought to be, but they are nearly all **very attractive coins.**

A word of caution about Krause prices for these coins: DON'T BELIEVE THEM. For example, although the Double Talers are priced at an average of $500 in Unc., only two full Unc. specimens were auctioned in Germany in all of 1976 (cf. Battenberg-Klenau). Only six Unc. commemorative Talers surfaced at auction in the same period. Our estimates are based on auction records for these coins — in many cases, sales from 3-5 years ago.

BRUNSWICK-LUNEBURG

UNIQUE(?) 1½ TALERS OF 1661

1161 **1661. Broad Multiple-1½-Taler.** Dav. 170 ("1 known"), Duve p. 140 **("unknown, probably nonexistent-no number assigned").Fine+,** perhaps nearer VF. **(Photo)** **(——)**
Christian Ludwig, 1648-65. Horse over mining scene/"CL" monogram surrounded by crowns, shields and flora, legend. 63-64mm, 42.61gm.

Originally listed by Knigge (1901) in his own catalog of his collection, and later in the Rosenberg sale of Knigge's collection. Later, Davenport listed it (1956), pricing it at $20! In his 1972 edition, he notes that only one piece (presumably Knigge's) is supposed to exist. Duve claims that 1661 pieces of any denomination are untraced, and reasons that Knigge probably miscataloged a 1664 1½ Taler (and that Rosenberg followed suit).

Davenport's 1972 edition illustrates a 1661 2 Talers. The date side is from the same die as the present lot; the horse side from a different die (same as Duve 9B, 1662). Our consignor apparently did not know the significance of this variety. Whether or not this is the Knigge specimen (which Duve could not trace), we don't know. We are sorry that time does not permit further research or correspondence. Even if this is not Knigge's coin, it would still be only the second reported piece, and one of very few 1661 Loesers.

Behold, that thus shall the man be blessed that feareth the Lord." Dies by I.G.S.

Arms of the administrator, Albert of Brandenburg/St. Stephan (the first Christian martyr). **Very attractive early taler.** De Mey $700 (1975), surely worth comfortably more today, and possibly worth a premium as a scarcer, earlier date (type struck 1536-44).

Arms (castle) in cartouche/Imperial eagle, name of HRE Leopold ("the Hogmouth," 1657-05). Centers weak. Toned mint luster, except on very highest points, where storage friction shows. An XF brought DM2250 (+15%) in Giessner Munzhandlung's 3/76 sale. After four years it should be worth significantly more.

1291 **1665. Brunswick-Luneburg. Taler.** Dav., Kn. 2470, F. 1810. Unusual Rondelles. **VF. (Photo)** **($1,000-Up)**

Johann Friedrich, 1665-79. Arms/horse. A nice, natural-looking taler, no tooling or polishing. Tiny natural hole under horse's belly. Pasted in is a paper rondelle of a horse-cart and two riders, houses and water in background. A second paper rondelle, somewhat faded, shows an unclothed couple by a lake. 11 more rondelles, very thin and clear mode, are painted with clothing and scenes for the young lovers. By overlaying these on the paper piece, they are seen to progress through the stages of courtship, eventually dining, bathing, and sleeping together. Several mica overlays show the couple as 1) farmers, with scythe and hoe, 2) Spanish musicians, 3) Musicians with mode and lyre, 4) Toga clad Romans, and 5) African prince and princess (blacks with colored-feather headdress, etc.). All handpainted, 6-8 colors used on each rondelle. Some paint has flecked off several rondelles. Ex-Hirsh auction, June 7, '74, #88, DM 1675.

1424 **1682. Crown.** S. 3359, ESC 65 (**R4**), EMC 46 (**R5**). **Fine. (Photo)** **($350-Up)**

Charles II. Fourth bust. Not to be confused with the commoner 1682/1 overdate. EMC £250 Fair, £350 Fine; *although this piece catalogs about $750, we think American bidders are not yet current with the London market. A good opportunity.*

ESC's "R4" rating indicates 11 to 20 pieces known. This is especially rare considering this is a date, not a die variety of a given date.

1425 **1684. Tin Farthing.** Seaby 3395. Rare. **XF,** pested **($100-Up)**

Charles II. Bust/Britannia, seated. Obverse with some bubbles but glossy and no chipping. Reverse rougher, with most of surface at bottom chipped away. Edge poor, "684" of date present.

Good flan, two small digs on reverse. EMC (#364-"OCTAVO" edge) £300 EF. In today's market, this should bring more. The comparable Lord Hamilton coin brought £420.

1428 **1698. ½ Crown.** S. 3494. **XF. (Photo)** **($300-Up)**

William III. The Lord Hamilton piece, Choice XF, realized £230 (then over $500).

A piece slightly less than XF brought £500 in Spink auction 1; The Lord Hamilton coin, only Good VF, subsequently brought £440! Extrapolating those prices, this superior example should bring $1100-1250.

The regular type, edge reeded. Signed "H.K." under bust/"H. KETTLE" under crown. Essentially a counterfeit of the gold coin, only signed! Kettle is famous for his imitations of early U.S. gold coins, struck as counters, and usually signed. We had not previously heard of silver Kettle pieces. This is probably a game counter for a better class of gambler.

BRITISH "OFF-YEARS" PROOF COINS

Please see our comments in our London sale catalog. These proof coins are all very rare or extremely rare. Except for Crowns, they are very undervalued in Britain, actually less popular than the colonial proofs. In our London sale last July, the offering was bought up by American collectors. Doubtless these rarities will sell at very different prices when British collectors take an interest in them.

It is worth noting that the later proof silver and all off-year nickel coins are unlisted in British guides and catalogs, as well as Krause-Mishler. It is thought that a dozen or so of all years have been struck, for some decades, but it is very rare that any are ever offered, here or in Britain.

Peck has recorded the extant bronze and brass proofs, but in only one case did he himself have a coin included in the succeeding lots, and in no case did he record more than three specimens (or more than one in private hands).

1478 **1932. Proof Halfpenny.** P.2315, **"Ex. Rare".** Brown with some gold and iridescent tone. Nearly perfect. **($200-Up)**

1479 **1938. Proof Farthing.** P.2460. **"Ex. Rare."** Brown/Red. **Unpriced in Krause.** **($200-Up)**

1480 **1942. Specimen silver set: 3d, 6d, 1/English, 1/Scottish, 2½/.** No Florin. **Unc.,** not Proof. (——)

Through our well-connected consignor, we have learned that these were sent to someone who normally received VIP Proofs. The coins are ordinary Unc., evidently not specially handled at the Mint.

Complete 1943 Silver Set

1481 **1943. Proof Set.** 3d, 6d, 1/Scottish and English, 2/, 2½/. Six coins, all **Choice. (Photo)** **($3,000-Up)**

A complete set, of a kind (missing the brass 3d, and bronze ¼-d and ½-d), and as such excessively rare, if not unique. *All are unmistakably struck as Proofs, although most are not up to the usually high standards of the Royal Mint (probably due to wartime conditions). Other complete sets (1954, 1956) have brought about $400 per coin, but they had no silver coins.*

1482 **1949. Proof Penny.** Peck 2410, **"Ex. Rare."** Mostly bright red. **($200-Up)**

Despite Peck, we think "Very Rare" is a sufficient rate for this coin, which has been offered for sale before.

EXCESSIVELY RARE ERROR

1483 **1953. Crown. Edge lettering reads in error. Unique? Unc.** **($500?-Up)**

Coronation crown of Elizabeth II. Normal edge reads: "+FAITH AND TRUTH I WILL BEAR UNTO YOU". This piece: "WILL BEAR UNTO YO+U FAITH AND TRUTH I (space)". The cross was impressed into the edge after the "O" of "YOU", which it touches. We do not know how the edge lettering was applied so we cannot guess how this error occured. Our estimate is a guess.

1484 **1958. Set of 3 VIP Proofs: ½d,** (Peck 2510), **3d** (Peck 2501), **Scottish Shilling.** **($400-Up)**

The first two have very light contact marks on obverse. Peck terms both "Extremely Rare". The shilling is quite nice, and unlisted.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

VERY RARE "TRUE PROOF" 1960 CROWN

1485 **1960. Crown. VIP Proof. Very Rare. (Photo)** **($400-Up)**

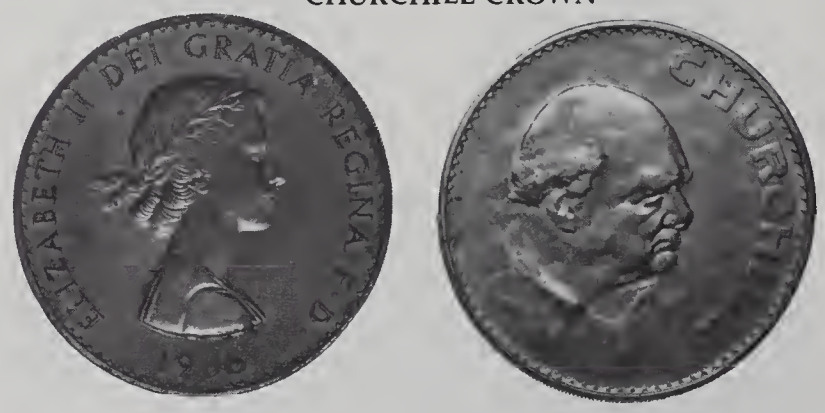
Elizabeth II. Young bust/cruciform arms. Issued on the occasion of the British Trade Fair in New York. Although prooflike strikes were sold, cased, to the public, real proofs such as this were for VIP's and are very rare. *ESC 393k* (R4 = 11 to 20 pieces known), *EMC 2889, L & S 10. EMC prices at £200. However,* the Rowlands piece brought £400. *This example has faint fingerprints, obverse fields, but is nearly perfect otherwise, thus overall a nice proof.*

1486 **1960. Set of four VIP Proofs: ½d** (Peck 2519d), **3d** (Peck 2501d), **English Shilling, Florin. (Photo)** **($750-Up)**

Peck terms the first two "Extremely Rare"; they are unpriced in Krause. The nickel coins are unlisted. *The florin is rather nice, the others have tiny marks or hairlines.*

1487 **1963. 3d.** Brass. Peck 2501; **"Ex. Rare".** Krause: unpriced. Light obverse marks. **($90-Up)**

EXCESSIVELY RARE "SATIN FINISH" PROOF CHURCHILL CROWN



1488 **1965. Churchill Crown. The excessively rare satin-finish Proof. (Photo)** **($500-Up)**

Elizabeth II, bust/Churchill portrait. ESC 393M (R6 = 3-4 pcs known), *EMC 2891 (R5, £200), L & S 14. Very tiny spots.* Rowlands auction, £580!! *on a £200 estimate. Our estimate is-to say the least-cautious.*

Mr. Herb Melnick
NASCA
County Federal Bldg.

Rockville Centre, N.Y. 11570

Dear Herb:

You asked me why I am so enthusiastic concerning the new Baldwin-Van der Dussen reprint of the "Biographical Dictionary of Medallists" by Leonard Forrer. In reply, I can only emphasize the following facts and observations:

1. Forrer's work is indispensable to anyone interested in coins, tokens, and medals, U.S. or foreign. The eight volume set belongs in every numismatic library worthy of the name.

2. The Forrer dictionary not only identifies engravers, die cutters, mintmasters, etc., but it tells much about these people and, importantly, identifies many, many examples of their work with typical specimens illustrated.

3. Only a few hundred sets of "Forrer" of all kinds (reprints included) can exist. Of these, those removed from old issues of Spink's "Numismatic Circular" are almost impossible to obtain and difficult to use; original volumes, as published in book form by Spink's (limited to 300 sets), were printed on acid ridden paper and the pages are often brittle and subject to tearing and similar damage, even if carefully handled; lastly, the sets of the moderately recent (1970) Burt Franklin reprint (with which I was involved in the distribution) contaianed the unrevised Vol. I (A-D), published in 1904, having only 574 pages.

4. Since sets of Forrer are relatively rare, they have become very expensive. For instance, the eight volume set, 1904-30, as lot #344 in the June 9, 1979 auction offering of G. F. Kolbe (Convention of International Numismatics, Los Angeles) brought $2,300. Despite this price it was described as having defective bindings, "contents partially loose, few pages chipped at edges, some leaves brittle at edges."

5. The Baldwin-Van der Dussen reprint will be a quality off-set printing product. The thousands of half-tone illustrations in the original volumes have been photographed separately from the text and will be "stripped in." This is very expensive and time consuming process but it is the only way to obtain maximum results when publishing a facsimile reprint edition.

6. The revised volume I in the Baldwin-Van der Dussen reprint edition contains 742 pages (compared to 574 pages in the 1904 initial version). *It has never been reprinted before.* (Those lacking the revised volume I in their sets should, in my opinion, order a copy separately!)

7. I understand that the new reprints will be bound in a blue cloth (similar to the original bindings), and they will appear at 1½ to 2 month intervals, commencing this past November 1st. The page content is as follows:

Vol.	I	A-D	742 Pages	
	II	E-H	590 Pages	
	III	I-Maz	650 Pages	
	IV	M-Q	730 Pages	
	V	R-S	740 Pages	
	VI	T-Z	740 Pages	
	VII	Supplement A-L		570 Pages
	VIII	Supplement M-Z		465 Pages

8. The price of $525 for the full set of eight volumes may seem expensive at first glance, but considering the rarity, importance, and quality of the work, it is not so; knowledge-wise it is, undoubtedly, the bargain of the decade. What else is there to say?

Best wishes,

John J. Ford, Jr.

P.S. This offer of a total of 5,227 pages, many with illustrations, information not available elsewhere at approximately 10¢ per page! — A lifetime investment in knowledge!

A FINE COLLECTION OF ENAMELED COINS

In the highly attractive and colorful selection that follows, we are pleased to be able to offer a fine collection of enameled coins. Most of these pieces represent issues of Great Britain, as it was there that all of these were most likely made, and yet there are also some very beautiful renditions which have been done using coins of Burma, Canada, Portugal, Thailand and the United States.

All of the pieces come from the city of Birmingham, England where they were made by artisans in what can only be called a "lost art" process sometime during the last half of the 19th Century and the early part of the 20th Century.

In the case of each finished piece, several different colors of enamel were applied to a coin surface which had been previously prepared by engraving. This was done in order that the enamel could be made to stay in place and assume a flat and even relief. In the process, every coin became the basis for a new interpretation of the original design, with the result that every finished enameled coin has its own unique qualities. No two of these are exactly alike.

Enamel, a glass-like product, is very hard but brittle and subject to chipping. The amount of chipping is one of the bases for judging the quality of enameled pieces. On a whole, this collection is low in chip damage and for the most part what there is of it is relatively innocuous. *These specimens have a high aesthetic appeal and are in unusually good condition.*

In almost all cases, only the coin's reverse design has been done in enamel. Exceptions to this rule are rare, but a few such exceptions have been noted in the lot descriptions. Pin and/or pendant mountings and their completeness have also been described for every piece.

Pin mounting all intact. Unchipped and with only superficial surface scratches unusual condition.

A superb blend of turquoise (border), pink (center background), silver and the deep blue, red and yellow of the shields. Intact pin mounting. No chips and only superficial surface scratches. A beauty!

1573 **1887. 9 colors. (Photo)** **($150-Up)**

White border and off-white inner background attractively set off quadripartite arms. Complete pin mounting. No chips, one hairline. Exceptional quality. Superior to the similar piece of LC lot 1941F at $90.

1574 **1887. 4 colors. (Photo)** **($100-Up)**

Little chipping. Obverse brooch marks (light), heavy edge nicks.

1575 **1887.** Arms. **4 colors. (Photo)** **($150-Up)**

Distinctively different from the two preceding coins. Lettered in reverse on cobalt blue border with ruby red central background. Intact pin and ring mounts. No chips and only superficial surface scratches. Another excellent-condition specimen.

1576 **1887. 10 colors. (Photo)** **($150-Up)**

Differs from the preceding in that it has a blue border and green shield for Ireland (instead of blue). Pin and ring mountings intact. One tiny shallow chip at center and superficial surface scratching. This and last make an excellent and desirable pair.

1577 **1890. 8 colors. (Photo)** **($150-Up)**

Plain border, blue lettering, pink central background. Spinner-pin mounted. Very light surface scratching and no chips. Another one of these, making 5 distinctly different enamel designs on the same type of double florin piece.

HALF CROWNS

1579 **1823.** George IV. Crowned arms in garter. **6 colors. (Photo)** **($100-Up)**

An attractive rendition with gold and three shades of blue predominant. Pin mounting intact. Two shallow chips which are inconspicuous because they're not down to metal, and only minor light surface abrasions. Very nice overall effect.

1580 **18—.** (Type of 1825-29). George IV. Crowned arms. **8 colors,** browns and blues beautifully shaded. **(Photo)** **($125-Up)**

Outstanding artistry. *Both pin and ring mounted, though pin tong is gone. Two superficial chips and even more superficial scratches, none of these serious enough to expose metal.*

1581 **1834.** William IV. Crowned and mantled arms. **7 colors. (Photo)** **($100-Up)**

Outstanding features are the deep blue background and white ermine interior of mantle. Intact pin mounting. Two or three small scratches and one or two small chips, none of which show metal.

Attractively rendered with turquoise outer border, dark blue garter, red-white-yellow supplements, etc. Lies flat, no pin mounting (removed). A couple of tiny insignificant chips and only minor surface abrasions from wear.

FLORINS
1887 VICTORIA JUBILEE SELECTION

1590 **1887. 7 colors. (Photo)** **($90-Up)**
A very attractive color combination-blue border, pink center, etc. Pin mounting intact. What looks like shallow chipping in border area may result from technical difficulties in the application of color, but whatever it is, it in no way adversely affects this nicely done rendition:

1591 **1887. 7 colors. (Photo)** **($90-Up)**
Makes attractive use of white (border) and pink (central background). Intact pin and ring mountings. No chips or scratches and only microscopic freckling in white areas. A very attractive rendition, equal to or better than the last.

1592 **1887. 7 colors. (Photo)** **($75-Up)**
A very attractive combination with turquoise border, white center and contrasting shields. Pin mounting intact. No chips or significant scratches but a slight region of staining 8:00 to 9:00 of border.

1593 **1887. 6 colors. (Photo)** **($75-Up)**
White border, turquoise center and attractive use of red, black and yellow. Intact pin mounting. No chips, one or two insignificant surface abrasions. A handsome piece.

1594 **1887. 6 colors. (Photo)** **($60-Up)**
Predominant use of cobalt blue gives this piece a "different" but equally attractive appearance. Never mounted. Obverse plain. A couple tiny chips near dentillated border, but you have to look hard to find them. An impressive rendition.

1595 **1887.** Jubilee. **6 colors. (Photo)** **($40-Up)**
Nice silver bezel. *Pinback intact. A single, heavy chip.*

1596 **1897.** Uniface. Crowned tripartite arms in garter. **6 colors. (Photo)** **($75-Up)**
Dark blue, red, white, yellow and turquoise. Pin mounted without pin-tong. No chips or scratches in enamel. The 1897 reverse but apparently not a coin.

1597 **1899.** Victoria. Crowned tripartite arms in garter. **6 colors. (Photo)** **($65-Up)**
A bright and unusual rendition making primary use of turquoise, silver and white. Pin mounted with pin tong missing. No scratches, but an inconspicuous chip or spot where enamel did not take in the white area. A lovely piece.

1598 **1903.** Edward VII. Britannia rev. **6 colors. (Photo)** **($75-Up)**
Predominant use of ruby red and gold. Intact pin mounting. A shallow chip between "F" and "L" on otherwise perfect surface. A nice job well done.

SHILLINGS

1599 **1825.** Lion and crown reverse. **4 colors. (Photo)** **($50-Up)**
Encased within silver frame encircling edge and plastic crystal one side only. Scratched only on crystal, no chips, some "freckles" upon border area.

1600 **1816.** George III. Crowned arms. **7 colors. (Photo)** **($50-Up)**
An attractive rendition of cobalt blue border and inner band of white behind lettering. Mounted for pin but with pin-tong missing. No chips and good surface with only superficial marks.

1602 **1825.** George IV. Lion on crown rev. Enameled both sides: **obv. 2 colors; rev. 4 colors.** Unmounted. **(Photo)** **($50-Up)**
No chips, 4 or 5 hairline scratches on obv. and few other superficial marks. Probably rare because of the two-sided coloring.

1887 VICTORIA JUBILEE SELECTION

Cobalt blue predominates and with white background behind lettering of motto. Pin mounting intact. No chips and only minor surface marks.

1607 **1887. 6 colors. (Photo)** **($50-Up)**
Ruby red predominates (in border and shield). An imaginative use of color. Never mounted. A faint chip (or (or uneveness) in upper right red border but no other irregularities worthy of mention. Very attractive.

1608 **1887. 6 colors. (Photo)** **($50-Up)**

Old head of Otto (1832-62)/as previous years. Also reduced, 16mm diameter. Krause $450, probably worth more.

1672 **(1935). 100 Drachmai.** Dav. 119, Divo 113. **Imperfect proof,** numerous hairlines. Toned. **(Photo)** **($475-Up)**
Plain head of George II/Crowned and mantled arms. Struck at the Birmingham Mint. The coins were ordered in 1939 through Messrs Spink & Son, Ltd. to mark the fifth anniversary of the restoration of the Greek monarchy. Of the proposed order of 2,000 pcs., only 500 were struck because the advent of World War II prevented completion of the project. Minted in proof only. Extremely difficult to find in a better state of preservation.

1678 **1793-NG/M. 8 Reales.** Cr. 47. **Choice XF. (Photo) ($200-Up)**

Carlos III, 1788-1808. Bust/arms pillars. Though we have had many AU-Choice Unc. 8 Reales (Guatemala) of Fernando VII, this is really nice condition for an early year (1793 is also a scarce year).

1679 **1808-NG/M. 8 Reales.** Fernando VII, first year. Cr. 67. **Abt. XF. ($150-Up)**

Transitional type with bust of Carlos IIII. Thin scratch from I of GRATIA to date. Perfect strike and planchet, nice even grey tone.

UNUSUAL COUNTERSTAMP!

1682 **(1838-40?).** Long, irregular Mo-mint cob 8 Reales, two counterstamps. **(Photo) (——)**

The original coin shows little, is 48mm long, and holed. The standard 1838-40 counterstamp (sun over three mountains) appears on one end of reverse, but it is so poor as to be suspect. At opposite arm of obverse is a slightly crudely engraved stamp with rayed sun below and behind a single mountain, on which is perched a quetzal bird! We are skeptical of the authenticity (although not the antiquity) of this stamp. We suspect it is a later 19th-Century made-for collectors job, but it is difficult to separate it from contemporary counterstamps, which also varied from their sun & mountains prototype. As a contemporary piece, a very high valuation is in order. We had never heard of such a piece. The stamp in question is a very clear striking, hardly worn, and unambiguously engraved.

1683 **1840/30-G. ¼ Real.** Central American Republic issue. **Very Choice Unc. ($35-Up)**

1684 **1894. Peso.** Cstp on 1884-B.D. Peru Sol. **Rare date.** Y. 88. Coin **VF+,** stamp **XF.** (Krause $100 XF). **($75-Up)**

GUINEA

1685 **1962. Proof Set. 1, 5, 10, 25 Francs.** Y. 4-7, G & C 1-3-5-7. **($400-Up)**

All with bust of Sekou Toure, who led nation to independence. Reverses with values surrounded by native flora. A very rare set, *much moreso than Krause ($300) or Gadoury indicate. These are* Royal Mint VIP Proofs, *which are always very rare, mintages generally a dozen or so, and seldom found in complete sets (we have had many VIP proofs, through Wayte Raymond's estate, and other sources, but never before a complete set from outside Britain). Guinea left the French Community-probably explaining why the Paris Mint did did not strike its sundry essais and pieforts for Guinea. Some toning.*

Authorized by an edict of 1811, withdrawn in 1814. Byrne states in his article the Haitian holey dollar has not been identified. This is, however, a genuine example of the type catalogued in his sale as Haitian.*

SUPERB HAWAIIAN "DOLLAR"

1697 **1883. 1 Dala. AU. (Photo)** **($1,400-Up)**

Kalakaua I, bare head r./crowned, mantled arms. Struck at the San Francisco mint, which was normally occupied striking prooflike Morgan dollars; it is only to be expected that this is the most attractive crown of the Pacific. The present example is quite nice, even for an AU coin (it would rate "AU-56" on the ANA scale.) It may not have actually circulated at all, but as it apparently was dipped (long enough ago to have re-acquired some light gold peripheral toning), we are disinclined to weigh its merits as a possible Unc. An AU in our London sale, 7/78, brought $1470; this piece is at least as nice. Further, the Hawaiian market has been rising. Full Unc. Dala's may now be worth $6000-7500 (Krause-Mishler prices; AU $1750, MS60 $5000, MS65 $7500).

1698 **1883. ¼ Dollar,** (Hapaha). KM-5. **Nice Unc.** Full lustre. **($150-Up)**

1704 **1883-H. 20 Cents.** Y. 5. **Very Choice Proof. (Photo)** **($400-Up)**

Victoria. Bust/inscr. (Chinese & English). Krause $250 ($75 Unc.). We sold an Unc. 1883 20 Cents (also Krause $75) for $180 last year (WR4), so we are inclined to think the Krause price is timid.

1705 **1902. Coronation Medal.** Bronze 38mm, looped. **Bronzed Proof.** **($75-Up)**

Accoladed busts/harbor scene (tall ship & junk), below which "SIR HENRY A. BLAKE. G.C.M.G. GOVERNOR". By Edmonds, London. Fine and interesting colonial medal.

JUDAICA

1790 **AH1143** (= AD 1730). **Gold coin with Star of David.** 23mm, 3.02gms. **VF-XF. (Photo)** **($125-Up)**
Made by Algerian goldsmiths, *these private coins were normally used in jewelry. This piece has been in a ring mount, thus has escaped being holed. One side is bold, the other is poorly engraved, thus appears weak. Each side has four lines of arabic inscriptions, and the coin simulates standard Ottoman coinage, except for the added Jewish Star, which is very large and bold. It is more-or less contemporary with the date it bears.*

Unlisted

1791 **Post 1862. Palestine Under Turkish Rule. (Photo)** **($200-Up)**

This coin was counterstamped "TZADI, LAMED, IYIN" and was produced by the Jewish community in Palestine to provide a free meal for the poor. This circulating Turkish coin was counterstamped illegally because it was against Turkish law to modify a circulating coin. While this specimen shows extensive wear, the counterstamp is very clear.*

1951 **1957. Israel-France Sinai Campaign Medal.** 80mm. BRONZE. **(Photo)** **($1,000-Up)**

We quote from Arnold Kagan's book (page PM-3) "This medal was issued by David Ben Gurion . . . to the French pilots from the Paratroops corps who took an active part in the campaign to open the Gulf of Eilat for Israel shipping. THERE WERE THIRTY original medals struck without the inscription on the reverse, WHICH WERE LATER HAND ENGRAVED BY SHAMIR BORS. AT A LATER TIME, THE INSCRIPTION WAS ADDED TO THE REVERSE DIE AND MEDALS WERE STRUCK FOR ADDITIONAL PRESENTATION . . ." IN KAGAN'S BOOK HE REFERS ONLY TO SILVERPLATED SPECIMENS. HE MAKES NO MENTION OF THE APPEARANCE OR EXISTENCE OF ANY OF THE ORIGINAL 30 that were not *silverplated. HERE IS ONE. IN ALL THE SPECIMENS THAT WE HAVE HANDLED OF THE SILVERPLATED VERSION ALL WERE UNIFORMLY THE SAME: WEAK REVERSE LETTERING AND A VERY WEAK SWORD TIP ON THE REVERSE. THIS EXAMPLE HAS A WEAK SIGNATURE WITH THE SHARPEST OF LETTERING AND A SUPERBLY SHARP SWORD TIP. IN ADDITION THIS EXAMPLE HAS A CHARACTERISTIC DIE FILL ON THE BOTTOM OF THE REVERSE FIELD.*

AN EXTRAORDINARY OPPORTUNITY FOR THE ISRAEL SPECIALIST. ONLY THE 3rd WE HAVE HAD THE PLEASURE OF HANDLING. WE KNOW OF NO OTHERS. This is not the specimen sold 8 years ago in the Superior sale of 1971 when it brought an earth shattering unheard of price of $460.00. THE HIGHEST PRICE EVER PAID FOR AN ISRAEL MEDAL AT THAT TIME. When will you have another chance?

EXCESSIVELY RARE 1947 1 MIL

2018 **1947. 1 Mil.** Final year of Mandate coinage, **all supposedly destroyed.** Damaged. **($1,000-Up)**
The 1947 Palestine Mandate coins are the most treasured Judaic numismatica of modern times. Their excessive rarity, combined with the historic value of being the last coins issued for, *rather than* by, *the Jewish people, gives them very high market value, and yet most Judaic specialists have given up hopes of owning an example.*
The following examples are known to us: 1) Glendining sale, 1973; 2) NASCA, Wayte Raymond sale, 12/77 ($7500); 3) NASCA, Sidney Olsen (sold with Wayte Raymond sale, part 3 ($11,500); 4) the present lot.
This piece, is from the famed Dr. Gaver collection. Gaver (Collector's Research, Inc., Montreal) assembled a collection of 1,000,000 coins, saving one of every die variety, of all countries and periods. This coin was auctioned earlier this year in Washington DC, before a standing-room only crowd, one of whom bought it and consigned it to us.
It is deliberately damaged, apparently by applying pressure to one face. The date side is thoroughly nicked; the other side a little flattened. The rims are XF; the edge is AU or Unc., as would be expected for a coin that was not supposed to be issued. (INS authenticated, certificate #934B).
The three other known specimens are all in mint state. This damaged piece is obviously not worth the $11,500 the Olsen coin brought, but it is the "only game in town" at this point, and may well bring several thousand dollars. We expect it will go to a very dedicated collector, as did the others we have auctioned.

2019 **1927-1946. Palestine Mandate Starter Set. 21 Pcs.** **(——)**

5 Mil-1927, 1939.

2064 **1860-Firenze. 50 Centesimi.** Cr. 84. **Very Choice Unc. ($125-Up)**
Similar to last. Similar toning, also quite attracting. The two coins have probably been together since the time of striking. Krause $100.

VENICE

Pasquale Cicogna, 1585-95. Winged lion walking l., brandishing sword, name and titles of the Doge/fortress of Palma and large plain cross. Apart from its scudo size (44mm) and its listing in CNI, we would consider this as a medallic issue. As such, a fine, original, important late renaissance piece.

A really nice example of this popular crown. A bit scarcer than on Lima 8 Reales. A few fairly minor edge nicks.

JAPAN

2080 **N.D. (19th cent.) Lead 24 Mon.** Rectangular coin of Kanragori province. Rather similar to KM44. **VF? ($50-Up)**
As KM44 (Krause, p. 1164) but some characters are different. Krause's values ($70 VF) are probably too low for all these rare lead items. Unfortunately, not suited to photography (Krause uses rubbings).

2081 **(1829-37). Square silver** Isshu Gin. Cr. 11. **(Krause $40 XF). Unc. (1876).** Silver **5 Sen.** Y. 22. **BU. ($75-Up)**

TRADE DOLLAR

Similar to the domestic ONE YEN, but minor differences including English legend "420 GRAINS. TRADE DOLLAR. 900 FINE." An interesting comparison piece to the American Trade Dollar, and the later British pieces. Somewhat prooflike, lightly polished. Chop mark, left reverse field.

2088 **(1887).** Meiji 20. **Yen.** Y. A25.3. Scarce date. **Abt. VF.** **($75-Up)**

RARE AND LOVELY GOLD 20 YEN

2091 **(1916).** Taisho, year 5. **Gold 20 Yen.** Fr. 53, Y. 40. **Choice Brilliant Unc. (Photo)** **($1,250-Up)**

Sun/value in wreath. Excellent strike, satin surfaces. Lovely color. Relatively few bagmarks (very few, indeed, for a gold coin this size), most of which are in the reverse fields. Krause $1200, but this premium quality in today's market must surely be worth much more.

2092 **(1891)-1964. Crown lot.** **($140-Up)**

1891 Yen, many chopmarks; 1914 Yen, Unc.; 1964 1000 Yen, Olympics, *Unc. (2); plus five common Chinese crowns, VG-Unc.*

JERSEY

2095 **1881. 1/12 Shilling.** Y.8. **Choice, fully prooflike Unc.** **($75-Up)**

Obv. gleaming brown, rev. red. A simply beautiful coin which we nearly catalogued as a proof. As no proofs for this scarce (mintage 75,000) date are recorded, this should being a record price.

2096 **1902. Coronation medals.** 31½mm, white metal and bronze. Bust/Jersey arms. **AU. 2 Pcs.** **($45-Up)**

2097 **(1970's).** Channel Is. occupation (Nazi) tokens. Zinc and brass. Recent fantasies. 7 different. **($35-Up)**

JORDAN

ONE OF 25 1949 PROOF SETS

2098 **1949. Proof set 1, 5, 10, 20, 50, 100 Fils.** Y.2-7. **Only 25 of each struck in Proof. 6 Pcs. (Photo)** **($1,000-Up)**

Each piece inscribed in Arabic on obverse; in English on reverse. Krause's price of $500 must be discounted, as specimens of 1949 and other years have already sold at much higher levels. What must be considered here is the extreme rarity of complete sets.

This set is not only complete but obviously has been kept intact since 1949. The nickel pieces are nice, and the three bronzes are simply gorgeous, toned brown and purple (the 5 and 10 Fils being among the most stunning bronze or copper proofs we have ever seen).

UNLISTED 1955 PROOFS

2099 **1955. 100 Fils.** Y.12. Very Choice, blazing **Proof. Extremely Rare.** **($200-Up)**

Similar to the above, although issued under a new ruler (Hussein). We have had the low values of the 1955 coins in Proof, and they have brought prices approaching $150, but this is the first we have noted this denomination in Proof. It seems impossible that more 1955 proofs were made than 1949's; probably, far fewer were made, possibly for non-numismatic, VIP distribution. Thus far, none of the 1955 proofs has been listed.

2100 **1955. 5 Fils.** Y.9. **Unlisted Proof. Ex. Rare.** **($125-Up)**

Type similar to other 1949, 1955 coins. Very light surface marks. Red, orange, gold, blue and purple toning.

EXTREMELY RARE COMPLETE 1955 PROOF SET

2101 **1955. Proof Set: 1, 5, 10, 50, 10 Fils.** Y. 8-12. **(Photo)** **($650-Up)**

All unlisted in Krause. *25 1949 sets were made; we expect 25 or less were made in 1955. We have noted loose proof coins of both years. Very few complete sets can exist and we think 1955 is probably the rarer of the two as a complete set. Struck at the Royal Mint. Some toning.*

2102 **1962. 10 Fils.** Y.10. **Unlisted Proof. Ex. Rare.** **($150-Up)**

Only tiniest abrasions. Light orange and rainbow toning, much original color. May be rarer than the 1945 and 1955 proofs.

2103 **1962. 5 Fils.** Y.9. **Unlisted Proof.** **($100-Up)**

Comments as last. Light fingerprints.

Girl's head/value, date in wreath. Mintage 5000. This would appear to be a recent Heaton hoard release. Of a quality often touted as "proof," and, in truth, may be preferable to an imperfect proof.

Young woman's head/value, date in wreath. Very lightly polished, thus hairlined. Not to be confused with Heaton-hoard prooflikes.

These Malaya & BNB proofs are very rare; a 1956 50 Cents (unlisted), coppernickel, Y.4; brought $325 (to a dealer) in our Wayte Raymond III sale. These smaller pieces should thus be worth $150-Up.

MALTA

2130 **1723.** Silver **12 Tari** (=Scudo). S.5(R5). **VF.** **($200-Up)**

Excellent strike and planchet. Small edge bump at 8:00 obv. Some darker toning along the bottom. A lightly damaged 8 Tari (⅔ Scudo) brought $125 in the 1973 Panosh sale.

2131 **N.D. (1741-73).** Silver **7½ Tari.** Cr. 12 ($20 Fine), S.4 (var.), **R5. Choice Unc.** **($150-Up)**

VERY RARE PORTRAIT 6 TARI

2133 **1778. 6 Tari. Not in Craig, etc.** S.p. 218 #8 **(R7)** (medal). **Fine.** **($150-Up)**

Arms, name and title of Rohan/his bust, "IN TE DOMINE SPERAVI.1778." 6.26gm. Obverse die from a 1776 6-Tari (S.2). Reverse in shallow relief. Although Schembri catalogued this as a medal (as he also catalogued Craig #12), the weight, alloy, design, strike, and the worn condition in which found (cf. S. plate) indicates it is a coin. Schembri's price for this rarity was a high 2 Guineas.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

MARTINIQUE

2134 **(1805). Gold 6400 Reis,** 178x-R. Fr. 76 (Brazil). **Counterstamped "20" over eagle for Martinique.** Fr. 1 **($2000),** Cr. 31, **("Rare"),** Pridmore p. 246 group 1, Byrne 1209 **($1400),** Howland Wood 87. **Coin XF, stamp Unc. (Photo)** (——)

Also attributed to Martinique by VG and other French catalogers; variously misidentified by others (e.g. Scholten). The coin is an undersized (not clipped), underweight (8.08 grams) forgery of the period, with an edge dent at 7:30 obverse. This stamp was applied, by a Martinique decree of 26 Sept. 1805, to unmarked forged gold of a certain fineness (essentially, 20 carats, genuine gold was stamped "22 over eagle," for 22 carats.)

These stamps occur in combination with stamps of several neighboring areas. According to the terms of the decree, and according to Pridmore, these multiple-stamp pieces are false. See Friedberg, British Guiana, #1 (illustrated) for a coin condemned by Pridmore.

Byrne (World Coins, 1/70) wrote an article to de-attribute these pieces, classing them as private Goldsmith pieces. With apologies, we feel his article actually confirms a well-documented attribution; his inclusion of these types under "West Indies in General" in his sale catalog probably depressed the prices.

Krause miscatalogs this type as "20 Livres;" in fact, it was valued at 20 Livres per "gros" weight (=3.82 grams).

When one considers that Pridmore attributes to Dominica the heart-shaped-pierced coins commonly assigned to Martinique (as recently as Byrne sale and Gadoury-Cousinie), one begins to appreciate how muddled and controversial the Martinique series is.

The counterstamp applied to this coin is larger than the Pridmore (Byrne) illustration; the figures are more distant from the eagle; there is a thin diebreak across lower right corner. We are inclined to class this among the 1885-1920 period fakes, but in a series so marked with discrepancies, we don't pretend to have the last word. SOLD AS IS. NO RETURNS.

2135 **(1805). Counterstamp ("22" over eagle in indent) on 1797-R 6400 Reis gold coin.** Fr. 1, VG 1108, (13,000), Cr. 32 ("Rare"), G & C 23. **VF-XF. (Photo)** **($2,000-Up)**

ROYAL 8 REALES IN GOLD-UNIQUE?

2151 **1621-Mo/D. 8 Reales. Perfect "Royal" striking.** A later cast in **GOLD.** Calbeto 638 (made from Calbeto's coin). **AU or Unc. (Photo)** **(——)**
Philip VI, 1621-65. Crowned Spanish shield of arms/cross, castles and lions in angles, all in quadrilobe. Inner circles of chain, not dots as usual. Plain (filed) edge. 42.6-42.8mm., 34.71 gms. Calbeto's piece, from which this gold cast was made, was plugged, so that this piece has a cast in plug. Calbeto gives a pedigree of Perpall-Gibbs. It is impossible for this cataloguer not to suspect Gibb's role in the parentage of this copy. Nonetheless it is a numismatically respectable piece, and very important, as its genuine predecessor is a kind of coronation coin for Philip IV. Bidding in the upper hundreds to low thousands seems probable.

2152 1733. MF-MO. **8 Reales.** "Recortado." Vogt 48. **VF.** **($150-Up)**
Shield/lions & castles. Struck on a clipped planchet on the new milled coin press-a transitional coin, between cobs and pillar types. Sun-and mountains counterstamp on reverse. Large hole in one corner

2153 **1733-MX/MF. 1 Real.** Cr. 3a ($350). **Very Rare. VG** (better?). **(Photo)** **($500-Up)**
Philip V, 1700-46. Arms/globes between pillars. All milled Spanish-American coins before 1734 are very rare. Those with mintmark "MX" in lieu of the usual "Mo" are twice as rare in 1733. "MX" is the most difficult Spanish-American mintmark to acquire, and we do not recall one offered recently.
It is interesting to note that Craig's price (1975) is less than Utberg's (1970), and that Vogt (Krause, 1978) has the same price as Utberg. Comparing catalog prices with actual sales results of 1730-33 milled Mexican suggests this lot should sell near $1,000.
Though we grade this coin only VG, most of PLUS ULTRA is visible.

2154 **1735 MoMF.** Philip V. **8 Reales.** Crowned arms; Rev. Pillars of Hercules. **AVF,** polished. **($90-Up)**
Two or three very light surface scratches on rev.

UNCIRCULATED MAXIMILIAN PESO

2179 **1866-Mo. Maximilian Peso. Unc. (Photo)** **($300-Up)**
Head/ornate arms. Very scarce in mint state. *This piece is lightly toned on obverse, rather brilliant on reverse. NETHERLANDS-MEDALS

The Council seated in the Chamber of the Doel at Dordt/rock with circular temple at top, winds blowing from the four quarters. This Council, international in scope, was convened to try to resolve the disputes in Holland between the rival religious factions of the Arminians and the Gomarists, and ended by condemning the Arminians. The scene within the chamber represents an accurate arrangement of the various delegate groups: the presiding 5 professors from the University at upper center; the 21 lay elders at the table in center; at our upper right, the 5 English representatives; next on right, the empty seats of the French group which was forbidden by Louis XIII from attending; and then the other German, Swiss, etc., delegates; on our left, the Dutch and Walloon churchmen; spectators in the foreground. An excellent and historic piece.

Male figure (Dutch Liberty) between female personifications of the USA and Great Britain/long inscr. under crowned Friesland shield (held by hand of God). NICARAGUA

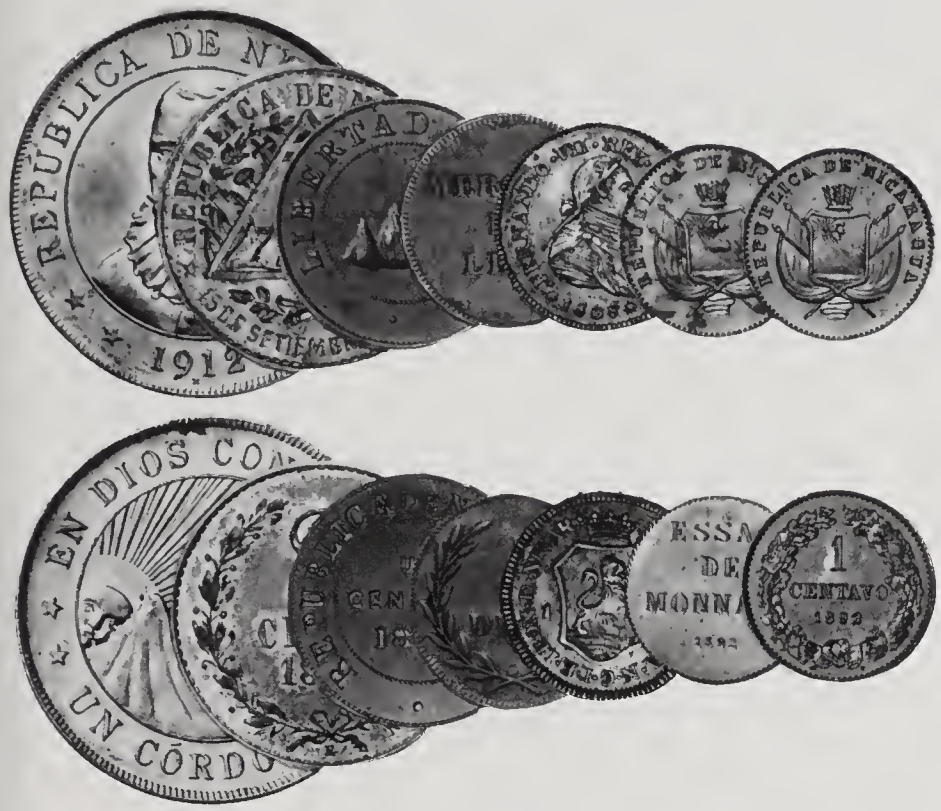
THE COMPLETE COLLECTION OF NICARAGUAN COINS, 1808—DATE INCLUDING "FINEST KNOWN" RARITIES



2288 **1808-date. The Coins of Nicaragua. Complete** except for 1975 NCLT. Also, **3 patterns** and **30 tokens. 149 Pcs. ($3,500-Up)**

1) 1808. *Proclamation* 1-Real. *Fonrober 7375, Almanzar-Stickney p.16 #2, Grove (Mexico) F83, Herrera 27, Medina 312.* Superb XF-AU. (Photo). *Issued by the Guatemalan Captain-General. A lovely strike, nicely toned over light old cleaning, probably never circulated but light wear from collector handling.*

Overall, XF-AU and superb beyond its strict grade. Even though it bears a denomination in reverse fields, proclamation coins like this were usually holed (cf. both Fonrobert and Herrera specimens). This could be the finest known. *Its former owner estimated its value at $750. In our Wayte Raymond II sale, a Salvadoran 1-Real proclamation (Herrera 214), Good, holed, brought $130. Both Grove and Herrera price the Nicaragua Real higher than the Salvador ($60 to $45, 5000 to 4000 Pesetas). By extension, this jewel should be worth more than $750.*

Struck on the ascendency of Fernando VII, doubtless at the Guatemala mint, it features the held-over bust of Carlos IV on obverse, and the crowned shield of Leon de Nicaragua (dividing 1-R) on reverse. The engraving reaches the highest standards of gold coin production.

2) $^{1}/_{24}$ Dime. *Mid-century. Mercado de Leon. Copper, 20.3mm, 3.89 grams. Solorzano de La Rocha #2.* F-VF, *medium dark brown, small edge bumps and miniscule scratches. (Photo).*

A well-struck (plain edge, in collar), extremely rare *piece, not in Gibbs, Fonrobert, etc. The* finest known example. *Its former owner valued it at $500.*

3) 1860. UN "CENTABO." *A & S p. 16 #3, Gutlag 3931. Purportedly a pattern. Very rare.* Unc., Finest Known. *(Photo).*

Brown, mint red in the letters. Perfect strike. No marks, and remarkably even color, despite faint fingerprint traces in the fields. 5.57 grams.

Almanzar and Stickney comment "Seen only in circulated condition." While this statement illuminates the desirability of this superb example, it clouds the status of the coin as a pattern. Guttag's piece, in high grade, was labelled "pattern." Krause does not list the piece-a questionable omission by any standard.

We are informed the Bank of Nicaragua offered $1500 for this piece. It should be worth as much, if not more, to American collectors.

4 116) The Regular Coins of Nicaragua. *Mostly circulated, some rather poor. Includes 1972 Proof set. Krause value over $500, excluding the Cordoba (see* Photo).

The Cordoba is Uncirculated with full luster; *light, normal bag marks. It is mishandled, showing friction on high points. There is a small dirt spot (as struck) at top reverse, which was discretely brushed but not successfully removed. Though priced at $375 (Unc.) in Krause, this "slider" should be worth $500-$750.*

Many Nicaraguan coins are undervalued in catalogs. For example, the 1912 25 Centavos catalogs $15 in Unc., yet a choice Unc. example realized $75 in active bidding, in one of our 1977 sales.

117) Essay 2 Cents, 1887. *Guttag 3939, A&S 4.* Nice Red and Brown Proof. *(Photo). Brought $130 in our 6/77 sale.*

118) 1892. (Centavo). Paris Mint Essai-Pattern. *Guttag, A&S 5.* Brown/Red Unc. *Very sharp; choice but for dark-toned spots on obverse. (Photo). Est. $100-125 (A&S-1974)-($75 to $150). but for light lacquer "spots." (Photo). Est. $100-125. 120-149)* Tokens. *Probably 1860's-1925. Some strays; a couple duplicates. Not all very pretty, but some quite interesting.*

The opportunity to purchase, in one fell swoop, all *the coins of a modern country is unusual in the present advanced state of collecting. Perhaps this lot would ideally be bought for donation to a museum. We have good reason to believe it has recently come from Nicaragua, and its appearance on the American market can be explained by the Sandinist victory. For collectors seeking the finest Latin American or Central American coins (or 19th Century type collectors), this represents a literal once-in-a-lifetime opportunity.*

2288A **N.D. 1/24 Dime. Mercado de Leon.** As #2 in the above complete collection **Extremely rare. GOOD. ($250-Up)**

A cast, contemporary counterfeit of the above, comparable in rarity to the genuine (if not rarer). This issue is dicussed in Almanzar-Stickney in some detail, even to the detail of contemporary counterfeits plaguing the issue. A&S had never seen an example, *however, and thus could not actually list the type.*

This is only half the thickness of the genuine (2.92gms.), is light bronze in color, and has much black discoloration (overall grade "Good").

Bust/sun and mountains. Minor spotting, obverse. Unlisted in Krause. Struck at the Royal Mint, London. *Doubtless the other denominations of 1939 exist in Proof, and all must be very rare.*

EXTREMELY RARE 1962 PROOF SET

2290 **1962. Proof set. 5, 10 Centavos.** Y. 17a-18a. About Perfect. **($200-Up)**

Bust/sun and mountains. Royal Mint proofs. Not in Krause. *The few such proofs not donated to British museums may not have been presented to numismatists, but more likely dignitaries. Thus, it is surprising to encounter these in such lovely condition.*

2300 **1930. ½ Balboa.** Y. 15. **Unc.** **($75-Up)**

Lists at $100 in Krause.

2302 **1932. ½ Balboa.** Y. 15. **Unc. (Photo)** **($325-Up)**

Mintage only 63,000 and very few survivors in this superior grade. Krause lists Unc. specimens at $400.

VERY RARE PROOF

2303 **1962. Centesimo.** Y. 22. **Proof. Very Rare.** **($125-Up)**

Bust of Urraca (the Indian)/value over branches. Royal Mint "VIP" proof. Krause states 25 were struck. Miniscule contact marks, but really pretty toning. Panama is a perennially popular country, so this unheralded rarity should be a bargain if it only sells at or near estimate. Any current proof of any country with a 25 mintage would double our estimate.

SUPERB 1754 ROUBLE

2392 **1754. Rouble.** Dav. 1679. **Choice, brilliant AU. (Photo)** **($500-Up)**
Elizabeth, 1741-62. Bust/eagle. Excellent flan and an absolutely magnificent strike *(edge included). Lustrous! Almost certainly an Unc. coin with cabinet friction, not really AU. A Good VF was offered for £145 (Spink NC, 10/79). A Choice XF Elizabeth Ruble, 1749, was offered by Coin Galleries, Vol. II #2, $350.*

2393 **1756-Cnb. Gold 10 Roubles.** Fr. 87, CR. 28, Severin 217. **Choice Abt. XF. (Photo)** **($2,500-Up)**
Elizabeth, 1741-62. Bust/cruciform arms, date in angles. Obverse 2% off-center, but a lovely coin. Ex-Schulman, 9/20/73, lot 327 ($2400). From our London sale ($2800).

2394 **1756. 2 Roubles. Gold.** Fr. 81 **($350),** Cr. 23. **VF+. (Photo)** **($200-Up)**

2397 **1828. 5 Roubles. Gold.** Cr. 174, Fr. 117. **Fine.** **($175-Up)**
Imperial eagle, wings spread very wide/inscr. in wreath. Krause $200, which is possibly too low.

2398 **1831. 3 Roubles.** Platinum. Fr. 123 ($625). Cr. 177. **F-VF.** **($250-Up)**

2399 **1833. 6 Roubles. Platinum.** Fr. 122 **($3000).** Cr. 178. **XF/VF. (Photo)** **($1,500-Up)**
Similar to the 12 Roubles. A bit weak on the orb. Other years have mintages up to 8610. Krause prices all years at $3000 VF, $4000 XF. In our view, the scarcer dates should command some premium in these grades.

PLATINUM COIN
ONE OF 115 STRUCK

2400 **1842. 12 Roubles.** Platinum. Fr. 121 ($6,000), Cr. 179. **XF.** Krause $7,500. **(Photo)** **($5,000-Up)**
Imperial eagle. value & date in circle. Taken as an original, this is an extremely rare coin. Krause's price is the same for all dates, even though some have mintages 12 times as high. The few Unc. and Proof restrikes of this type have unreasonably depressed the value of rare-date originals.

2401 **1883. Rouble.** Dav. 291, Y. 43. **AU,** nicely toned. **($115-Up)**
Plain head of Alexander III/Crown, sceptre within wreath. Struck for the Czar's coronation.

Bust of Kruger/arms. Generally attractive light toning (few light obverse streaks) over fully lustrous surfaces. Obverse heavily bagmarked, particularly in the right field. Krause $700 Unc. *If that price is accurate, this is worth at least $600.*

2438 **1895. 2½ Shillings.** ZAR. Y. 6. **Unc.** **($125-Up)**

Kruger bust/arms. Krause $300, *although unlikely to bring it in the U.S. Full lustre, but dipped, just a bit too whitish in color (will retone naturally).*

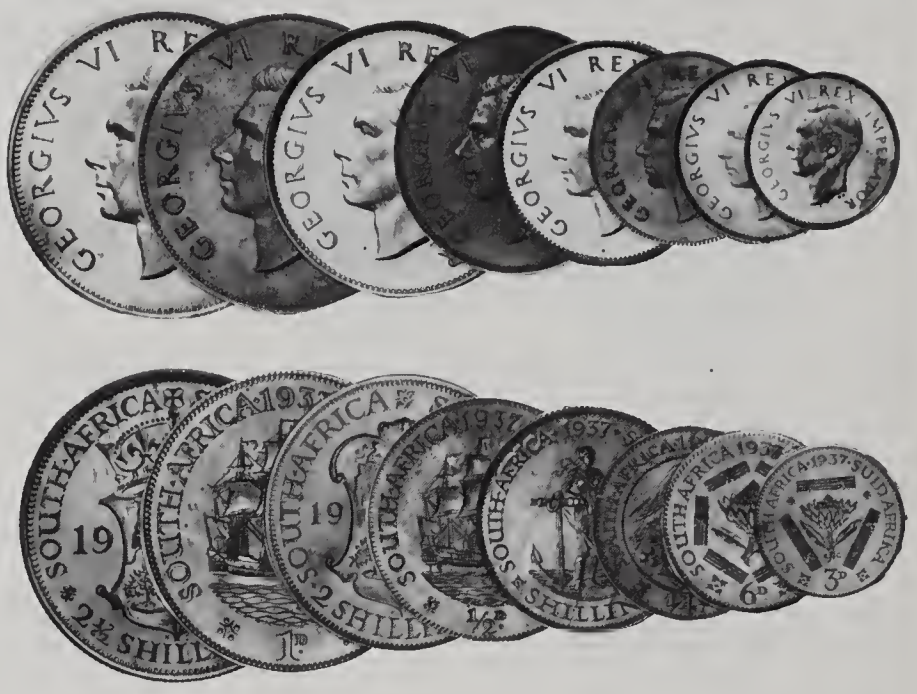
COMPLETE PROOF SET - 116 MINTAGE



2446 **1937. Proof Set.** Farthing thru 2½ Shillings. **Proof mintage of only 116 pieces each. (Photo)** **($1,000-Up)**

George VI, first year of coinage. Some of the coins are rather nice, although the bronzes are toned brown and are matte-like. Silvers are uniform in appearance. Krause's prices total $1,625. Many sets are now broken.

The South African market is "selectively weak" in the U.S. Our estimate is low, as we realize this lot could be a very good buy.

2447 **1937. 1, 2, 2½ Shillings.** Y.36-38. **Proof.** **($400-Up)**

From one of those broken sets we were just talking about. The 2s and 2½s are mishandleld, polished, and hairlined. Krause $250, $300, $575, although latter two must sell at a discount (though not so severe as our estimate may suggest). Mintage 116 each.

2448 **1944. 6 Pence. 1947. ½ Pence.** Both scarce & **Unc.** (First = "RR" in Kaplan!). **(——)**

ORANGE FREE STATE
VERY RARE 1867 SHILLING

2461 **1867. Shilling.** Token issue by the firm Daniel & Hyman in Bloemfontein. **Very rare. VF+. ($500-Up)**
Arms dividing date; town and country names above and below/value and company name, 23½mm., 4.35 grams. Edge reeded, a little crudely. Apparently German silver (nickel-brass).
Orange Free State was then an independent, sovereign nation. It's currency consists of bank notes, paper or card chits, and these tokens of Daniel and Hyman. Speculative patterns were produced in Europe. Daniel and Hyman (out of business by 1879; we are informed by a leading Br. Commonwealth collector they were Jewish) ordered 100 Pounds of the tokens from England, in denominations of 6d, 1/, 2/ and 2/6. The 2/ is easily the commonest. Maynard lists seven of the 2/ but the 1/ was not in the collection! (Only two complete sets of these tokens exist at present). Wayte Raymond lists the shilling (unpriced), probably following Fonrobert who had a 2/ and 1/. Surviving tokens suggest mintages of something like 100, 150, 800 and 80 pieces of the 6d, 1/, 2/ and 2/6, respectively. They were quickly withdrawn. Others have probably corroded, due to poor metal, and the three rare values are known only from a handfull of survivors.
The complete set in the London sale brought $3,100. As the 2/ was only worth about $200, the other denominations work out to $750-up apiece. The shilling in the London set was only Fine.
As a further price comparison, an 1864 cardboard small-change merchant chit was offered by Criswell at the Met. N.Y. show last April for $1,000.

2462 **1867. Two Shillings,** type as last. **XF.** **($200-Up)**

Name around value. Uniface. Brass. 45, 38, 32mm., the first being one of the largest tokens in the South Africa series. Only used to 1916-17, and for paying a class of workers not prone to coin collecting, it is easily understood why these are so rare. May fit in some person's slavery tokens collection. Actualy F-VF, but some purple tarnish. A set brought $140 in our London sale.

ORIGINAL CASED 1932 SET

2483 **1932. Proof Set!** Silver 3, 6d; 1, 2 Shillings; ½ Crown. Y. 3-7. All very nice proofs, attractive light toning. (——)

The case is red cardboard, cardboard and soft cloth interiors, printed "SOUTHERN RHODESIA" in black on cover. Case intact, penmark and sticker mark. Only 496 proofs of each value were made. As we have had a number of loose pieces in past sales, plus a complete set (WR4, $575), but never a cased set, we assume such are rare. Indeed, the case is no big deal, and contemporary collectors probably thought little of discarding. Krause prices now total $695.

THE FABULOUS 50-REAL "CINQUENTINA"
ONE OF THE FINEST!

(Photo Reduced — See Cover)

2485 **1618** (over 1617). **50 Reales, silver.** Segovia mint assayer A (surmounted by cross, for Andres Pedrera). Davenport 566, Calbeto 1811, Vicenti 691 (750,000 Pesetas), Castan-Cayon 6792 (660,000). Very rare and unusually fine. **Uncirculated,** small edge nick. **(Photo)** **($10,000-Up)**

Philip III, 1598-1621. Crowned Spanish shield dividing mintmark and assayer initial, and "50"/castles and lions in cross angles, all in quadrilobe. 73mm, 169.60 grams.

The cenquentinas were struck for presentation purposes, probably in some official or semi-official capacity. As they did not circulate in the usual ways, they normally are little worn, generally VF-XF, but they are normally accompanied by edge nicks. This example has led a charmed existence, having acquired but a single edge nick. Still more spectacular is the grading, as it has no wear, which is further remarkable on a Philip III piece (the later, Philip IIII pieces are commoner and often a little nicer). The toning is a natural, even, attractive silvery-grey. Lastly, the planchet stress which plagues these oversize, roller-die coins is all but absent on this piece.

The dies are the same as all illustrated 1617 and 1618 pieces.

We located four "recent" auction records (U.S. dealers) = 1)Sehulman, 9/73 #1266, 1626-Sg/A, $6500 (then a world record); 2) Coin Galleries, 7/29/75 #1127, 1618/7-Sg/A, est. $8000; 3) 1975 ANA #2075, 1635-Sg/R, $8750; 4) 1975 ANA #2076, 1651/Sg/B/R, $6000. None of these coins approach this lot in quality, averaging only VF with flaws and nicks. We found no auction records in the last four years. *Given the price history of the cinquentina, the outstanding condition of this example, the greater rarity of Philip III pieces (compared to Philip IIII), the expansion of the Spanish coin market since 1975, and the long wait for an available piece, we feel our estimate is very reasonable and likely to be exceeded.*

Victoria, bust/"ONE CENT INDIA STRAITS 1862" in five lines in wreath. Perfectly struck with excellent surfaces. Bronzed *after striking, may have been a proof. Apparently the Wayte Raymond I specimen (brought $170 in 1977).*

2515 **1877. 5 Cents.** Y. 13. **Very rare date. Choice XF.** **($300-Up)**
Krause $225. However, a tiny dent on the rim near "A" on reverse. This date in tremendous demand. Krause prices are still below our Wayte Raymond sales realizations.

COMPANION UNLISTED PROOF

2521 **1890-H. 10 Cents.** Y. 14. **Unlisted Proof, virtually perfect. (Photo)** **($300-Up)**
Similar to last, but smaller. Actually nicer (!), having a full wire edge (each side) and gorgeous toning.

ANOTHER 1890-H PROOF

2522 **1890-H. 5 Cents.** Y. 13. **Unlisted Proof, nearly perfect. (Photo)** **($300-Up)**
As the two lots above. Lovely toning. Perfect detail and sharp edges. The denticles are not perfectly struck up, however, as on the last two.
These three 1890-H Proofs have obviously remained together since striking. Hopefully a collector or dealer of distinguished taste will keep this little numismatic family intact.

SUDAN

2525 **AH1311. 5 Piastres.** Y. 17. **Rare. Abt. XF. ($75-Up)**

Toughra inscr. Low silver. Crude edges. Ex D. F. Howorth, prominent turn-of-century collector. This coin was plate IV #5, in S. Smith's 1902 Numismatic Chronicle article.

Apparently rarer than Krause indicates. Most of the minting effort at this time went to making (an even counterfeiting) 20 Piastre coins. This example has sharp centers, may be better than the Krause photo coin. Our estimate may be low, depending on which collectors are looking for a Y. 17, and for how long.

2526 **(late 1800's).** Pair of **emergency crowns. Both choice. ($65-Up)**

1) AH1312 *(yr. 12).* 20 Piastres. *Low silver. Y. 19.* AU, *possibly as struck. 2) AH1315 (yr. 8). 20 Piastres. Copper. Y. 32. Crude* Unc. Both ex-D. F. Howorth.

Marksman on camel, SUDAN RIFLE ASSOCIATION/crossed rifles over "MARKSMAN" (on ribbon). 29mm, ribbon green & white, medal & bars (one engraved "1935"), are 9 carat. Total weight almost 20 grams.

Christina, 1632-54 (abdicated). Bust ¾ facing/Standing Christ. A very attractive early crown, in equally nice condition. We would be surprised if it did not realize over $1,000. A VF+ of this type, but later date (1652), "possibly mounted," brought $650 in our 1977 Wayte Raymond sale.

VERY RARE GARPENBERG PLATE MONEY

2538 **1711. Huge copper "plate money". 2 Dalers,** with star mint-mark for **Garpenberg.** Eklund-Appelgren #35 **("RR"). VF? (Photo, reduced) ($1,750-Up)**

Weighs exactly 6 pounds. About 9½ inches square. Each corner has a 42mm stamp (crown over date; CAROLUS.XII.D.G.SVE.GOT.WAN.REX. (5-petal rosette)). In center, a 44mm stamp, 2/DALER/Solffmyt/(star). The star is for Garpenberg; the usually-seen Charles XII 2 Daler has the crossed-arrows mark of Avesta. The "branch mint" plate-money coins are all very rare.

Sweden began manufacturing these in the mid-17th Century and continued to do so for over 100 years. The intent was to gain greater seignorage from copper coinage (Sweden being copper-rich) by increasing the amount of copper money that could circulate—hence the high-value coins. In fact, the pieces circulated much as do U.S. silver coins. Just as $1000 face bags are traded, so were plate money, as people speculated on copper prices. Consequently, many pieces were exported (destroyed).

Plate money remains among the greatest curiosities in numismatics. The upper values are the largest metal coins ever made. It is generally considered the only European "Odd & Curious" money. Currently, much research on this field is being conducted in Sweden. This is probably one of very few rare varieties not already in Sweden.

Inscr. around symbolic wheel/inscr. in square, more inscr. around. Weaker around border. Crude edge reeding. 17.90 grams. Quite rare; if we recall, a piece, VF, brought $137.50 in a Scott Semans mail bid, about six years ago - same price as the½-Srang, unpriced in Krause.

RARE PALLADIUM SET

2591 **(1968). 1967 ¼, ½ 1 Hau, with 1968 counterstamp.** Original case. 400 sets made. **Unc. (Photo)** **(——)**

All with bust of Tupou IV/arms. 15½, 34, 48mm. Issue, as the world's first PALLADIUM coinage, for Tupou's coronation. Subsequently, 400 pieces (513 of the ½ Hau) were counterstamped for his 50th birthday. Krause prices the regular 1967 coins at $660, but the 1968 re-issues is unpriced. Total weight 113.41 gms (Palladium sells around $150/oz).

TORTOLA

2592 **(1801). Half Dollar.** "TORTOLA" in indent, counterstamped on **(17)96-Mo/FM 8 Reales,** cut in half. **Rare.** Fine example. **(Photo)** **($200-Up)**

Cr. 8, Byrne 1163, Pridmore 1 (var). One known variety of P1, P2, is classed as "very rare" by Pridmore. Quite nice for type, far better than Byrne's coin, or Pridmore illustration, and bearing the original date and minmark.

These circulated until 1892, thus becoming very worn.

This example is also full weight, *and unusual as such (12.94 grams full weight when wear is considered). Ex-Spink, possibly from the original satchel on which Pridmore's recent article was based. This is counterstamp type "1b".*

2593 **(ca. 1805-24). ¼ Dollar.** Cr. 19, Prid. 9. "TIRTILA" cstpd on 180x-(Mo)/FM 8 Reales quarter-segment. 5.75 gm. Stamp **VF** (Krause $75). **($45-Up)**

TRINIDAD

2594 **(1860-70's). 1 Stampee.** Copper coins **counterstamped as merchant's tokens.** Cf. Pridmore, (#7), Byrne and earlier writers. **3 different.** **($75-Up)**

All stamped "FD" for Francois Declos, a barber. 1) On Nova Scotia 1856 ½ Penny. 2) On Nova Scotia Cent, 1861. 3) On Venezuela Centavo. First average condition, others lightly pitted.

2595 **1897. Centenary of conquest by England.** 48mm **silver** medal. Byrne 1198 (bronze only, $35 in 1975). **Proof. (Photo)** **(——)**

Bust of Sir Ralph Abernathy/view of harbor and fort. Slight friction on nose tip and brows, else FDC, delicate irisdescent tone. West Indies material like this has runaway potential. It just depends on whether the big collectors have it (Ray Byrne did not).

TURKEY

2601 **AH1187** (AD1773). **Double Zolota.** Year 8. 40mm, silver. Cr. 91 ($50 VF), Mitchener 1288. **XF. ($75-Up)**
Inscriptions both sides. Craig cites years 1-3; "query years 6-12 listed by Davenport". Mitchener's plate coin is year 12. This is much better than Mitchener's coin, despite some weaknesses.

2602 **AH1203+16** (AD1804). **Piastre.** Cr. 90. **Fine,** weak reverse. (——)

2603 **AH1223+4** (AD1812). **Piastre.** 32mm., 8.80gms. Cr. 176a. **Unc.! ($65-Up)**

Abdul Aziz, 1861-76. Heavier than a U.S. $20, with a higher fineness. Underrated.

2609 **AH1277+11 (=AD1871). 500 Piastres.** Gold. Fr. 23 ($500), Y. B17. **VF. ($275-Up)**

2611 **AH1293, Year 1** (=AD 1876). **Gold 25 Piastres.** Fr. 33, Y. A22. **VF-XF. (Photo) ($175-Up)**
Murad V, 1876. Standard type. All coins of this ephemeral reign are scarce. Krause $165 VF, $200 XF, but probably worth more.

2612 **AH1293+2 (+AD1877). 500 Piastres. Gold.** Fr. 34 ($450), Y. F31. **Fine. ($250-Up)**
Toughra/inscr. in wreath. 1.06+ oz. troy, pure gold. Edge nick; mount trace.

"CITY VISIT" GOLD COINS

2614 **AH1327. Year 3** (=1911). **Gold 100 Piastres for Sultan's visit to Kosova.** Y. C51c. **Rare. XF or better. (Photo) ($300-Up)**
Similar to regular issues but "Kosova" substituted for "Istanbul" (although actually struck in Istanbul). Small edge nick, 11:30 reverse.
City visit coins are all very scarce. At present, the gold issues sell for little more than the silvers—a situation which should change in time. Krause $325 XF.

2615 **AH 1327. Year 1.** (1909). **Gold 25 Piastres for Sultan's visit to Bursa.** Y. B51a. **Rare. Choice AU/Unc. (Photo)** (——)
Regular type, name of Bursa replaces Istanbul. Krause $215 XF, 300 Unc. It is interesting that no gold city visit coins are illustrated in Krause (nearly all the silver types are). We suspect the gold issues are much rarer than catalog prices indicates.

2616 **AH1327 Year 3. 2, 10 Piastres.** Y. 48, 50. Second is a **very rare date; Unc., VF+. 2 Pcs. ($190-Up)**

UNITED STATES

2623 **N.d. (ca. 1766?) Wm. Pitt medal.** 40mm, copper. Betts515. **VF-XF. ($150-Up)**
Obverse. Large Bust left, very well modeled. Reverse: "The Man Who, Having Saved the Parent, Pleaded with success for he Children". Pitt, the "Great Commoner", was immensely popular in America at this period because of his opposition to the Stamp Act and other unreasonable levies upon the Unionists.

2624 **1770. On the Death of the Rev. George Whitefield, Revivalist.** 32mm. Bronze. Betts #526. **AU.** Rare. **($125-Up)**
Reverse shows woman standing with Cross and banner next to urn on tomb; legend reads: "An Israelite Indeed, a Good Soldier of Jesus Christ."
Also: *A leaden* Mortuary *medal, 37mm, bust/inscr., Betts 526 footnote. Fine for piece.* Uncommon (was unknown to Betts).

Crossed quills over open book, "THE GIFT OF" and "FRANKLIN" above; award inscr. (engraved to John Ridgway. Somewhat dark tone. Holed, as issued. The fund for the medal was a bequest from the most famous Boston schoolboy, Ben Franklin. This type was the first struck design. A type F3, awarded (and dated) in 1803, VF, brought $175 in our Wayte Raymond 2 sale (this is dated to 1815-28 by die state). See the excellent article and catalog of these pieces by John Sallay, Numismatist, 4/78.

2627 **1884-1960. Tokens & medals.** 11 different, interesting. **($75-Up)**

2628 **1889. Bronze medal on the beginnings of the American and French Republics.** 44mm, by Gorham. **VF-XF. ($40-Up)**

Winged Liberty with shields bearing Washington *and Mirabeau portraits/ linked shields, bilingual shields, etc. 5mm thick. Interesting French-language medal, for the Paris Exhibition* (World's Fair), *not Washington's inauguration.*

2629 **1892. Columbus medal.** 60mm, white metal oxidized. Eglit 107. **Choice Unc.,** in superb case. **($95-Up)**

By Johnson, Milan, for the Chicago Fair. Portrait ringed by Indian goddess, globe, eagle, etc./angel and cherubin in midair, over recumbent indians. Possibly the finest Columbian Exposition medal. The special finish appears as silver, with delicate golden-rose toning.

2630 **1909. Hudson-Fulton medal.** 38mm, silver, by Beach. Busts/ goddess. With ribbon and bar for "GUEST". **VF. ($50-Up)**

2631 **1919.** (RN). **Edward VIII, Prince of Wales. Visit to U.S.** 63mm, silver. American Numismatic Society medal. **(——)**

By "JF". Bust/inscr. and draped female, between oak branches. Like all ANS silver medals (except Hudson-Fulton), quite scarce. Edge numbered "68".

Issued by Whitehead-Hoag's New Jersey neighbor, Wright Aeronautical Corporation (Byrd's craft had Wright manufactured engines). Obv: Globe, showing flight path and other symbolism (aurora borealis?). Rev: Dog-sled teams at the Pole, airplane above. A superb medal.

Added to the lot: a 1969 Nixon Inaugural (70mm, official).

URUGUAY

VENEZUELA

2634 **1911. ½ Bolivar.** Y. 21. **VF+,** dull. **($75-Up)**

2635 **1958. Gold medals, set of 18 different.** 97.2 grams, pure gold. **Unc. ($1,000-Up)**

*Medallets of the Banco Italo-Venezolano. 6 grams, .900 fine, 20.5mm. Commemorating the "*Chiefs in the Second War 1939-45*". Signed R.B., each has the same reverse (eagle), with a quite respectable portrait on obverse. Depicted are:* Roosevelt, Truman, Eisenhower, Mac Arthur, *Montgomery,* DeGaulle, Petain, *Mackenzie King, Chiang Kai-shek,* Stalin, *Mannerheim, Tito,* Hitler, Rommel, *Victor Emanuele III,* Mussolini, *Tojo.*

These were produced for bullion trading, i.e. a legitimate commercial purpose, and thus have a very different character from the American-produced commemorative tripe currently finding its way into melting pots. Some of the personages are not well-represented in medallic art, and this complete set is apparently scarce. The set is encased in a custom capitol holder, intelligently inscribed.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

WEST INDIES

2636 **1774-R. Gold 6400 Reis.** Fr. 65 (Brazil). **Plugged and counter-stamped. "F&G".** Byrne 1211, Pridmore III p. 280 #9. **Unique? (Photo) ($750-Up)**

The original coin appears to be a cast contemporary counterfeit. 14.20 grams. The practice of plugging counterfeit, clipped or otherwise underweight gold coins was fairly widespread in the West Indies (also in Peru, but this Brazilian coin type is safely assumed to have circulated in an Atlantic region). All are very rare, private pieces like this more so than official types. In the Byrne sale this piece brought $500. Since then, two counterstamped Portuguese Joes sold at considerably higher levels (Peters auction, 3/79), and even a plugged and stamped 8 Reales (private) brought $190 in our Wayte Raymond I sale. (At the time this piece brought $500, similar Byrne pieces brought $310-380).

The West Indies series enjoys the support of some of the more dedicated American collectors. Even without competitive bidding from the many English collectors, this lot could approach the $1000 mark. It furnishes a good example of an under current in numismatic appreciation: i.e., that the most important pieces are the "sidelights", not the commonplace rarities of official currency status.

WINDWARD ISLANDS

2637 **1731-H. 6 Sols** Cr. 1. **AU,** very sharp. **(Photo) ($135-Up)**

2640 **AH1304** (AD1886-7). **Pysa.** Bronze. Y. 2. **Proof. Rare.** (WR1 = $275). **(Photo) ($250-Up)**

Scales/native script. Trivial spotting, not reducing the beauty of this nice proof. Obverse rather bright red, reverse even purple-red. **Krause $250,** but this coin may bring a premium price, as it is really lovely. Zanzibar was an independent country at this time.

COMPLETE 1908 TYPE SET

The 1908 Zanzibar coins are not only among the rarest coins of the British Commonwealth, but at the top of the rarity scale for all 20th Century coins. Perennially popular, many veteran "collectors by Yeoman number" include these in their last dozen-or-so needed types.

2641 **1908. Cent.** Y. 8. **Nice Red Unc. (Photo) ($350-Up)**

Krause $400. Brought $350 in our 6/7 McNally sale.

ALGERIA

2655 **AH1237. 1½ Budju.** Pattern. Copper, 32.5mm. Craig p. 19. Red and brown **AU.** (——)

Type of the AH1237 (AD 1822) 2 Budju. Plain edge. Likely a European product, exceptionally well struck. Craig states that the 1½ Budju is a pattern. It may, however, take additional research to separate this from the many unofficial coin-tokens of the era.

ADDED TO THE LOT IS A 20MM GERMAN-SILVER TOKENDATED(AD)1857

ARGENTINA

Ferdinand I, 1835-48. Laureate head right, FERDINANDUS I. D. G. AVISTRIAE IMPERATOR. The coin is priced at $1650 in Krause. Slight mishandling, including a small dent at 3:00 in the field.

2659 **1914.** Pattern **Krone,** by **Karl Goetz.** Kienast 79. **Gilt Proof.** **($60-Up)**

Bust FJI/nude male fighting serpent.

BELGIAN CONGO

2660 **1887. 5 Francs.** Regular dies (Y.8) in **bronze.** Coin axis, plain edge. Dupriez 9 **(R2). Proof. (Photo)** **($750-Up)**

Leopold II, 1865-1909. Head/lions supporting crowned arms. The regular issue now lists $600 in Krause. This is much rarer, of course, as Dupriez indicates. By way of comparison, Ciani 661 (bronze) was priced 70 Francs; the regular coin only 40 Francs—about double face, then. Toned brown, but considerable golden mint color; couple trifling spots.

BELGIUM

2661 **1847. Pattern 5 Francs by J. Leclerc. Gilt bronze.** Dupriez 297. **Proof. (Photo)** **($375-Up)**

Head/arms. Lettered edge. Two small obverse spots. Seaby/New Netherlands sale, 11/73, "mint," $200 (est. $190-250). Usual die crack. Rather a pretty piece.

RARE PIEFORT ESSAI

2662 **1865. Pattern 5 Francs** by **Jouvenel.** Uniface. Copper **piefort** of the obverse die. Dupriez 948 **(R2).** Bronzed. **Almost perfect.** **($200-Up)**

Bust of Leopold II (1865-1909). Wiener's bust was adopted. Die crack from top toward ear, some die rust—evidently a rare restriking.

INCREDIBLE 1869 MASONIC/MORTUARIAL PROOF SET

2663 **1869. Proof set,** consisting of the **silver 5 Francs;** the same in **bronze** and **aluminum** and **three silver medals;** all in a **custom-fitted case, as issued.** Choice condition, all brilliant. **($2,000-Up)**

The three 5 Francs are Dupriez 1102-04 (all R2); Ciani 598-00. The silver strike is quite rare as a proof. Weights: 24.93, 19.73, 7.46 grams. The aluminum piece is noticeably thicker; the bronze piece is golden in color (like brass), although listed as "cuivre" by Dupriez and Ciani. All have the normal lettered edge.

The medals are 30mm, 1865, Masonic ("GR. OR. DE BELGIQUE"), on Leopold I's death; N.d., looped, 23½mm, Leopold Ferdinand, Duke of Brabant (next in line to Leopold II), born 1859; and the third, 25mm, masonic ("OR. DE LIEGE"), on the death of the (10-year-old) Duke of Brabant. The case, wood, black leatherette, blue interiors, has been made to fit the three coins and these selected medals. Although the case is uninscribed, it is apparent enough that the young Duke's death was the stimulus for its assemblage. To whom it may have been presented is a mystery. It is conceivably a unique set.

2664 **(1872). Uniface Essai 2 Centimes in silver.** Dupriez 1164 **(R1). Choice BU.** **($100-Up)**

Attributed to Charles Peligot, Paris chemist, Paris mint assayeur. ESSAI MONETAIRE in plain field. Other side blank, raised rim. Plain edge. This is a reverse trial, the obverse design featuring a seated lion. 22mm, 3.75 gms.

2665 **1880. 5 Francs. 50 Years of Kingdom.** Bronze. **Proof. (Photo)** **($250-Up)**

BOLIVIA

RARE 1868 PATTERN

2666 **1868-CT. Boliviano. Bronze.** Fonrobert 9718, Guttag 411b, Krause 4. Multicolored **Proof. (Photo)** **($400-Up)**

The above references are all for silver strikings; we have not found a listing for a bronze strike. *Arms/value in wreath. LA UNION ES LA FUERZA; around bottom. Potosi monogram, date and "C. T." Plain edge, 36½mm, 23.36gms. Fonrobert, whose collection was sold only 10 years after the pattern's date, identifies the origin as Potosi, and C. T. as Clemente Toretti. We don't believe a piece of this technical state could have been made in Bolivia (new steam presses arrived in 1869). Also, the number of varieties listed by Guttag argues against a Latin American mint.*

An 1868-CT ("La Paz") bronze 20 Centavos, Proof pattern, similar (but smaller) brought $325 in our London sale.

2667 **1883. 2 Centavos.** Marked "EG" and "ESSAI," no "A" mintmark, else like regular issue. Krause E68, p. 166. **Unc.,** mostly brilliant. **($45-Up)**

BRAZIL

2668 **1835. Rio Grande do Sol. Peso.** Fonr. 8872, Guttag 915F. Bronze **Proof.** **($150-Up)**

According to Fonrobert, struck in Europe to the order of Alvares Machado, President of the ephemeral republic, 1837-44. Ex-WR3 ($170). Much rarer and more important than price records indicate. A coin whose time has not yet come.

BRITISH WEST AFRICA

2669 **1936-KN. Shilling.** George V. **"SPECIMEN"** on reverse. **Rare. Abt. VF.** **($200-Up)**

As regular issue (Y.16a) but thinner edge reeding and, of course, "SPECIMEN" added to reverse die. Remick, p. 89, however this piece appears to be bronze, not brass.

A similar piece, 1936-H. Proof with spotting (brass), brought $400 in WR3; *another was offered (Format 6 #1215, "nasty stain on obverse") for £300! The circulation this piece has received should not greatly depress its price from the FDC level.*

2670 **1936-H. Shilling.** George V. Y.16a. **Unlisted pattern. Proof. (Photo)** **($300-Up)**

As regular issue, but "SPECIMEN," in raised letters, above date. Security edge. Not a high standard of proof striking, but fully brilliant. Faint spotting; dark tarnish spot on edge.

This is the piece referred to in the last lot's footnote, as having brought $400 (yet see FORMAT price of $600 + !). It has been reconsigned, to our delight.

UNUSUAL AND UNREPORTED PATTERN

2671 **N.D. 2 Shilling. Mule of two George VI obverse dies, Bronze, edge reeded. VF-XF. (Photo) (One side only)** **($250-Up)**

Normal dies, each with a thin, crescent-shaped flaw in lower left field. Medallic die axis. 11.12 grams. A very strange piece, obviously of the highest rarity.

2672 **1952. Shilling. Pattern** struck in **steel. Not in Remick. Choice Unc.** **($125-Up)**

As Y. 33, but "TRIAL" raised on obverse (vertically before face) and reverse (horizontally above "52" of date). Cf. Peter Ireland, Format #6, #1218 £70.

2673 **1952. Shilling TRIAL,** in **steel,** as last. **Nice AU.** **($100-Up)**

CAMBODIA

VERY RARE "PIASTRE"

2674 **1860. Piastre.** Davenport 148, Y.9, VG 3563. **Original striking** in **silver. Very Rare. Nice Proof. (Photo)** **($2,000-Up)**

Norodom I, bust, "FACONNET" below truncation/arms, mantled, on crossed swords, pagoda and rays above, all surrounded by French and Siamese legend. Reeded edge, 25.88 gms.

To our knowledge, all pieces of Cambodia signed FACONNET are patterns made in 1860. About 1875, C. Wurden, the Belgian medalist, struck a circulating coinage after Faconnet's types, omitting the Piastre denomination. The complications involving unsigned variants, Wurden's own essais, and later (ca. 1900) restriking have assisted in making this series one of the worst researched in the modern period. It is also one of the more attractive and popular.

The present example has frosted devices and lettering, and sharpness of strike, and although its fields are not fully reflective, we believe it is a proof—in fact, we think all unimpaired Piastres are Proof patterns. As such, it is a fine example.

UNPUBLISHED (?) CROWN-SIZE PATTERN

2675 **1860. Piastre.** As last, but **struck in bronze. Not in VG,** etc. **Choice, fully red Proof. (Photo)** **($1,000-Up)**

Probably rather rarer than the last, which is listed in gold (VG, Gadoury-Cousinie). 24.03 gms. We are not sure this piece has been published in bronze.

CANADA

EXTREMELY RARE 1/50 DOLLAR

2676 **1823. 1/50 Dollar.** Copper. Breton 861. Pridmore III p. 272 #15. "About 20 known." **Abt. VF. (Photo)** **(——)**

George IV bust/value in wreath. "COLONIAL" above, date below. Plain edge. Although mainly collected as part of the Canadian series, this was in fact an outgrowth of a request for copper coins for Sierra Leone. Five tons of these were struck, for use in a number of colonies, but they were melted. Pridmore states this occurs only as a pattern; Charlton and Breton use the term "proof." The present example lacks any striking or surface characteristics to support a belief that it was once a proof. Though strictly VF in terms of wear, it has numerous tiny surface nicks, as occur when heavy coins are bagged or circulated. There are a few tiny rim bumps. Weight is 18.51 gms. To all appearances, this is one of the five tons of production, which escaped melting and actually circulated, *possibly in England (whence it comes to us).*

Breton, and later Charlton, state that about 20 are known. While we would have thought that number would have increased since Breton's time, the Pridmore price supplement terms the piece Extremely Rare.

CENTRAL AMERICAN REPUBLIC

2677 **1889. 1, 2 Centavos.** Guttag 977 A & B. Red to Brill. **Unc.** **($90-Up)**

2678 **1889. 1, 2 Centavos.** Guttag 977 A & B. **Reddish Unc.; XF.** **($75-Up)**

CHILE

2679 **1894. Pattern Peso. Silver. Proof. (Photo)** **(——)**

Similar to the 1895-97 type by Roty, but predates series. Paris mint? Light spotty orange-gold toning over shimmering blue-gray toning. 20.01 grams. We assume this to be very rare (not in Guttag) and suppose bidding will reach the middle hundreds to low thousands.

(See also the 1868 Medio Decimo in the regular coin listing).

CHINA

2680 **1922. "Pattern Dollar,"** Waterbury mint (USA). Better than XF. **($125-Up)**

39mm, 22.50gm, plain edge bronze piece, apparently a manufacturer's sample to demonstrate the capabilities of its coining press (which it hoped to supply to China). Obv: CHINESE GOVERNMENT MINT; at bottom, date; in center: SHANGHAI/CHINA. Reverse: BUILDERS (curved)/ WATERBURY/FARREL FOUNDRY &/MACH. CO./U.S.A./(space)/ AMERICAN/TRADING CO./AGENTS (curved). Plain raised borders. Our estimate may be low-this piece should be worth $100-Up just as a U.S. storecard.

Kwang-Si

2681 **(1921).** Year 10. **20 Cents. Essay in bronze.** Kann 746-Ix ("only one seen"-1954). As Y.415a except for metal. **Brilliant Unc. (Photo)** **($300-Up)**

Chinese/English around large "20." Reeded edge. This date known only as a bronze essay. Kann priced it at $500 in 1954; 1966 edition pegged it at $1250. Apparently, a few of the companion 10 Cents have turned up (we had two in Wayte Raymond); this is our first experience with the 20 Cents.

2682 **(1921). Essay 20 Cents, Kwang Si.** As last. **AU-Unc.,** some red. **($200-Up)**

Szechuan

2683 **N.D. (1898?). 5 Cents** (silver). Y.234, Kann 149. **Struck in pewter. Mint state.** **($100-Up)**

Regular dies: Chinese/dragon & English. Edge reeded. 1.22 gms. Edge irregular to right of dragon but brilliant; essentially proof quality. Not in Kann in this metal *(brass essays are cited, 149y).*

Yun-nan Province

2684 **N.D. (ca. 1907?) Pattern Rupee,** after the Tibetan type. Kann 599 **($100 in 1966). XF.** **($150-Up)**

In imitation of the Tibetan rupees, which themselves were transformations of the Victoria rupees of India. YUN-NAN-PROVINCE on obverse, SILVER/ COIN in reverse center. Reeded edge. 31mm, 11.73 gms, good silver. Kann classes this as an essay for a coin intended to substitute for true rupees in Yunnan-Burmese trade. This piece may have seen actual circulation.

COLOMBIA

2685 **1847.** Copper **Decimo,** 28mm. **Proof or pattern striking.** As. Y.152. **As struck.** **($100-Up)**

Exceptionally sharp strike, lettering squared-off against flat fields, lovely surfaces. Fourobert (#8112) lists this as a "munzprobe," but Guttag had only a worn regular issue. A couple light marks, reverse field; slight cabinet friction. Lovely red and brown tone, some blue overtones.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

VERY RARE 1873 PATTERN PESO

2686 **1873. Pattern Peso** by Antoine Bovy. **Silver, obverse and reverse uniface strikings.** Guttag 1323B. Both marked "ESSAI." **Lovely Proofs. (Photo) ($2,000-Up)**

Very beautifully designed and struck. Obverse with reeded edge, reverse plain edge. Weights: 21.40 (obv.) and 21.28 gms. Guttag indicates his pair have plain edges but they may have been careless—as usually.

Our estimate is purely guesswork. The only comparable Latin American Crown we have handled, a Guatemala 1895 Peso, brought $10,000.

VERY RARE GOLD 20 PESOS PATTERN

2687 **1873. Pattern 20 Pesos** (gold) by A. Bovy. Struck in **gilt,** etc. Krause p. 383. **Brilliant Proof. (Photo) ($1,000-Up)**

A beautiful design by one of the finest European engravers. Struck as a uniface pair, then glued or soldered together. Plain edges. No attempt to hide or disguise the joining. 34mm, 32.58 grams.

Not in Guttag. *A silver strike of a similar 20 Peso pattern, attributed to Wyon, was offered for $600 on an 8-year old Jess Peters FPL. Still, in today's market, our estimate could prove far too low.*

2688 **1881. 5 Centavos Pattern.** Coppernickel. **Not in Guttag. AU. (Photo) (——)**

Obverse as 1886 regular issue, only ESTADOS UNIDOS for REPUBLICA (the latter first used on coins in 1886). Reverse rather similar to the 1881 Waterbury, Connecticut 2½ Centavos; presumably this is a Waterbury pattern, and thus it seems even less likely to have eluded Guttag. Plain edge, 3.67 grams. Very Rare?

2689 **1881. Pattern 2½ Centavos. Struck in silver.** Guttag 1347. **Choice Proof. (Photo) ($250-Up)**

Similar to the regular issue of 1881 (Y.20), but vertical lines and no LIBERTAD on cap, other minor differences. Tiny imperfections as made; see Jess Peters list, Aug. 1971, where a nickel piece (Guttag 1348) was called RR and offered at $90. This silver piece may be extremely rare. 2.75gms.

TRIAL STRIKES IN LEAD

The following five lots are all uniface die trials of coin reverses. We are not aware that any are published. All should be *very rare, some possibly unique.* All have pencil markings on their blank sides, such as would be written by mint workers. These markings almost certainly were made at one period but could be a later owner's doing.

Three of the coins are certainly 1897. The Peso and 50 Centavos have a slightly different surface, but appear to have been made at or about the same time.

2690 **N.D. (1870's). (Gold) Peso.** Y.32.2. Fr. 109. **Trial strike** of reverse on thick, 22½mm **lead** blank. **BU. (Photo) (——)**

Eagle, standing, wings spread; "G. 1,612 UN PESO" from 8:00-1:00 and "BOGOTA LEI O, 900" from 8:00 to 1:00 (counterclockwise). Appears part of the 1897 group below-restruck??

2691 **1897. 20 Centavos. Reverse trial strike** of **unadopted design,** on 39-30mm lead blank. **BU. (Photo) (——)**

Similar to the 50 Centavos reverse. Y.17 & 28, 1872-99. The adopted design has differences in the eagle's wings and the drapery; also "G.5" reads outward toward rim.

2692 **1897. 10 Centavos.** Reverse trial strike of **unadopted design,** on 23mm lead blank **BU. (Photo) (——)**

Similar to the last.

2693 **1897? 50 Centavos.** Reverse (undated) trial strike on 40-42mm lead blank. **BU,** crude. **(Photo) (——)**

This reverse was used 1874-99, but it appears to be part of a set, with the two preceding lots. "BOGOTA" and "835" have been scored, but whether from the die or struck piece is difficult to tell.

2694 **1897. 20 Centavos.** Y.31. **Reverse trial strike** on 38mm lead blank. **BU,** minor tarnish spots. **(——)**

As the 20 Centavos above, but the approved design.

DENMARK

PROOF (!!!) SPECIEDALER FOR SCHLESWIG-HOLSTEIN

2695 **1799. PROOF Speciedaler** of 60 Schillings. For **Schleswig-Holstein.** Cr. 9, Dav. 1311. **Of the highest rarity,** both as a **date** and a proof. **(Photo) ($2,000-Up)**

Christian VII, 1766-1808. Bust, small "M" beneath/crowned oval arms dividing value "1-SP."; in legend, local equivalent value of "60 SCHILLING," also "SCHLESW. HOLST." Plain edge (tight collar). Considered part of both the German and Danish series.

Full proof characteristics. Perfect strike and flan; flat, reflective fields; letters "squared off;" denticles fully struck up, even to the coin's edge. It has been a little carelessly handled, showing faint wear and small abrasions (such as are caused by contact with loose coins). There are some very minor rim bumps, indicating that the coin was dropped, the largest being only a very small bruise by "A" of CHRISTIANUS. Cleaned, now retoned an attractive silver-blue-grey, and lacquered. Davenport (1971) lists two varieties of 1799: with "B." and "P.G." under bust. Krause now lists this variety with "M." All are priced "rare" in Krause.

This subtype, with large head, occurs on certain pieces dated 1788 and 1790. Its resurrection, nine years later, seems out-of-place, and as Davenport did not know of this coin, we suspect it may have been struck as a proof or pattern only. Krause's listing may be based on this specimen. We have uncovered no information to indicate this piece is less than unique.

DOMINICAN REPUBLIC

2696 **1878. 2 Centavos. Pattern.** Guttag 1690. **Proof,** red and blue toning, light spots. **($60-Up)**

EAST AFRICA

2697 **1899. Pice.** As Y.1, but **counterstamped small "B"** while in die. **Very Rare. Proof. ($150-Up)**

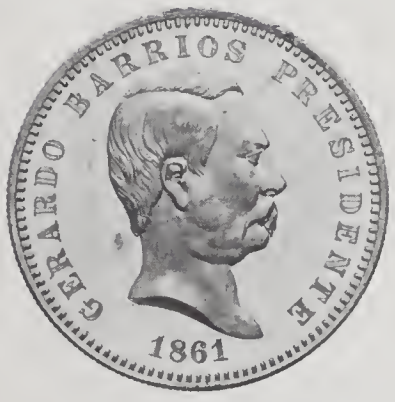
Victoria. Diademed bust/value in quadrilobe. Spotty red and brown toning. The counterstamp is behind the bust. To our knowledge, such a stamping is unpublished, *and as 1899 was not the first year of the type, it is unusual to find a "pattern" with this date. We did have an 1899 with a similar stamping, but an "A," in our Wayte Raymond 3 sale ($200)-itself an unpublished piece.*

EGYPT

2698 **AH1277, year 3.** (AD1863-4). **20 Para. Uniface lead striking** (splash) of unfinished reverse die (Y.3). **Unc. (Photo) ($125-Up)**

EL SALVADOR

1861 PATTERN PESO
-FIRST ALUMINUM COIN-



2699 **1861. Pattern Peso. Aluminum.** Guttag 4577A. **Obviously rare. Proof. (Photo) ($500-Up)**

GERARDO BARRIOS PRESIDENTE around nude bust, date below/arms in shield, palm and laurel wreath. Guttag also lists it in bronze (#4557). Fonrobert lacked an example in any metal of any 1861 pattern. *Edge reeded, 6.53 grams.*

No deterioration of the dies is present, to indicate a later striking. If actually struck in 1861, this would probably be the first coin struck in aluminum, *preceding the U.S. patterns (aluminum was isolated in 1828; refinable in 1854-at a cost approximating silver; cheaply refinable after 1886).*

Salvador struck crude silver coins of ½, 1, 2 and 4 Reales, from 1828-35 (?); thereafter a series of counterstamps substituted for a national coinage, until 1889. This crown-sized piece of Barrios (President 1858-65) is an important focus in the country's numismatic history.

This piece, which we strongly suspect to have been Guttag's, is fully brilliant, but much abraded, the obverse more so than reverse, as if stored loose with small coins. There are no bad marks, it simply looks like a bagmarked Morgan Dollar. Our estimate is just a guess. Commoner but more publicized Salvadorian rarities sell for much more. The 1861 25 Centavos of same design (brass) was offered by Jess Peters (8/71 FPL), "VF, minor defects," for $800. An 1888 Paraguayan Pattern/Peso, aluminum-a less important coin type-brought $460 in the Hamilton sale, 4/79.

2700 **1893. Peso.** Y.7. Regular dies in **bronze. Red Unc. ($250-Up)**

Christobal Colon, bust/arms, flags, wreath. Usual reeded edge. Not in Guttag in off-metal striking.

Technically, as an off-metal striking, this could be called a proof. An example of this type, dated 1896, brought $275 six years ago *(Seaby-New Netherlands, 11/73 #1063), so our estimate may be low.*

2701 **1894. Peso.** Y.7. Regular dies in **bronze.** Comments as last. **Brown Unc. ($250-Up)**

ETHIOPIA

2702 **EE 1899** (+ AD 1897). **Pattern Talari** (Bir) by Lagrange (signed). **Choice Prooflike Unc. (Photo) (——)**

Menelik II, AD 1889-1913. Bust/Lion. Regular die (Y.9) except no edge beading. Edge lettered (in Ethiopian). 40mm, 27.98 grams. Paris mint ("A" mintmark). We do not know the value of this piece, but do know that regular proofs sell for more than $500.

2703 **EE 1936** (AD 1944). **10 Cents.** Y.32. **Pattern** or trial in **brass. Unc. ($100-Up)**

Normally is bronze. Struck in Birmingham. Slightly spotty.

2704 **EE 1936** (AD 1944). **5 Cents.** Y.31. **Pattern** or trial strike in **brass. Unc.,** fingerprinted. **($100-Up)**

FRANCE

2705 **1791. Ecu.** Constitutional type. Competition **pattern** by **Gatteau.** VG196. **Lead (pewter?). Uniface trials of obverse and reverse. Rare. Unc. (Photo) (——)**

Louis XVI, draped bust/genius. Lovely design, exquisitely engraved. Struck as "splashes." Obverse fairly brilliant, reverse chemically antiqued, slight purple cast. Huge die break on obverse, apparently as always.

The listing in VG is for the very rare (5,000) piece struck in silver. The rarity of this trial pair is not known to us, although few would have been made, and few would survive (given lead's tendency to corrode).

270o **1792. Pattern 15 Sous.** Brass (VG = Metal de Cloche). VG347. **Nice Unc. ($75-Up)**

Genius/PIECE D'ESSAI 1792 in three lines within wreath. Plain edge. Unusually nice for a base metal pattern of this period (Ex Count Ferrari). Much earlier die state than VG's plate coin.

PATTERN 5 FRANC OF THE "100 DAYS"

2707 **1815-A. Pattern 5 Francs "100 Days."** VG2378 (5000, silver), struck in brass. **Rare. VF. (Photo)** **(——)**

Napoleon head, *signature* J. P. Droz *below/value, date in wreath, eagle and mintmark flanking date. Plain edge. The metal and edge vary from VG's listing, but he notes "il y a quelques variantes." The bust is rather poor, probably due to the hurry-up nature of mint business during Napoleon's brief return to power.*

A paper on the subject of this interesting medallist and diesinker Droz was read at the recent INC (Berne) by Richard Margolis.

PORTRAIT PATTERNS FOR THE CHARLES X 5 FRANCS

In 1824 Charles X became king. No regular 5-Franc coinage was made in 1824 with his bust (some were struck in 1825 with date 1824). 23 artists submitted 5-France module designs for Charles' portrait and had them struck, uniface, in white metal, by the mint (VG2580-2602, 200-300 Francs each!) These are much scarcer than the 1848 5 Franc competition patterns.

2708 **(1824). Pattern for 5 Franc obverse.** By **Ameling.** White metal. VG2580. **Unc.** **($100-Up)**

2709 **(1824). Pattern for 5 Franc obverse.** By **De Paulis.** White metal. VG2587. **Brilliant Proof.** **($100-Up)**

2710 **(1824). Pattern for 5 Franc obverse.** By **Dubour.** White Metal. **Brilliant Proof. (Photo)** **($125-Up)**

The only "bust right" piece in the series.

2711 **(1824). Pattern for 5 Franc obverse. By Montagny.** White metal. VG2598. **Brilliant Proof,** tiny spot. **($95-Up)**

2712 **1824. Essai 5 Francs.** By Moreau. Bronze. VG2608. **Rare. Choice AU.** **($200-Up)**

Charles X, 1824-30. 3 lis/presentation inscription of the Paris Mint coiner, Moreau, to the "General Administration." Raised lettered edge. VG 500 Francs (very scarce). Small edge knock.

2713 **1824. Pattern 2 Francs,** by Moreau. Similar to last. **Struck in silver, thus rare.** VG2610 **(600 Francs). Impaired Proof.** **($250-Up)**

Like the last, dated on the raised-letter edge, and without value expressed (as is the case with mint visit coins).

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

2714 **(1831). Uniface (obverse) trial of the very rare Galle 5 Franc Pattern.** VG2779 **(3000**-obv. and rev. pair). **Unc. (Photo)** **(——)**

Laureate *bust right of Louis Phillipe (not to be confused with the bare head Galle pattern, VG2769). VG terms silvered bronze, known only as uniface pairs. This piece has regrettably lost its mate. Apparently it is struck on a thin bronze flan, one face silvered before (?) striking done in a collar. No backing die (reverse is somewhat rough, with "ghost" image of bust). Mottled grey tone.*

VG's price (3000) indicates extreme rarity, as does the tentative manner of manufacture.

2715 **1831. Pattern 5 Francs.** Louis Phillipe. By Montagny. White metal, plain edge. VG2770 **(300).** Very scarce or rare. **Proof,** somewhat clouded. **($135-Up)**

2716 **1831-A. Pattern 5 Francs,** Louis Phillipe. By N. P. Tiolier. White metal, plain edge. VG2774 (300). Very scarce or rare. **Proof.** **($175-Up)**

2717 **1840. Pattern 5 Francs,** by Tiolier. Bronze. VG2909 (300), scarce. **Proof.** **(——)**

*Bust of Louis Phillipe/in wreath: PRESSE MONETAIRE ESSAI DE LA VIROLE BRISEE 1840 (six lines). Edge: "IDUE TOGEREP AL NAFREC***" (Yugoslavian for "Catch you Tuesday nite"-also an* ANAGRAM *for DIEU PROTEGE LA FRANCE!*

2718 **(1840). Pattern 5 Francs,** as last, but **uniface obverse trial** (splash) in lead. **AU-Unc.** **(——)**

Light rouge finish applied. Tiny drill mark in center, probably to check legend alignment, thus not "damage." Border trimmed into 16 sides.

2719 **1840. Pattern Decime.** 30½mm., copper, thick. VG2915. **Proof.** **($90-Up)**

Louis Phillipe, bust/value in wreath. Plain edge, 17.71 gms. By Barre. Scarce *(VG=150, instead of the usual 50 Francs for copper patterns).*

2720 **1844. Copper Pattern.** VG2959 (100). **XF.** **($65-Up)**

Names, address of "Rohault et Muzard" in circular chain of oak leaves/ BALANCIER MONETAIRE (rosette) around "1844," similar chain. Edge plain, 28.5mm., 10.68 grams.

2721 **1846. Pattern (Decime).** VG2980. **Full red Unc.** **($85-Up)**

Louis Phillipe, bust (signed "BARRE 1840" and same die as above 1840 Decime)/date in wreath, REFONTE DES MONNAIES DE CUIVRE. Evidently these are connected with a notion to retire the old copper coins, and may be struck from melted-down early types.

2722 **1848. Pattern 20 Francs** (gold), signed. "F. Alard" (script). Copper. **Triple piefort.** VG 3041 (var.). Red & Brown **Unc.** **($95-Up)**

Liberty head wearing helmet which incorporates Gallic cock/date & value in wreath. Usual piefort edge (VG: "plain edge"). Ex-Wayte Raymond (Part 1, #1281, $100).

COMPETITION 5 FRANC PATTERNS OF 1848

Numerous artists participated in the competition for new coinage designs. Nearly all the 5 Franc patterns are skillfully executed, and all are very imaginative, synthesizing various Republican symbols (compasses, fasces, clasped hands . . .) within the basic "female bust/value in wreath" framework. Some achieve this task gracefully; others, not less beautiful, are too surprising in design to be used for coins. Ironically, the first 5 Franc.

Oudine's "Ceres Head" pattern was eventually used, the rise of Louis Napoleon scuttled what threatened to become the world's most beautiful circulating coinage.

The 5 Franc patterns are usually seen in white metal. Unless otherwise indicated, all have female bust left/value in wreath (raised lettered edge, DIEU PROTEGE . . .).

RARE ROGAT 1849/1848 PATTERN

2747 **1848. Pattern 5 Franc, signed E. ROGAT/1849. Golden bronze piefort.** VG3109/(3072, etc.). **Rare. AU. (Photo)** **($300-Up)**
VG prices this (bronze, normal thickness), with correct reverse (also dated 1848), at 500 Francs! Possibly, Rogat was a little slow completing his entry causing it not to be struck in the usual white metal coins. Usual piefort edge lettering. See Mazard for further comment on the circumstances (and rarity) of this pattern.

THE PATTERN 10 CENTIMES OF 1848

At the beginning of the Second Republic, competitions for new coin types were held. Major pattern series of 20 Francs, 5 Francs and 10 Centimes resulted. Many of these are common in copper, selling for only $50-100. As the large copper 10 Centimes series is the only one that is inexpensive when struck in its appropriate metal, and as the designs are so beautiful, it is probably the most popular series of 1848 - and of all world pattern coins, as well!

A facet of this series which usually escapes all but the experienced collector is that *many of the varieties are rare.* VG(uilloteau) divides the series in half. The first group, called "official patterns", consists of obverses and reverse by 22 engravers (26 designs, VG 3130-3155). These are all rare, cataloging 500 Francs-up. Most of these obverses, plus a few new obverses, occur muled with one or more of four new reverses. These VG calls Series 1, 2, 3 & 4. Many pieforts occur in these series (all scarce). Many Series 1-4 strikings are evidently restrikes, although nearly contemporary with their dates. We have described die rust where it occurs on a variety.

We have quoted VG's prices from 1942. 50 Francs was a fairly standard price for copper patterns. Pieces priced over 100 Francs are rare.

2748 **1848. Pattern 10 Centimes,** signed "MONTAGNY". Copper. VG3146 **(700). Quadruple piefort** (unlisted in piedfort). **Very rare in any form. Unc. (Photo)** **($300-Up)**
Bust, laurel and oak wreath, clasped hands below/value, date in wreath. Lettered edge: "+PIEFORT+CONCOURS MONETAIRE" (standard on 1848 10 Centime pieforts). VG does not list any piedforts of the "official" series. *Toned brown (traces of red). Ex-Wayte Raymond. 37.41 gms.*

2749 **1848. Pattern 10 Centimes,** signed "E. ROGAT". **"Official Series", very rare.** VG3154(800!). Choice red and brown **Unc. (Photo)** **($300-Up)**
Helmeted bust/value, date in wreath. Plain edge. 10.32 gms. Rather prooflike, two minor planchet pits in reverse field. Quite rare *(VG priced Henry V pretender 2 Francs-in silver-at 600).*

2750 **1848. Pattern 10 Centimes,** as last but **quadruple piedfort. Rare. Unc.** **($300-Up)**
Unlisted in VG (who lists no pieforts of the "official" series). Usual lettered edge. Brown, some red, cabinet friction on center obverse hair curl. 38.41 grams. Ex-Wayte Raymond.

SERIES ONE 10 CENTIME PATTERNS
EXTREMELY RARE ENGRAVER

2751 **1848. Pattern 10 Centimes,** signed "F. Alard" (script). **Quadruple piefort.** VG3157 **(1500). Extremely Rare. Unc. (Photo)** **($500-Up)**

Liberty in a helmet topped with a cock/series 1 reverse. VG = 800 in normal thickness (#3156). Toned brown, some red, spot on edge. Ex-Wayte Raymond. 39.27gms.

OVERSTRUCK ON MONACO DECIME!

2752 **1848. Pattern 10 Centimes, signed "P. BOIVIN."** Obverse as VG3133, unlisted as part of series 1. Doubtless quite **rare.** Choice Brown **Prooflike Unc.** **($150-Up)**

See photo of succeeding lot. Plain edge. 14.81 grams (1½ times normal thickness). Tiny spot on wreath, 4:30 reverse. Spot of die rust between "N" and "C" of FRANCAISE.

Overstruck on a cut-down 10 Centimes (1838) of Monaco. *Presumably the undertype is a Rogat pattern. "HONORE V" is very clear at the reverse rim, from 3:00 to 5:00, as are the outline of bust, and parts of wreath (on obverse). Overstruck patterns on Swedish coins are known (Duffield 349; WR1 #1279); we think the current high interest in Monaco is unlikely to affect this coin's price, but it is an interesting and important piece, linking Rogat's "1838" patterns to the Paris Mint after 1847.* Very possibly unique.

2753 **1848. Pattern 10 Centimes,** as last, but **quadruple piefort. Unlisted and doubtless very rare. Full red Unc. (Photo)** **($350-Up)**

Usual edge, 41.19 gms. Faint spotting, should affect price very little, while the original mint color should raise the price. Prominent die rust on most of FRANCAISE—obviously struck after preceding lot.

2754 **1848. Pattern 10 Centimes,** signed DOMARD. **Quadruple piefort.** VG3160 (300). **Red to Brilliant Unc. (Photo)** **($150-Up)**

36.60 grams, ex-Wayte Raymond.

2755 **1848. Pattern 10 Centimes. Piefort.** VG3160-as last. **Unc.** **($125-Up)**

Toned brown. 40.70 grams. Ex-Wayte Raymond. Both this and the preceding lot show faint die rust on obverse.

2756 **1848. Pattern 10 Centimes,** by **Magniadas** (unsigned). **Quadruple piefort.** VG3165 (150). **Red to brilliant Unc. (Photo)** **($150-Up)**

Minor planchet flaws, rather hard to notice. Light purple tone, reverse center. No die rust. Usual edge, 36.03 gms. Ex-Wayte Raymond.

2757 **1848. Pattern 10 Centimes. Not in VG! Unc.** **($75-Up)**

Type as last, but "normal" thickness (13.09 gms), plain edge. VG lists this Magniadas pattern with series 1 reverse in Piefort only. Obverse mostly brown; reverse red, some original mint brilliance. Rather nice, even for an Unc. coin, and obviously scarce, to have escaped VG's notice.

2758 **1848. Pattern 10 Centimes,** by **Rogat** (unsigned). As VG3171 (100) but **quadruple piefort. Red Unc.** **($150-Up)**

Bust with laurel wreath, hair covered behind/Series 1 reverse. A dozen or so tiny carbon spots, mostly on reverse. 37.07 gms. Ex-Wayte Raymond. Slightly scarcer in regular form than most patterns, which are only (50) in VG (unlisted in Piefort). No die rust.

VERY RARE REYNAUD PATTERN

2759 **1848. Pattern 10 Centimes,** by **Reynaud** (unsigned) VG3174 **(500 Francs = very rare). Unc. (Photo)** **(——)**

Bust/series 1 reverse. Reynaud's pattern 10 Centimes (a second variety is listed as VG3173) are listed only as part of Series 1. Both catalog (500) in VG, an extremely high price for a copper. This piece has a partially reeded edge (VG: "plain edge"). Somewhat prooflike.

2760 **1848. Pattern 10 Centimes,** by **Magniadas** (unsigned). VG3182. **Red Unc.** **($50-Up)**

Obverse as VG3165, catalogued above. Reverse: Series 2 (smaller wreath, date below).

2761 **1850-A. 5 Francs.** Y.6. **Trial strike** on **thin** (9.59) **copper flan. Probably of the highest rarity. Brown Unc.** (crude). **(Photo)** **(——)**

2762 **1851. 10 Centime-size pattern,** with **Napoleon** bust. VG 3288 **(300). Unc.** **($95-Up)**

Bust/"ESSAI DE BRONZE 1851" in four lines. At least half mint red remains; obverse lacquered. VG's price indicates a current retail of $150-Up, but that is probably slightly high.

COINS OF HENRY V (CHAMBORD), PRETENDER

2763 **1830. (5 Francs).** Bronze. VG 2687, Gadoury 345 **(FF 1500 "Superbe"),** Krause PT 32a (unpriced). **Brown Unc. (Photo)** **($200-Up)**

Uniformed bust of the would-be boy king/crown over crossed sceptres, date below (2 August 1830, date on which Charles X abdicated in Henry's favor). Plain edge. 21.42 grams. The obverse die is virtually identical to the 1831 5 Francs (signed "GC"-Giuseppe Cerbara?). Although Gadoury's price ("Superbe" = XF-AU) may be a little high, this type is much scarcer in Unc. than in VF or XF.

2764 **1831. 5 Francs. Silver.** VG 2690 **(2000),** Gadoury 347, Krause PT 35.1. **Prooflike AU/Unc. (Photo)** **($500-Up)**

Uniformed bust/shield divides value (mimics Louis XVIII & Charles X 5 Francs). Lettered edge. Nice light tone. Very light rim bruise 1:00 reverse, and a small scrape on edge.

2765 **1831. 5 Francs.** As last, struck in copper. **Proof. (Photo)** **($350-Up)**

Plain edge. Very minor spotting, else choice. Nice brown tone. May be scarcer than silver strikes.

2766 **1831. Franc. Silver. XF.** **($50-Up)**

2767 **1871. 5 Francs. Silver.** VG 2731 **(2500),** Gadoury 349, Krause PT 37.2. **Rare. Proof(like). (Photo) ($800-Up)**

Mature head, below which "CAPEL F.", HENRI V ROI DE FRANCE/ Similar to the 1831 coins, ESSAI to right of date. Reeded edge (VG prices the reeded-edge variety at 2500, the plain-edge at 2000). Much rarer than the 1831 5 Franc. *Slight obverse cabinet friction. Nicely toned.*

Capel was a Belgian medallist. Forrer describes this as "perhaps the artist's best work". Evidently he engraved this piece, and other, satirical 5 Francs, for Wurden. This rare coin was not in the Dickerson collection (CICF auction, 1978). The ostensible cause of this coin would be the fall of Napoleon III; this propaganda coin would presumably exploit the weakness of the new republic. Forrer, however, contends that this piece was struck in 1874.

SATIRICAL 5 FRANCS

2768 **1848-K. 5-Franc-size satirical coin,** denominated **"1 GASCON".** Gilt. VG 3129b. **Unc. (Photo) ($150-Up)**

Issue of the "New Kingdom of Aquitainia." A satirical invention of the early 2nd Republic, one of the few with a monetary reference. Plain edge. Slight friction, a bit spotted. Scarce.

2769 **N.D.** (ca. 1852). **So-called 5 Franc** by Korn. Mazard 1748. Steel. **Brilliant Proof. (Photo) ($125-Up)**

Napoleon III, "F. KORN" beneath/inscr. in wreath. All legends in German. *Plain edge, several die cracks. Originally made by Korn as a sample, to impress mint officials. Later the piece came to have a satirical meaning. Cf. Peters/CICF sale of Dickerson collection, 3/78 #504 ($500 in silver). We believe these have been restruck, but specimens in any metal are rare. The Dickerson coin appears, in the photo, to have die cracks; quite possibly the original dies underwent a renaissance in popularity after the German victory at Sedan.*

VG (#3588) lists this piece under 1861, "struck at Mayence"; Forrer likewise lists the piece among Korn's 1860's productions, but gives Frankfurt as the location of striking.

2770 **N.D.** (1870?). **Gambetta 5 Franc. Silver.** VG 3791, Gadoury 358, Mazard 2337 **(R3). Choice, Prooflike Unc. (Photo) ($750-Up)**

Bust of Gambetta (developed new constitution, helped preserve republican gov't)/genius, "5-F" at sides, all in wreath; patriotic legend. Plain edge, 25.03 gms. Usually attributed to 1870, Forrer credits this to Capel, the Belgian engraver, 1873. The Dickerson coin, prooflike AU, brought $700. Gadoury prices at FF 4000 XF-AU.

Though not satirical, this "traditional coin" is usually collected with the nastier coin productions listed below.

THE "SATORY" CROWN

2771 **1872. Satirical 5 Francs** against **Thiers. Silver.** VG 3818 (1800), Mazard 2338 (R2), Gadoury 359. **Rare. Prooflike Unc. (Photo) ($1,000-Up)**

Obverse: Bust of President Thiers (1871-73), surrounded by candle-snuffers (6) and cat-of-9-tails (4); at bottom, date "1685" (referring to protestant persecution of that year), candles (symbol of Communards) to l. and r. of date. Reverse: a shield, SATORY across top, execution scene in bottom part; shield divides "5-F"; all in wreath; date, etc. outside wreath. Plain edge.

Thiers was infamous for his bloody suppression of France's left, with executions continuing far longer than seemed justified (to many) on any grounds. Forrer attributes this to Capel, 1873.

Gadoury prices this at FF4500 in "Superbe" (XF-AU).

2772 **1874. Satirical 5 Francs,** against **Mac-Mahon.** VG 3857, Mazard 2340, Gadoury 360. Gilt bronze. **XF/AU. ($275-Up)**

Head right, MAC-MAHON I-SEPTENNAT; below head, NAPOLEON F./arms—a mish-mash of papal, Napoleonic and Bourbon allusions. Plain edge. Possibly gilt after striking. Not listed in this metal but see Dickerson collection.

Mac-Mahon, although pro-monarchy, accepted a 7-year presidential term (hence SEPTENNAT).

PRO-GERMANY!!

2773 **1874. Satirical 5 Francs,** against **Mac-Mahon.** VG 3858, Gadoury 361. Silvered bronze. **VF-XF/XF+. (Photo) ($300-Up)**

Obverse as last. As last, "LOYOLA" and pennants removed, Legion of Honor suspended from shield. Edge lettered: DIEU PROTEGE L'ALLEMAGNE ** *(God protects Germany). To our knowledge,* this has never been edited with anything but a plain edge. *The reverse type was not in Dickerson.*

2774 **1887. Political 5 Francs. Boulanger.** White-metal embossed "shell-card" (hollow). **Probably rare. VF. (Photo) ($125-Up)**

Bust, BOULANGER ex-MINISTRE de la FRANCE (above), 14 JUILLET 1887 (below)/ Hercules group (straight imitation of the coin type). Being a soft metal, and hollow, it has become a little flat, thus we grade VF, but it is still bright. Boulanger, a reactionary, was forced out of the government in 1887 but then became an extremely popular demagogue. This was not in Dickerson's collection; we have no reference to it and believe it to be rare, especially well-preserved.

FRANCE-COLONIES

2775 **1824-A. Pattern 10, 5 Centimes.** VG 2560, 61; Byrne 1417, 35; G&C 14, 13. **Choice Red Unc. pair. ($150-Up)**

Louis XVII, bust/crowned monogram, "COLONIES FRANCAISES" Gadoury FF900 (pair) in "Superbe" (XF-AU).

GERMANY
BAVARIA

2776 **1863. 6 Kreuzer.** Pair of **uniface silver patterns,** unadopted design with **bust of Maximilian II,** 1848-64. **Proof. 2 Pcs. (Photo) ($1,000-Up)**

The "blank" sides have a beaded border and raised rim. The bust is similar to that on that Taler, the reverse is very close to the 6 Kreuzer struck 1839-49. By J. R(eis). The 6 Kreuzer is normally a billon coin, so these lovely silver pieces should attract considerable interest from pattern specialists. Ex-Jess Peters FPL, 8/71 #860 ($1500!!)

SILESIA (under Prussia)

2777 **1797-B. 1 Kreuzer. Trial strike on large silver flan.** Regular coin = Cr. 51 (billon). Likely **unique** item. **VF or better. (Photo) ($200-Up)**

Friedrich Wilhelm II, 1786-97. Bust/arms. The silver blank is very porous. Its edge has decorative milling—it may be an old 1/6-Taler planchet. 5.20 gms.

UNIFIED GERMANY

POSSIBLY UNIQUE 1877-D ½-MARK IN GOLD
-Ex-Ferrari Collection-

2778 **1877-D. Pattern ½ Mark.** Krause p. 746 #3. In **GOLD. Choice Unc. (Photo) (——)**

*Design similar to the regular-issue 50 Pfennig of 1877-78 (Y.14), except for the way the value is expressed. Plain edge, rather thick (7.77gms). Un-*priced in Krause even in silver. *A middle-thousands bid should be required. Although modest in appearance, compared to the many larger, older coins and medals in this sale, this is nonetheless one of the highlights of our entire offering.* Even Farouk did not have this coin! *Ex-Hans Schulman auction ("Atomic"), 6/23/61.*

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

2779 **1925-E. Pattern 5 Mark, silver.** Krause KM 106 **(unpriced). Proof. (Photo) ($750-Up)**

Rather agonized female head with awful hairstyle/an eagle to match. Plain edge. We have not previously encountered this type and believe it rare—as it should be. 24.81gms.

A 1926-E pattern, same reverse die, is priced $750 in Krause (#125).

2780 **1925-E. Pattern 5 Mark,** State of **Saxony. Silver.** Krause KM 107. **Rare. Choice Unc. (Photo) ($750-Up)**

Eagle/Saxony arms between floral sprays (as on ca. 1800 Talers). Plain edge. 25.84gms. Unpriced in Krause and probably quite rare, *as well as* highly interesting. *Perhaps worth well over estimate (we do not have a past sales record available to guide us).*

THREE ORIGINAL CASED SETS OF GOETZ PATTERNS

2787 **1913. Pattern coins** for **Bavaria. 2, 3, 5, 10, 20 Mark.** By **Karl Goetz.** Kienast 77 (set). Bronze, in **original case** (uninscribed). **Tan and golden Proofs. 5 coins.** **($300-Up)**

Obverses display five different portraits of Ludwig III. Similarly five different reverses. Now listed in Krause, pg. 570. An uncased set brought $260, on an $400-600 estimate in the 6/77 C.O.I.N. auction. With interest in German patterns and Goetz material much greater now, we feel these coins should be worth $75-up apiece.

2788 **1913.** Bavarian set, as last, in **original case.** Bronze, but 2, 3 and 5 Mark **silvered** and 10 and 20 Mark **gilt. Unc.** 5 Coins. **($450-Up)**

Coins silvered and gilt after striking. Some tiny spots where imperfectly plated. A lovely set.

2789 **1913.** Pattern coins for **Prussia. 2, 3, 5, 10, 20 Mark.** By Karl Goetz. Kienast 76 (set). In **original case. Unc.** 5 Coins. **($450-Up)**

Obverses portray Wilhelm II in five different modes. Reverses identical to the Bavarian sets above. 2, 3, 5 Mark silvered; *10, 20 Mark* gilt; *the set being a match for the last. Tiny spots in the plating. An uncased set in silver brought $575 (on a $750-1000 estimate at the C.O.I.N. auction 1½ years ago).*

2800 **1913. Pattern set. Proofs.** **($275-Up)**

As above, but 2, 5, 10 and 20 Mark in golden bronze. Lightly toned, the crown-sized 5 Mark least so. The 3 Mark is red bronze, toned brown.

2801 **1913. Pattern 2 Mark,** by Goetz, as in above sets. **Silver. Choice Proof.** **($95-Up)**

2802 **1913. Pattern 10 Mark,** by **Goetz,** as in above sets. **Gilt. Choice Proof.** **($90-Up)**

PATTERN CROWN—IN GOLD!

2804 **1913. 5 Mark pattern, by Goetz,** as in above sets, but struck in Gold. **Unc. (Photo)** **($1,000-Up)**

Farouk 774 ($200 in 1954 to Spink). Ex-Schulman "Atomic" sale, 6/61. Rim bruise (from dropping) at 4:30 reverse, elsewise about perfect. The dies are flawed, however; obviously this piece was not struck in 1913 or immediately thereafter. Most likely it was struck from dies "liberated" from Germany during/after WW2. Plain edge, no marking. 34.60gms. Extremely rare, even if a restrike, and may go well over estimate.

REICHS-COINAGE PATTERNS BY GOETZ

2805 **1925-D. Pattern 5 Mark,** by **Goetz.** State of **Bavaria.** Kienast 351, Krause KM90-91. Struck in **GOLD. Very Rare,** metal not listed. **Unc. (Photo)** **(——)**

Madonna & Child, Bavarian shield/eagle. Plain edge. 24.39gms. Unpriced in Krause (who lists brass and silver); "Not available" to Kienast for photo. Dies are flawed (as in Krause photo) and piece must thus be a restrike. As made, however, the piece is about perfect.

2806 **1925. Pattern 5 Mark,** by **Goetz. Bronze.** Kienast 352, Krause type 99-100. **Choice Matte Unc. (Photo)** **($300-Up)**

Krause lists in silver and "red copper", both unpriced. This is antique bronze.

2807 **1925. Pattern 5 Mark,** by **Goetz. Silver.** Kienast 356, Krause 98. Restrike. **Unc.** **($175-Up)**

2808 **1925. Pattern 3 Mark,** by **Goetz.** Kienast 352, Krause 89 (listed in copper only). **Silver. AU. (Photo)** **($200-Up)**

Female bust/eagle. Some die rust, but edge marked "800" and does not resemble the other restrikes we have seen. Probably struck in the Munich mint, to a private order, in the '30's or early '40's.

PATTERN CROWN IN GOLD

2809 **1926. Pattern 5 Mark,** by **Goetz.** Kienast 357, Krause—Struck in **GOLD. Unc. (Photo)** **(——)**

Germania/commerce (represented by a galleon in a storm). Plain, unmarked edge, 34.78 gms. Die flaws, indicating piece is restruck, but the condition is perfect *and the piece is quite beautiful. Ex-Schulman "Atomic" sale, 6/61.*

2810 **1928. Hindenburg 10-Mark pattern. Gold.** By Karl Goetz/Berlin Mint. Kienast 415. **Proof. (Photo)** **($200-Up)**

Hindenburg bust/family arms. Now in Krause, p. 746 (unpriced). We sold a platinum obverse die trial in WR3 ($500), and the lightly damaged obverse die in WR4 ($825).

GREAT BRITAIN

2811 **1782 (RN). Pattern Guinea,** struck in copper. **Brown, prooflike AU. (Photo)** **($200-Up)**

GEORGIVS III DEI GRATIA around edge, center blank/MDCCLXXXII around top and "I" at bottom. On edge, the date, repeated several times. Edge is not round, but slightly irregularly lobed.

UNLISTED PATTERN

2812 **(1788). Pattern 6 Pence.** By Droz. **Uniface obverse striking in silver.** ESC 1642 (obverse). **Proof. (Photo)** **($200-Up)**

*Crowned "GR" cypher in wreath/*blank, engraved with a geometric pattern, a retrograde "6" in center. *Edge reeded.*

2.35 grams. We do not believe the reverse has been ground off, although it would be hard to prove. The weight of an original planchet, for a pattern issue, might well be 2.35 gm. If struck uniface, the piece is probably a unique striking. In any event, the reverse engraving is very likely Droz' own think-piece or exercise.

PATTERN HALFPENNIES OF J.P. DROZ
EXTREMELY RARE RESTRIKES IN ALUMINUM

About 1848, Birmingham medallist W.J. Taylor acquired scrap metal from Matthew Boulton's Soho mint, comprising dies and various punches. For decades to come he engaged in restriking from these dies, often creating new varieties by muling, or even altering existing dies. The aluminum strikings are very late in the Taylor restrike series, but very early in the history of aluminum coinage. *Peck classes all the following as EXTREMELY RARE.*

2813 **1790. Pattern ½ Penny by Droz. Aluminum.** Peck 1008 **("Ex. Rare"). Proof,** half brilliant, half oxidized. **($150-Up)**

Obv: Altered George III Bermuda Penny (1793) die. Rev: Seated Britannia, date in exergue.

2814 **1790. Pattern ½ Penny. Aluminum.** Very similar to last, Peck 1009. **("Ex. Rare). Proof.** 65%/20% corroded, balance brilliant. **($100-Up)**

2815 **1791. Pattern ½ Penny by Droz. Aluminum.** Peck 1011. Similar to above, but Taylor has altered the date. ⅓ corroded (not heavily), balance cleaned on obv., brilliant on rev. **($150-Up)**

2816 **1788. Pattern ½ Penny by Droz. Aluminum.** Peck 1014. **Proof,** 80% heavily corroded. **($75-Up)**

2817 **1795. Pattern ½ Penny by Droz. Aluminum.** Peck 1018. **Proof.** 80%/15% heavily corroded. **($90-Up)**

NEW DISCOVERY!

2818 **1799. Pattern ½ Penny by Kuchler. Aluminum** (Taylor restrike). **Not in Peck, excessively rare. Brilliant Proof,** oxidation spots. **(Photo)** **($200-Up)**

Peck type R79, recorded in silver and bronzed. Very similar to the currency dies. Most of the oxidation is on the king's head.

This may be the earliest adopted coin design to be struck in aluminum.

UNIQUE-?-TRIAL PIECE

2819 **1817. Obverse die trial for the "Three Graces" Crown.** Linecar & Stone 157A-**this piece?** Lead, thin, with plating (copper?). **VF+,** "wrinkled." **(Photo)** **($300-Up)**

Die as ESC 227 **(R7).** *By Wyon, unsigned. The rarer-by-far of the two dies used for the "Three Graces" patterns. Very few strikings of any kind are known from this die. Linecar & Stone indicate this uniface striking is unique, and this carelessly preserved piece matches the description of their source specimen.*

The piece is somewhat purple in cast, and may be chemically dyed, not copper-plated.

VERY POPULAR "MILLS & MUDIE" CROWN

2820 **N.D. (ca. 1820). Pattern Crown in silver.** By T. Webb (obverse) and G. Mills (reverse) for D. Mudie. ESC 221, L & S 214. **XF/AU. (Photo)** **($650-Up)**

George III, bust/cruciform arms, etc. A lovely design, and one of the few pattern crowns collectible in silver. Small nicks on obverse (would be normal on a circulating coin). Average-quality proofs brought £500 and $1150 (Spink auction 1; NASCA "London" sale, 7/79). The Rowlands specimen, just slightly better than this, brought £380 (2/79), or $800+.

2821 **N.D. (ca. 1810's).** Trial in lead for a **George III obverse die, by Mills. Unique? F-VF.** **($75-Up)**

Nude, laureate bust, "MILLS" on truncation, GEORGIUS III—DEI G(RATIA). Uniface. 23mm, 12.50 grams. Stylistically, far more likely as a coin pattern than a small medal. Mills did engrave the reverse of a pattern crown, most competently, for Mudie, at about this time. Not in ESC as a shilling pattern, but possibly not previously known, or possibly a pattern Guinea.

2821A **N.D., 1821.** Pair of **gold coin reverse trials. XF. (Photo)** **($350-Up)**

Both are Pistrucci's St. George design. 1) White metal. *Unfinished matrix die of St. George and dragon. Pewter. XF or better. 2) Finished reverse die, design larger, "1821" and "B.P." in exergue. Grey-colored lead, slight whitish corrosion.*

Pistrucci's design is one of the most popular ever, and deservedly so. We feel this lot could be worth much more than estimate.

2822 **N.D. (ca. 1848-50). Model 2 Shillings,** by Allen & Moore. Silvered brass, 27mm. Cf. Spink NC, Oct-Nov '75. **XF. 2 Pcs.** **($35-Up)**

2823 **1865 (RN). Pattern Shilling,** denominated **"HALF FLORIN."** By Wiener and Taylor. ESC 1385. An electrotype. **Choice Bronzed Proof,** edge cracked. **(——)**

TWO-COUNTRY PATTERN/MULE

2824 **N.D.** (1960?). **Royal Mint Trial.** Ad hoc obverse die with **Uruguayan reverse. Unc. (Photo)** **($200-Up)**

*Bust (Sir Milton Margai), ROYAL MINT above and *TRIAL* below/as Uruguay 5 Centimos (1960) reverse (Y.34), only small "z" in "5" and die enlarged at border. 23mm, 4.92 gms,* pure nickel. *Edge plain.*

Most two-country mulings were made for collectors, or were currency issues that are now known in small quantities. This is a much rarer muling, and the only piece of its kind that we can think of involving a country of the Americas (excepting Australia/Washington mules and some rare Canadian cabinet coins).

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

EXCESSIVELY RARE "DECIMAL 4 SHILLINGS"

2825 **(1963). 20 Pence** (=4 Shillings). Uniface obverse striking of the rare decimal pattern. ESC p. 229, L & S #11. **Highest Rarity. Choice Unc.,** delicate rose toning. **(Photo)** **($2,000-Up)**

Bust of Elizabeth II, by Arnold Machin, actually adopted some years later for the regular decimal series. Legend as on the later coins but no date. Reeded edge. 36mm, 26.36 grams, copper-nickel.

The reverse is smooth except for a raised rim. There are also uniface strikings of the reverse, which design features gartered & helmeted arms, lion and unicorn supporting, large "20" at bottom, etc. ESC (1974) mentions two-sided strikings; Linecar & Stone (1968) do not, and state that this obverse design was only struck in 20p size.

Few such patterns leave the Royal Mint. The only comparable item for which we can cite a sales record is the 1950 Double Florin pattern, ESC 407c, which brought $3,750 in 1973! (Seaby/New Netherlands sale in New York). Though we think this lot, being uniface, is worth less, it may approach the six-year-old price record of the 1950 piece.

VERY RARE DECIMAL PATTERN

2826 **N.D. Pattern 10 Pence.** Regular size, metal; reeded edge. **Unc. (Photo)** **(——)**

Moneta seated, striking by hammer large "10," otherwise blank. Although there are a fair number of such patterns, each is very rare, *and few* reach private hands. *Seaby (ESC) comments: "There are . . . pieces in the Royal Mint Museum . . . It is hoped that at some future date (they) will publish all such pieces." Evidently the British museums are not furnished examples.*

In our opinion, the patterns involving the evolution of the world's most famous and longest-used coinage system into the world's most practical system are of more importance than nearly all the earlier patterns. Certainly they are far rarer, but their very uncollectability acts, paradoxically, as a price deterrent. We think a middle-hundred price may take this lot

GREECE

VERY RARE 5 DRACHMAI PATTERN BY ERTEL

2827 **1833. Pattern 5 Drachmai** in copper. By T. Ertel, Munich mint. Divo p. 37. Very rare. **XF. (Photo)** **($750-Up)**

Inscr./monument (to the 30,000 Bavarians killed in Russia, 1812). The inscription translates: "Proof (trial) of the Taler coining press for the kingdom's coins in Greece. T. Ertel in Munich. 1833." Reeded edge. Even, light brown tone. Rather small edge bruise, 11:00 reverse. Also, a very small edge clip (as struck). As Greece's first king, Otto, was a Bavarian, it is not surprising that coinage patterns originated in Munich.

An example, "almost mint state," brought £620 in Spink auction 5, so this piece could well bring over $1000.

HAITI

RARE PATTERN CROWNS OF 1820

2828 **1820. Pattern Crown.** ("Double Gourde"). Arroyo #P127, Guttag 2088E, Krause 34. **Proof. (Photo)** **($1,000-Up)**

Henri Christophe. President 1806-10, King 1810-20. Laureate, draped and armored bust/crowned arms dividing crowned "H" and crowned "LM" monogram. Obverse is an overdated 1811 die. Plain edge. 30.17 grams. Die cracks. On obverse mainly at upper left; a slight flaw between 8 and 2 of date (but not yet into bust). On reverse at lower right.

We are not prepared to say these 1820-dated coins were struck during Christophe's lifetime. As strikings in aluminum, etc, exist, it is obvious restriking took place. With respect to the pieces in our sale, we would note that all *the 1820 Crowns in the 1973 Seaby-New Netherlands sale and 1976 Mangones sale (Harmer-Rooke) had the die crack already across the bust. Those coins brought very good prices and were bought by Haitian specialists in the rooms (no early Haiti crowns were in the Byrne sale).*

The level of scholarship exhibited toward these coins is sorrowful. Although the LM monogram was described and attributed by Tonrobert (1878-to Louise Maria, Christophe's wife), later luminaries repeatedly call the monogram an "M."

This coin has been much hairlined before and behind the head, although it is not readily noticeable, A very attractive coin.

2829 **As last. Superb Proof. (Photo)** **($1,000-Up)**

A very light die crack up the neck.

2830 **As last.** Same die state. **XF. (Photo)** **($700-Up)**

GUTTAG PLATE COIN

2831 **1820. Pattern Crown** ("Double Gourde"). **Struck in aluminum.** Guttag **2088-this coin.** Krause 31, Arroyo P124. **Choice Proof. (Photo)** **(——)**

Very rare, *not in Mangones collection. Reeded edge. Obverse die with slightly stronger flaw. The reverse is the same die as above, most of the flaws having been skillfully removed, and the crowned H and LM have been removed. This points to Taylor, the Soho restriker, in which case this would be extremely rare, and after 1880. The Seaby-New Netherlands coin brought only $200 (estimated $250-300), probably due to light obverse oxidation.*

It is quite possible either of the above silver proofs are also ex-Guttag.

2832 **1850. 6 Centimes. Pattern.** Copper. Arroyo P28, Guttag 2202. **Choice Proof,** bright red and iridescent. **($95-Up)**

Value, date in wreath. "FAUSTIN Ier EMPEREUR"/crowned shield dividing "6-C.", date below, "EMPIRE-D'HAYTI." Arroyo description in error. Byrne sale (6/75) $110.

2833 **1877. Essai 20 Centimes.** Nickel alloy. Guttag 2214B. **($75-Up)**

Mercury head/value over crossed sword and laurel branch. Still brilliant but with very light spots.

HONDURAS

2834 **1870. Pattern 2 Reales.** Nickel alloy. By Tasset. Guttag 2293. **Rare. Choice Unc. (Photo)** **($200-Up)**

Arms, "JOSE MARIA MEDINA CAPTAIN GENERAL PRESIDENT"/ value in wreath.

2835 **1872-A. ¼ Real.** Paris Mint **pattern in aluminum.** VG 3816. **Unc.** **($50-Up)**

"¼/REAL/1872" in wreath. "Reverse": "ESSAI/DE/MONNAIE." Plain edge. Brilliant; faint "reverse" oxidation spot. Guttag 2302 ("copper-nickel").

2836 **1878. 50 Centavos. Uniface obverse and reverse strikings** on large lead blanks. Dies as the rare 1879 50 C. (Y.12). **Extremely Rare. Choice Unc. pair. (Photo)** **($1,000-Up)**

Not in Guttag, who did have similar trials of the smaller values, and who attributed them to the famous N.Y. diesinker George H. Lovett. From our 6/77 McNally sale, and ex-Wayte Raymond. It brought $750 two-and-a-half years ago. The regular-issue, Y. 12 (1879 only) catalogs $750 in XF, so it seems unlikely this possibly-unique lot will not bring over $1000 today.

The obverse design features an eagle, possibly modeled after the U.S. Trade Dollar design. On the breast is the Honduran arms, cornucopiae at sides. The reverse is the Liberty-standing-by-pedestal design common on Latin American coins. Coinage problems caused Lovett's designs to be rejected; only 5 and 50 Centavos were struck (10 and 25 Centavo patterns exist-Guttag 2303, 2305) and are quite rare.

2837 **1878. Centavo. Uniface obverse and reverse strikings** on large lead flans. Guttag 2304; dies as Y.9 (1878-80). **Very Rare. Choice Unc. pair. (Photo)** **($400-Up)**

Liberty Head/value in wreath. By George H. Lovett, N.Y. Two hairline die cracks, bisecting obverse. Ex-McNally sale (and Ex-Wayte Raymond) at $355.

HONG KONG

2838 **1865. Pattern Dollar.** Copper Pr. 205. **XF,** struck as Proof. **(Photo)** **($675-Up)**

As the regular (1866-68) issue but dated 1865 and "TRIAL" (raised letters) behind head. Ex-Wayte Raymond.

2839 **1975. Dollar.** As Y.30a but **struck in brass** (not copper-nickel, as usual). **Unc.** **($150-Up)**

Last year of issue. Possibly a pattern for a continued issue in a new metal. We have no information as to rarity.

INDIA

2840 **1804. Mule of two Bombay 2 Pice reverses.** Pridmore 197 (proper coin is Cr. 588). **Rare. XF.** **($125-Up)**

2841 **1809. Pattern "Sicca Pice."** Pridmore 385. **Rare. Proof.** **($125-Up)**

Lions supporting EICo arms, date below/blank. Some toning, but mainly quite nice and blazing red in color.

2842 **1809. Pattern "Sicca ½ Pice."** Prid. 395. **Rare. Bronzed Proof. (Photo)** **($100-Up)**

Arms (as last)/inscr. Slightly bent, evidently as made. Not the best surface, altho not mishandled.

2843 Pattern Paisa. **Punjab (Sikhs).** Copper. Valentine 8, Krause p. 977 #5. **Rare. AU. (Photo)** **($200-Up)**

Inscriptions both sides, large leaf on reverse. Machine struck, reeded edge. 8.17gms, 27mm. Brown, some red, rather prooflike. Krause gives the date on the coin as (AD) 1830. We think the date may be 184-(unfinished).

An example brought £2½ in a 1902 Sotheby's sale (= $12.50¹)

2844 **AH1312** (AD 1894-5). **Pattern Rupee. Hyderabad.** Adopted design, **struck in copper.** As Y.32 (itself scarce). Reeded edge. **XF.** **($125-Up)**

UNUSUAL 1949 PROOF SET

2845 **1949. Republic Proof set.** Pice; 1, 2 (2 varieties) Annas; ¼, ½ (2 varieties), 1 Rupee. **Yeoman lists no coins before 1950.** Unadopted designs. **(Photo)** **(——)**

All are struck to normal, 1950 (Y.61-67) coin specifications. All have the adopted obverse design. All give the denomination in three languages *(only two on adopted designs).*

Regrettably, we have no further information on these coins.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

ITALY

2846 **1906. Pattern 100 Lire** (gold) struck in **gilt.** Pagani 141 **(R3). Choice Matte Proof. (Photo)** **($750-Up)**

Vittorio Emanuele III, 1900-44 (abdicated). Head left */Italia in car being drawn by four lions. Marked "PROVA" on reverse. By Egidio Boninsegna & Johnson. Reeded edge, 14.67 grams (Pagani = 15.68). Also listed in gold (Pagani 140, R4—probable value $20,000-Up). As is customary with Boninsegna, this is a piece of great beauty.*

A gilt 100 Lire pattern of 1903, p. 139, "AU, light handling, light tarnish," was offered by Jess Peters, 8/71 FPL, for $400.

UNLISTED PATTERN 100 LIRE

2847 **1907. Pattern 100 Lire (gold),** struck in **gilt.** Like Pagani 146 (R3). **Matte Proof. (Photo)** **($750-Up)**

Vittorio Emanuele III, bust left */Italia standing with plow in wheatfield. Reverse marked* PROVA. *Reeded edge, 12.68 grams. Minor edge bruise (drop mark) at 4:00 reverse, and some tarnish (rather minor), else* perfect.

Another splendid Boninsegna design, struck by Johnson. Like Pagani 146-R3-except no obverse legend (not yet added). While all these gilt 100 Lire are very rare, this may be in its own league.

2848 **1908. Pattern 100 Lire,** struck in **gilt.** Pagani 153 **(R3). Matte Proof. (Photo)** **($750-Up)**

Vittorio Emanuelle III, bust right/Italia, walking left, in negligee. By Boninsegna & Johnson. Edge reeded, 16.42 gms. A third, different example of these very rare, very beautiful patterns.

2849 **N.D. Pattern 2 Lire in silver.** Reverse only. Pagani—. XF+. **(Photo)** **($100-Up)**

2850 **1911. 2 Lire.** Semi-Centennial of Kingdom. Y.58. Finished dies on thick, 35mm lead blank. **Unc. and superb. (Photo)** **($250-Up)**

PAPAL STATES

VERY RARE 1878 5 LIRE

2851 **1878. 5 Lire. Silver.** Fantasy struck in Brussels Mint. **Prooflike. (Photo)** **($500-Up)**

Leo XIII, 1878-1903. One of the most notable men of his century (either one). Bust/arms dividing "5-L." Edge grained right. "Angel's head" and "B" mintmarks to l. & r. of date. "SAGGIO" (Italian for "essay") below bust.

Papal coinage was forcibly suspended by the Italians, who took Rome in 1870. Thus there are no true coins of Leo XIII (there is paper money, issued for internal Vatican use, and prohibitively rare). This piece is as much related to the satirical French 5 Francs of the 1870's ("Monnaies de Tradition") as to the Papal series, whose extension it simulates.

This is an important piece for the collector who wishes to represent another Pope with a coin. It is not in Muntoni or Serafini and we believe it may be rarer than other 1870's pretender and satirical crowns. It has been polished, although it is hard to tell; is nicely toned; and is free of surface marks. A fascinating, rare and attractive crown, our estimate should prove conservative.

IRAN

2852 **AH 1294** (= AD 1877). **25 Dinars.** Copper. **Trial striking.** Y.2. Red & brown **Unc.** **($45-Up)**

LIBERIA

The following patterns, all bronze or copper, are among the more attractive 19th Century productions. They were cataloged by Ernst Kraus in Numismatic Scrapbook, 1941; these listings are now in Krause-Mishler (KM). Kraus states that it is a mystery who produced them; others point to W.J. Taylor, the Birmingham medallist, who struck the 1847 and 1862 coinage.

A number of the lots are from our June 1977 McNally sale, which contained the first run of Wayte Raymond estate material. Please note that 2½ years ago these were selling above current Krause-Mishler prices.

2853 **1847. 2 Cents.** Y.3. Regular issue. **Proof,** superb 2-tone color. **($100-Up)**

2854 **1847. 1 Cent. Pattern.** Krause-Mishler 1, Ernst Kraus 2. **Nice bronzed Proof.** **($75-Up)**

Appears to be regular dies, but badly broken. Obviously a W.J. Taylor restrike.

2855 **1847. 2 Cents. Pattern.** KM2, K1. **Proof.** **($75-Up)**

Bronzed, but a very light colored finish, fields almost red. Tiny spotting, mainly on reverse, but otherwise nearly perfect and overall very beautiful. Ex-NASCA McNally sale (ex-Wayte Raymond), 6/77, opened $55, sold for $80; a good illustration of how low Krause's prices are—this lists only for $50!

2856 1868. **2 Cents.** Pattern. KM 16 ($100), K 17, Ex-WR. **Proof,** reddish, five small obverse edge nicks. **($60-Up)**

2857 1890. **2 Cents. Pattern.** KM 52, K 33. **Proof.** **($60-Up)**

Liberty Head/shield in wreath. The wreath copied from the U.S. 2c. Toned brown/red. Tiny spotting but choice otherwise. Ex-Wayte Raymond

2858 **1890. Pattern 2 Cents,** as last. **Proof,** some lacquer. **($50-Up)**

2859 **1890. Cent. Pattern.** KM 48, K 32. Red-brilliant/brilliant **Proof.** **($65-Up)**

Type as last, but smaller. Ex-Wayte Raymond (McNally sale, $55).

2860 **1890. Pattern Cent,** as last. Brown and multicolored **Proof.** **($50-Up)**

2861 **1890. 2 Cents. Pattern.** KM 51, K 31. **Proof.** **($75-Up)**

Liberty Head/shield. Red, obverse fairly brilliant. Ex-Wayte Raymond (McNally, $60).

2862 **1890. Pattern Cent.** Similar to last, KM 47, K 30. **Proof,** nearly full red. **($55-Up)**

2863 **1890. 2 Cents. Pattern.** KM 53-54, K 35 or 37. **Proof.** **($55-Up)**

Liberty Head/TWO CENTS 1890 in 3 lines in wreath (copied from 1864-73 U.S. 2 Cents). Some tiny spots but full red. Ex-Wayte Raymond.

2864 **1890. Pattern Cent.** KM 49, K 34. Similar to last. **Proof.** **($55-Up)**

Fully red. Reverse mottled, but obverse two-toned and exquisite. Ex-Wayte Raymond.

LITHUANIA

MADAGASCAR

REMARKABLE OFFERING OF 7 DIFFERENT PATTERNS

2866 **1883. Pattern 5 Francs. Silver.** Dav. 67, VG 4005 (1000), G & C 6 (FF 3000 in "Superbe"). **AU. (Photo)** **($500-Up)**

Ranavalona III, Queen 1862-1917. From the variety of metals in which this is known, Reginald Huth is indicated as its source. Huth was an admirer of queens and struck lovely patterns for Hawaii's Liliuokalani and others. This piece was not struck as a proof. It should bring well over estimate.

2867 **1883. Pattern 5 Francs.** As last, but **bronze. Proof, full bright red.** **($300-Up)**

Not in VG. Cadoury-Cousinie IT 1200 "Superbe."

UNLISTED ALUMINUM STRIKING

2868 **1883. Pattern 5 Francs,** as above. Struck in **aluminum. Brilliant Proof. (Photo)** **($500-Up)**

We found no listing for any Madagascar patterns in this metal (several are listed in gold and platinum), not even in the recent, rather comprehensive Gadoury-Cousinie work. This is certainly rarer than the silver and bronze strikes; this piece brought $180 in Schulman's May '66 sale. 13½ years later, it should be worth more than three times as much (although we are estimating the lot low). There is no oxidation or discolor; minor, tiny abrasions are present, presumably from being stored loose with other coins.

2869 **1883. Pattern 10 Centimes.** VG 4006, G & C (FF 750 "Superbe"). **Choice Unc.** **($125-Up)**

Basically similar to the 1883 5 Francs, but 30mm bronze. Blue, brown, and red toning, original mint color remaining in the devices. Gadoury price (= US $170), probably low on the other patterns, is rather high on this one.

2870 **1886. (5 Francs). Silver.** Dav. 68, VG 4037 **(2500),** G & C 7, **Choice Proof. (Photo)** **($700-Up)**

Ranavona, bust/crowned "R," "ROYAUME DE MADAGASCAR." VG prices this 2½ times as high as the 1883 type! *Its rarity has been overlooked, probably due to infrequency of sales appearances. A piece with an edge nick brought $550 six years ago (Seaby/New Netherlands, 11/73, NYC), a price we think was low even then. A price double our estimate seems in order.*

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

VERY RARE OFFICIAL PATTERN

2871 **1888. Kirobo.** VG 4092 (1000), G & C 5. **Struck as a pattern only.** Silver. **Choice, brilliant prooflike Unc. (Photo) ($750-Up)**

Queen's bust, diademed, name & title around (in native language, not in French as on several Huth types)/crown over value, all in wreath. Reeded edge.

Apparently always struck in silver. Despite Gadoury & Cousinie's price—about $450 XF-AU—this is quite rare. In fact, G & C give the wrong diameter and weight, so we assume the piece is actually unknown to them. The Kirobo is a local value equal to ¼ Piastre (see our London sale, lot 2226). The two pieces in this sale weigh 6.73 and 6.74 grams (not 5.00 as per G & C) and are nearly 24mm (G & C = 23mm). It appears G & C thought a Kirobo was actually a Franc! As this piece was lacquered it is as bright as when struck. It is the only Madagascar token not classed as unofficial by VG; despite the appearance of two specimens at one sale, we believe this is one of the rarest and most important coins of Africa (or Oceania), and expect it to reach or exceed four figures.

A SECOND KIROBO

2872 **1888. Kirobo,** as above. **Choice Unc.,** somewhat prooflike, light toning. **(Photo)** **($750-Up)**

VERY RARE 1895 HUTH PATTERN

2873 **1895. (5 Francs).** Dav. 70, VG 4243d (platinum only), G & C 9. **Very Choice Proof. (Photo)** **($1,000-Up)**

Queen's bust/crowned heart on open rose; on the heart, a large "R" divides date. Lovely blue-grey-turquoise toning. A Huth masterpiece!

VG prices the other variety of 1895 5 Franc (Dav. 69) at 3500, the highest price for Madagascar (silver strikes). VG (1942) did not know of this piece in silver, and both 1895 types were last-minture insertions, added to the numerical sequence. It follows that they are very, very rare. In this superb condition, a price near $2000 seems right (even this is less than half the price of Huth's Hawaiian pieces).

MEXICO

2874 **1883. 2 Centavos. Uniface obverse and reverse strikes** of the regular issue. Y.5. Struck in copper, not copper-nickel. **Brilliant Proofs. 2 Pcs. (Photo)** **($300-Up)**

Hanks lists similar paired uniface strikings of the 1 Centavo (unpriced) and 5 Centavos ($400), but not this denomination. Our estimate is very cautious. Some light spotting on the obverse. Ex-Wayte Raymond, part 1, #2546, at $350.

MONACO

2875 **1838. Pattern Decime** by Rogat. Copper. **Choice Unc. (Photo)** **($200-Up)**

Honore V, Prince, 1819-41. Head left/value, date, etc. in wreath. Plain edge in collar. Boldly detailed strike, somewhat two-toned, as fields are reddish brown, raised design and letters even brown.

See France, 1848 Pattern 10 Centimes, for a piece evidently overstruck on one of these Rogat Decimes.

2876 **1838. Decime. Pattern,** as last but yellow bronze. **Unc.** **($135-Up)**

Lacquered, thus in full brilliance, but may have been cleaned.

2877 **1838. 5 Centimes. Pattern** by Rogat. Copper. **AU** or **Unc.** **($75-Up)**

As above, only smaller. Lacquered, thus brilliant, but probably cleaned.

NICARAGUA

2878 **1887.** "2 CENTS". Pattern, Guttag 3939, Almanzar-Stickney 4. Bright Red **Proof.** **($75-Up)**

Triangular arms/value, date in wreath. "E" below. Plain edge. Some toning, but in the main a blazer. *Ex-McNally (ex-Wayte Raymond), 6/77, at $130*

NIGERIA

2879 **1962. Shilling.** Pattern. **Unc.** **(——)**

As Y. 5, but TRIAL in raised letters, left obverse field, and same in right reverse field. "T" of "TRIAL" on reverse is an inverted "J". Security edge, coppernickel. Remick did not record any patterns or trials for Nigeria.

PANAMA

2880 **(1907?). Pattern 2½ Centesimos.** Brass. Better than **VF. (Photo)** **($150-Up)**

Similar to the regular issue, but no date or legend on obverse (arms larger, with small engraving differences), also different numeral and no stars on reverse. 21mm, 4.71 grams. Cf. Freeman Craig catalog 52, AEF $250.

PARAGUAY

2881 **1868. Pattern 2 Centavos.** Golden bronze. Guttag 3977, Almanzar-Stickney #P30. Tiny obverse spots, but fully brilliant prooflike **Unc.** **($75-Up)**

2882 **1868. Pattern 2 Centavos.** Guttag 3977, A-S #P30. Lustrous **AU/ Unc.** **($55-Up)**

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

2883 **1888. Pattern Peso.** Dies as 1889 regular issue. Bronze. Guttag 3983, Almanzar-Seppa #P41. Lovely **Proof. (Photo)** **($500-Up)**

Star on rays, in wreath/lion raised on front legs, pole and liberty cap behind. One of the loveliest and most original designs among South American crowns. Plain edge. Minor spotting, but free of hairlines and with lovely, light-bronze toning, some iridescent overtones and some original mint red.

Guttag lists pieces in both bronze and copper (#3984), but damned if we know what he meant. A & S list only copper. An aluminum strike, one small oxidation spot, brought $460 in last April's Hamilton-auction.

PERU

GUTTAG PLATE COIN

2884 **1835. Pattern 8 Reales.** Guttag **4366-this coin!** Copper. **Rare. Brown Unc.,** proof-like fields. **(Photo)** **($500-Up)**

Obverse: as reverse of the Cuzco 8 Reales, Cr. 132.3b (1830-34). Reverse: FIRME Y. FELIZ etc. around five-line advertising inscription by the coiner, Thonnelier. Plain edge, 24.51gms, 38mm.

Thonnelier engineered a coining press and busily set about striking patterns to solicit orders. The French series are listed by VG and Mazard.

Included is a piece struck for Chile, with french legends, which is rare (VG 3860, Fonr. 9867, not in Guttag).

This coin is toned brown, with original mint red in the devices on "obverse", trace of red on "reverse". Fonrobert had examples in silver (#9224) and copper (#9225).

2885 **1837-LIMA/B. Pattern 8 Reales by BARRE.** Bronzed copper. Guttag 4379? **Not in Fonrobert. Rare. XF. (Photo)** **($500-Up)**

Basically like the regular issue of this year, with dozens of variations: 1) LIMA spelled out (not in monogram); 2) fantasy assayer "B"; 3) LIBERTAD on shield perpendicular (not in 3 horizontal lines); 4) BARRE in reverse exergue; 5) Liberty holding a spear. *6) Incused stars-and-flora edge pattern; etc. Guttag lists, but doesn't describe or illustrate, an "1837" 8 Reales. Termed "Copper" and "PATTERN", he doesn't give mint or assayer. Forrer does not list this piece.*

PREVIOUSLY UNCONFIRMED TYPE COIN
A NEW DENOMINATION

2886 **1875. Medio Centimo.** Copper. Guttag 4482. **Pattern??** Presumably **of the highest rarity. Nice VF,** edges a little knocked. **(Photo)** **($1,000-Up)**

Sunface, REPUBLICA to left and PERUANA to right/MEDIO CENTIMO in oval wreath, tied at bottom and slightly open at top; LIMA above, date below. 24mm (.957 inch), just over 2mm thick. 8.51 grams. Plain edge.

This is the only Peruvian coin denominated in CENTIMOS *("Centavos" being normal). In the Quarterman reprint of Guttag, in the new supplement, it is stated, in explanation:* "Typographical error; likely a half dinero." *Guttag (Adams) did not photo this coin nor denote it a pattern. That its existence could be so strongly doubted, 45 years after being published, can only bespeak great rarity.*

In a telephone conversation, Alcedo Almanzar, the most experienced dealer in Latin American coins, told us he believed he had handled this coin once before, in Prooflike. This would indicate the coin could be a pattern; there is nothing about our piece to suggest it was specially struck, and it looks to have seen fairly considerable actual circulation. We hope further research into this anomalous issue will be conducted by its new owner.

POLAND

2887 **1923. Double-reverse 2 Grosze Pattern.** Struck in **GOLD. Extremely Rare. Unc. (Photo)** **(——)**

Pattern design with date & value in wreath. Ex-Schulman "Atomic" sale, wherein described as a pattern by Aumulter, ex-Farouk and Unique. *(Farouk 1121). Plain edge, 2.71gms. Dies a little rough - a later striking, for the King?*

2888 **1924. 20 Zlotych. bronze pattern. Double Thickness. Unc.**, a few tiny spots. **($100-Up)**

Crowned eagle, value/Monogram. Very scarce.

ROMANIA

The following lots may comprise the largest-ever one-time offering of Romanian patterns. With a half-dozen exceptions, as noted, *all are from the collection of Aurelio Rauta,* the distinguished Spanish numismatist who has given us the standard work on Romanian coinage.

A very high percentage of all extant pattern types is included here. This is due to a fortunate consignment, not to an inherent plethora of patterns for this country. Nonetheless, many collectors and dealers have shied away from the Romanian series (in comparison to the really extensive and common Belgian and French series, for example). This collection represents an opportunity-probably the last-to acquire Romanian patterns while the market does not yet fully appreciate them.

2889 **1867. Pattern 10 Bani.** Rauta 2. **Proof** (dull). **($150-Up)**

As regular issue (Y. 4), Watt & Co., but struck in copper-nickel, *1½ times normal thickness (15.35 grams).*

2890 **1867. Pattern 5 Bani.** Rauta 1. **Proof.** **($125-Up)**

As regular issue (Y. 3), Watt & Co. but struck in copper-nickel and 1½ times normal thickness. Hairlines and tiny spots.

2891 **1867. Pattern 5 Bani. Proof** (red) **($100-Up)**

As the regular issue (Y. 3), Watt & Co., normal metal (bronze), but 1½ times normal thickness and weight (7.53 vs 5 grams). Some dirt in obverse edge beading.

VERY RARE AND HISTORICAL 1869 PATTERNS
BY WYON

At the time these patterns were authorized, Romania was trying to gain complete independence from Turkey. Placing Carol's portrait on coins, and striking them in Bucharest, was a defiant gesture, viewed as illegal by Turkey. Three silver denominations were prepared and struck as patterns in the Bucharest mint. The identical Wyon designs with bust right were used on the 50 Bani, Leu and 2 Lei.

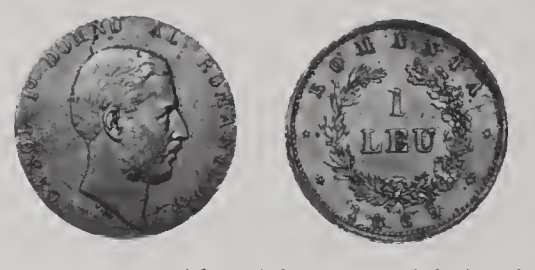
In 1870 a fairly limited issue of 1-Leu and 20-Lei (gold) coins was struck and circulated; thereafter, the Romanian government backed down, closing its mint and having only non-portrait types made in Belgium. The 1870 coins, engraved by the German, Kullrich, have bust left.

A set of 1869 patterns in silver was in the Farouk Collection (lot 2503). A white metal set, Unc., was offered by Peter Ireland for £1250 last spring.

The pattern-only status of the 1869 issues, an act of self-censorship, in a sense, reflects a last gasp of Ottoman power on the European continent (Romania itself successfully revolted in 1877). We consider these pieces to be of the greatest historical value.

2892 **1869. Pattern 2 Lei. White metal.** Rauta 10. **Very Rare.** Plain edge. 8.24gms. **Proof. AU,** small field scratches. **(Photo)** **($400-Up)**

Underscoring the rarity of the 1869 patterns is the observation that the 8/71 Jess Peters listing had none (despite 41 patterns, 1867-1910).



2893 **1869. Pattern 1 Leu. Double-thick copper-nickel** striking, proper reverse die, but **struck with obverse 2 Lei die!** Not in Rauta, presumably **unique. XF. (Photo)** **($500-Up)**

Plain edge. 11.06gms. No border on obverse, the tops of the lettering coming right to the edge. Rauta did not publish any 1869 pieces in other than "pewter", silver, or Ae.

2894 **1869. Pattern 1 Leu. Bronze** (or copper), Rauta 6. **Very Rare.** Reeded edge, 5.02 grams. **Proof,** red & brown, small spot. **(Photo)** **($350-Up)**

2895 **1869. Pattern 50 Bani. White metal.** Rauta 4. **Very Rare.** Plain edge. 2.99gms. **Proof, AU,** a few small dents. **($300-Up)**

2896 **1869. Pattern 50 Bani. Bronze** (or copper). Rauta 3. **Very Rare.** Reeded edge. 3.17gms. **Proof,** lacquered, ¾ brilliant. **($350-Up)**

2897 **1896. 1 Leu.** As Y. 9 (scarce date), but **pattern striking in copper-nickel.** Dull **Proof.** **($125-Up)**

2898 **1876. 50 Bani.** As Y. 8, but struck in copper-nickel. Reeded edge. Rauta 12. **Proof.** **($100-Up)**

RARE PARIS ESSAY

2899 **1876. Pattern 20 Bani.** "German silver" (copper-nickel-zinc). Struck in Paris. Rauta 15, VG 3883 (300!). **XF. (Photo) ($300-Up)**

Arms, etc/"PARIS" in rope circle, "ALLIAGE SEBILLOT" around; at bottom, a star with a raised "B" on it.

These were metallic essais conceived by those French nickel interests who wished nickel (or "maillechor") to become a major coinage metal. The later pieces for New Caledonia are much better known, as they are much commoner (yet sell for $100-Up).

There exists a companion coin to this one, with a Greek obverse (20 Lepta), identical style, using the same reverse die. It was lacking in the CICF and Spink sales earlier this year. VG (#3882) priced it at 300 Francs, indicating it is not more rare than this piece.

TRIAL STRIKINGS OF THE 1906 GOLD COMMEMORATIVE COINS

2900 **1906. 50 Lei. Gold commemorative coin,** Fr. 6 ($650), struck in **pewter.** Rauta 29 (metal not listed). **Proof. (Photo) ($450-Up)**

Dies as the regular issue (bust/young mounted King), plain edge. Thick, 20.83 grams. Minor nicks, light hairlining. Brilliant grey-and-turquoise, attractive.

These commemorate the 40th year of Carol I's reign. The equestrian reverse on the 50 Lei refers to Carol's role in the 1877 revolt against the lingering Turkish domination.

2901 **1906. 25 Lei. Gold commemorative coin,** Fr. 7 ($400), struck in **aluminum.** Rauta 29. **Proof. ($250-Up)**

Bust (by Michaux) as last/spread-winged eagle, cross in beak. 40th year of reign. Edge plain.

2903 **1906. 25 Lei.** As last, only **silver.** Not ex-Rauta. **Proof. (Photo) ($325-Up)**

2912 **1905. Pattern 20 Bani.** As Y. 36, but **no center hole** and a **piedfort striking in aluminum.** Plain edge. **Proof. (Photo) ($200-Up)**

Piedforts are not cited by Rauta and may be quite rare. *Surely of greater interest than the $75-125-a-shot Paris mint pieces.*

2913 **1905.** As last, **copper or bronze. ($175-Up)**

2914 **1905.** As last, normal thickness. Struck in **gilt. Proof,** handling. **($85-Up)**

No regular-issue coin was struck in aluminum until 1907.

RARE 1914 PATTERNS

2941 **1914. 50 Bani. 1, 2 Leu. Patterns in silver.** Rauta 38-40. **Proofs. (Photo)** **($750-Up)**

All featuring the aged bust of Carol I, with arms on reverse. Engraved by Pillet and made in Paris. Rarer than the Belgian-produced patterns, which habitually were prepared in various non-precious metals (Rauta lists the 1914 pieces in silver only).

With the out break of war, and the death of Carol late in 1914, the projected design change came to naught, leaving only these lovely pattern coins. Mr. Westfall priced the trio at $950. They were not in the Jess Petters list (8/71).

2942 **1921. Pattern 1.25 Leu.** Rauta 42. Coppernickel, plain edge. **Very Rare? Unc. (Photo)** **($100-Up)**

2943 **1921. Pattern 50 Bani.** Rauta 41. Copper-nickel, plain edge. **Very Rare? Unc. (Photo)** **($100-Up)**

2944 **1922. 5 Lei. Crown-sized pattern** in copper-nickel. Rauta 46 (bronze). **Rare. AU. (Photo)** **($250-Up)**

Bundle of wheat/value. Plain edge. Very pretty. Rauta refers to a brass specimen in the May '67 Christensen auction. 35mm, 13.02gms.

2945 **1922. 5 Lei. Crown-sized pattern** in coppernickel. Rauta 47. **Rare. Unc. (Photo)** **($275-Up)**

Kneeling nude girl with candle/value (as last). A very beautiful coin. 33mm, 12.45gms. Plain edge

2946 **1922.** As last, but brass (or golden-bronze). 13.01gms. **Unc.** **($275-Up)**

2947 **1924. 2 Lei.** As Y. 50, but **struck in silver. Rare.** Rauta 50. Plain edge, 8.82gms. **Proof.** **($175-Up)**

2948 **1924. 2 Leu.** As Y. 50, but **plain-edge patterns in copper** (or bronze), **brass, and aluminum.** Rauta 50. **3 Pcs. Proof.** **($150-Up)**

All lack the "zig-zag" mintmark of Brussels (as does the previous). Inlcuded is a fourth piece, reeded, copper-nickel, no zig-zag, choice Unc., with full wire edges, supposedly a pattern but we think not.

2949 **1924 Leu.** As Y. 49, but struck in **silver. Rare.** Rauta 49. **Proof.** **(——)**

3.66gms., reeded edge. No "zig-zag" Brussels mintmark.

2950 **1924.** As last, **pattern strikings in gilt, copper** (or bronze) and **aluminum. Proof. 3 Pcs.** **($140-Up)**

2951 **1924.** Gilt pattern, as last. **(——)**

Added: 2 pieces described as patterns; we think not.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

RARE 200 LEI, 1935

2952 **1935. Pattern 200 Lei.** Rauta 54. **Silver. Very Rare. AU. (Photo)** **($300-Up)**

Identical to the regular issue, Y. 63, in design (except for value) and specifications. .750 silver, .250 copper, 29mm, 13.51gms. Also listed in Krause (unpriced).

One of the best examples of inflation in coinage history. Before it could be issued, it was, in effect, revalued upwards by 25%! May be worth well over estimate.

2953 **1939. Silver 250 Lei.** Regular dies and edge (Y. 64), engraved "7" above date. **Unc.** **(——)**

2954 **1942. Silver 200 Lei.** Regular dies and edge (Y. 77), engraved "3" behind head: **Unc.** **(——)**

2955 **1922-43.** Four pieces described as patterns. **(——)**

1942 20 Lei, and 1943 100 Lei, regular types but cstpd "3" under value, while in die; *token 20 Bani, brass, A. Kroeber, Vetresci, VG (possibly pre-1922); 1922 copper-nickel piece, unidentified, Fine (20 Bani?).*

ST. HELENA

2958 **1791. Dollar.** "100" variety. Copper. Cr. 6a. **Bronzed Proof. (Photo)** **($500-Up)**

Lion/clasped hands. Wayte Raymond 3 = $625, although this is not as nice.

Still, a very attractive coin *that has increased in popularity, and of course* rare.

SOUTH AFRICA

CAPE OF GOOD HOPE

2959 **1889. Pattern Penny.** Kaplan 39-41, variety. **Proof. (Photo)** **($350-Up)**

As Kaplan 39-41, but with variations in the obverse die, and very heavy weight, 186 grains (12.08 gms), versus normal 142.5. Remick notes the existence of varieties in the pattern series, commenting "(i)t seems these are very rare types". Mostly in full brilliance, minor spotting.

2960 **1889. Pattern Penny,** as last (11.72 gms). **Proof,** brown and iridescent. **($300-Up)**

2961 **1889. Pattern Penny.** As last (12.27gms). **Prooflike.** Brown/Red & Brown **($200-Up)**

ORANGE FREE STATE

2962 **1874. Pattern Penny.** Remick T1, Kaplan 24, CW3, Friedberg 1. **Rare. Choice Red Unc. (or Proof). (Photo)** **($250-Up)**

Tree & powder horns/value & date in wreath. Much underrated for quite some time, now. Priced $160 by Remick in 1970, an example brought $350 in the 11/73 Seaby/New Netherlands auction (in New York).

2963 **1874. Pattern Penny,** as last, and nearly equal to it. **($225-Up)**

2964 **1874. Pattern Penny,** as last. Yellow-gold and reddish-brown tone. **Unc.** **($200-Up)**

2965 **1888. Pattern Penny.** Kaplan 32, Remick T-2 ($135 in 1970). **Blazing Proof. (Photo)** **($175-Up)**
Arms/value in wreath. Bronze, thick flan (12.64 grams).

2966 **1888. Pattern Penny,** as last. **Proof,** bright, full red, light spotting. **($150-Up)**

2967 **1888. Pattern Penny,** as last only struck in **nickel.** Remick T2 **($175 in 1970). Proof.** **($200-Up)**
Tiny spotting, otherwise choice. Brilliant. *The nickel patterns of the South African sereis are rare. This should be worth double our estimate (A Cape nickel Penny, 1889, brought $400 in the 11/73 New Netherlands sale). Latest record we can find was only $190 (Wayte Raymond 3). Non-magnetic.*

TRANSVAAL REPUBLIC

2968 **1874. Pattern 2 Pence.** Remick T-4, Kaplan 18. **Choice Unc. (Photo)** **($200-Up)**
ZAR arms/value, motto (EENDRAGT-MAAKT-MAGT) around. Almost fully red. *Remick $95 (in 1970).*

2969 **1890. Pattern Penny.** Arms/value in wreath. Remick T-3 ($135 in 1970), Kaplan 23. **Proof,** quite brilliant. **(Photo)** **($200-Up)**

2970 **1890. Pattern Penny,** as last. **Choice Proof, full red. (Photo)** **($190-Up)**

2971 **1890. Pattern Penny,** as last. **Proof,** red & brown, small spots. **($135-Up)**

EXCESSIVELY RARE ROYAL MINT PROOF 1923
¼-Penny

2972 **1923. ¼-Penny.** Y. 11. **Excessively rare variety of Proof. Very Choice. (Photo)** **($1,000-Up)**
Although of normal type, this is actually a pattern coin, *struck in the Royal Mint before dies were delivered to the Pretoria mint. The coin is a lovely proof, easily recognizable as a Royal mint piece (if one has seen any Royal Mint bronze proofs of this period-all are rare). Conversely, easily distinguishable from the rather poor Pretoria proofs. (G.P. Dyer, curator of the Royal Mint collection, has seen this piece and confirmed its status).*
A Royal Mint pair of ¼-Penny and 2-Penny Proofs brought 2500 in Capetown last year.

SPAIN

2973 **1789. Real.** "CAROLUS IIII." **Uniface obverse strike** in pewter. **Very choice brilliant Unc. (Photo)** **($250-Up)**

1868 "PROVISIONAL GOVERNMENT" PATTERN
5 PESETAS

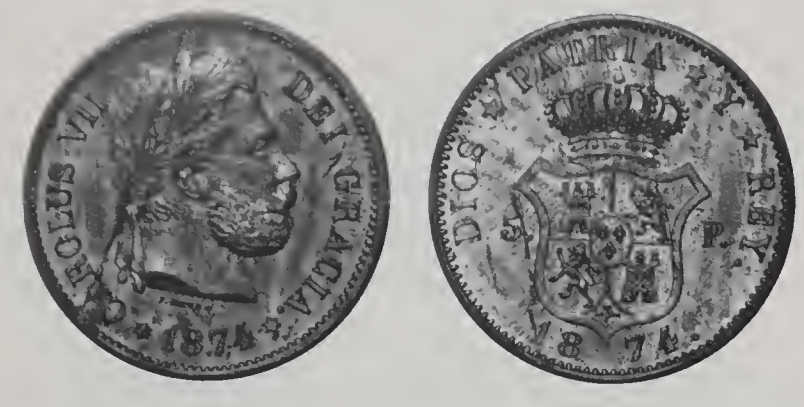
2974 **1868. Pattern 5 Pesetas. Choice Bronzed Proof. (Photo)** (——)
*Obverse with reclining Espana, simi;ar to the 1869-70 (Y. 60), but without stars. Reverse, crowned arms between pillars, as on 1869-70 issue, but different legend: SOBERANIA NACIONAL around top, *GOBIERNO PROVISIONAL* around bottom. Thick flan (3.6mm at edge), plain edge*

A TRIO OF CARLOS VII PRETENDER 5 PESETAS

2975 **1874. 5 Pesetas. Carlos VII, Pretender,** 1872-75. KM-68, CC 19943 (150,000 Pesetas) Vicenti AC/12. **Choice Proof. (Photo)** **($1,500-Up)**
Laureate head right/crowned arms dividing value "5-P"., date below. Plain edge. *37mm, 22.07gms. Double striking evident both sides, as is light die rust. Jess Peters, 8/71 FPK, $400 in bronze. We don't recall seeing a Carlos 5 Peseta in a U.S. auction since the days of the old Schulman firm.*
Late note: As we go to press, we found a sales record: Superior, 6/76, auction, $1550.

2976 **1874. 5 Pesetas. Carlos VII, Pretender.** Krause A68, CC 19942 (150,000 Pesetas), Vicenti A/C 16a. **Brilliant/ Matte Proof. (Photo)** **($1,500-Up)**
Similar to last, only date on obverse, reeded edge, 38mm, 26.31gms. Quite an attractive piece. Superior auction, 6/78, $1500

UNPUBLISHED LEAD TRIAL



2977 **1874. 5 Pesetas. Carlos VII, Pretender.** As Krause B68, CC 19945, Vicenti AC/21-24, but struck in **lead.** As such, **unpublished. Unc. (Photo)** **($750-Up)**

Similar to the above - in fact, a muling of the two dated dies. Dies cracked evidently a slightly later striking by Brichaut. Some tarnish. A piece in bronze was offered by Jess Peters, 8/71 FPL, for $400 (Krause has retained this price in the Standard Catalog ever since!). Although of the highest rarity *the coin's metal may prove unpopular with some bidders, so we have kept our estimate low. A zinc pattern 20 Reales, 186-, brought $1300, however (Wayte Raymond 1, #3346), so we may be wrong on this point.*

VERY RARE 1904 ISABELLA 5 PESETAS

2978 **1904. 5 Pesetas. Isabella II,** died **1868!** Rodriguez-Lorente 793 **(RRR). Matte Proof,** about perfect. **(Photo)** **($2,500-Up)**

Bust over date/castles and lions in quadrilobe-a throwback to 18th Century Spanish coin design. Plain edge, 37mm, 25.08 grams.

An issue of Reginald Huth, the famous (and extremely wealthy) English collector much enamored of Queens particularly after they had actually lost their thrones. His patterns for Hawaii list $3500-4500 in Krause. This is perhaps his most interesting production, and given the Spanish market may sell for more than the Hawaiians.

SUMATRA

2979 **1786. Gilt Proof 3 Kepings.** Cr. 23, Prid. 6b. **Mint. ($125-Up)**

EICO balemark/arabic. Matthew Boulton's first coinage.

2980 **1787. Keping. Plain-edged Gilt Proof.** As Cr. 21, Prid. 19 var. **Unc.** **($100-Up)**

Similar to 1786 3K above. Pridmore notes a plain-edged proof is "recorded". This piece has a plain, rough edge; the gilt surface is unevenly applied, thus much of the surface has a spotty, reddish tone. Attractive, possibly rather rare.

SWITZERLAND

2981 **1839. Geneva. 4 Centimes.** Cr. 64. **Presentation strike in silver. Choice Prooflike Unc.** 2.13gms. **($125-Up)**

Arms (key and half-eagle) value. Light and very attractive iridescent toning. Only one contact mark is visible without a glass, and finding it requires considerable eye strain.

2982 **1851. Pattern in silver,** for the **gold 20 Francs.** Not in VG. **Proof. (Photo)** **($300-Up)**

"ESSAI DE MONNAIE SUISSE" around clasped hands and date. Reverse blank. Plain edge, extremely high rims due to striking pressure. 20½mm, 3.45 grams. Some die rust. VG (France) lists a number of Swiss patterns (Paris mint) of different types, for 1851.*

2983 **1854. Pattern 2 Francs,** by Bovy. Brass. **F/VF. (Photo)** **($100-Up)**

Bust/inscr. in wreath. Edge reeded. Light scratches; dig over head.

TURKEY

2984 **(AH1277). Year 4** (= AD 1864-5). **40 Para.** Uniface lead striking (splash) of obverse die (Y. 7). **AU,** small scratches and hole. **($50-Up)**

2985 **AH1277** (AD 1860). Year—(undated). **Pattern 10 Paras.** As Y. 5 (Year 4 only). Choice, tan to brilliant prooflike **Unc.** **($150-Up)**

2986 **AH1277. Pattern 5 Paras, no regnal year.** Companion piece to the last lot. Tan and red **Unc.** **($100-Up)**
